WANTED VOLUNTEERS FOR MAYOR AND COUNCILMEN

With only a month left in which to file the city is in need of candidates for mayor and three councilmen. If there are no volunteers it looks like some people will have to be drafted.

The city should have good sound, substantial men on its council. But it is hard to find men who feel that they can devote the time to the job and take the criticism which goes with it. However, the city must be governed and it is up to us to do it. Let's get busy and bring out some candidates for these offices. Perhaps if the men won't serve we'll have to get a few women. Seattle has had women councilmen and a mayor, why not Springfield.

AL ON DEFENSE

Outside of the time Al Smith took out for his acceptance speech he has been busy defending his record. If he keeps on at that Mr. Smith will be explaining after election how it happened he didn't get more votes.

The defensive in this campaign is the part of the Republicans, provided the Democrats can put them on the defense. If Mr. Smith keeps on answering the charges of William Allen White and Dr. Stratton the election may be over before he knows it. Neither of these men are running for the presidency. They are just putting on a little side show for Al while the main performance is going on in the big top.

It has repeatedly come to our attention that the streets of Springfield are not all marked. Of course, who who live here can find our way about easily but let a visitor or a new comer attempt to find a certain address he must inquire considerably to locate it because many of the streets are not marked with the name.

Between two and three hundred people have visited the glaciers in the Three Sisters region this year. If these glaciers were in California, and as easily accessible as they are, there would be a good road to them. Some day when the "Go Ahead Oregon" spirit is at the right pitch perhaps we can also build a road to them. When we do we will have the greatest attraction for tourists in Oregon outside of Crater Lake.

There is no doubt any more as to how to pronounce the name of Tunney. The reports that he is leaving the ring with \$3,000,000 in his pockets make it sure that it is pronounced to rhyme with money!

A blind man regained his sight in the chair of a barber shop while getting a massage. Male vanity being what it is, we guess the miracle was accomplished through the sheer intensity of his desire to see himself "prettied up."

Now that the trans-oceanic telephone communication is possible, the operators will be giving us the wrong country instead of the wrong number.

The 12 miles of oiled macadam on the McKenzie highway is fine. What we need now is about 80 miles more of it.

Texas Guinan, who originated the phrase "Give the Little Girl a Hand," is getting it. But it's the hand of the law.

Add similes: As easy as finding a cigarette butt in Scotland.

\$5,000,000 WISELY USED

John D. Rockefeller, Jr., is restoring the old town of Williamsburg, Va. He has donated five million dollars for this purpose.

The wisdom and graciousness of this donation should be shouted from the roof-tops! Think of it! One individual giving five millions of dollars for the common cause of beauty. Rockefeller is saving beauty from decay and is perpetuating historical monuments. He is doing something fine and noble for the Soul of America.

The old Colonial houses of Williamsburg, Va., with their wide chimneys and fan-windowed doors, were rapidly going to ruin.

Ugliness was born of the war munitions era. Now the city, which was once the seat of American government, is to be reproduced just as it was a hundred years ago. The buildings of historic William and Mary College are to be restored. The old Capital building will be rebuilt. Even the pavements and street lamps will be made to look as they did in the old days.

When the renovations are completed in the town, it will be the mecca of all interested in American history. It will be possible to see the actual places where immortal words were said and where immortal documents were signed.

The gratitude of all Americans is due Mr. Rockefeller for his inspiring and public-spirited gift.

"The foundation of business is confidence, which springs from integrity, fair dealing, efficient service, and mutual benefit." This is one of the principles promulgated by the United States chamber of commerce. It should be pasted in every businessman's hat band.

Only 29 of 150 college girls interviewed said they would marry Colonel Lindbergh if they had the chance. But who ever denied a woman the right to change her mind when the chance came?

There are six million less horses in the United States than during the war period. This we imagine is not encouraging news for the man who has hay to sell.

It doesn't take the reports of airplane companies to convince us that women are getting more flighty all the time.

Chicago contemplates a new election rule: "No bombing within fifty feet of the polls."

Now is the time to shed light on the "dark horses" of the coming campaign.

Editorial Comment

MORE INMATES IN STATE INSTITUTIONS

At the nine state institutions for the care of the insane, feeble-minded, prisoners, and other wards, the population July 31, 1928, was 4,964 as compared with 4,747 on the same date in the year 1927. The increase in the population has been in the hospitals for the insane and in the state penitentiary. In the former institutions the increase has been 121, while at the latter institution it has been 112. There are no particular changes in the population of the other institutions with the exception of the boys' training school wherein there has been a decrease of thirty-three inmates during the year. Per capita cost, it will be noted, has somewhat decreased in most of the institutions. In those cases where an increase is shown it is very small. It might be stated that the population of the penitentiary is away beyond the institutional limitations. If there is the same growth in the population at the penitentiary during the next two years as there has been during the past two years additional quarters for caring for the added population must necessarily be provided for. I believe it can be stated that there has been a more marked increase in the population of the penitentiary during the last eighteen months than there has been during any like period for a great many years past.

ROOSEVELT TROPHY IS COVETED AWARD AT ANNUAL ROUNDUP

PENDLETON, Ore., Aug. 23.—Round-Ups come and go, but championships go on forever. Each year sees new champs crowned and the dawn of each Round-Up finds fans conjecturing as to the winners of the laurels. Of course, there are many championships and many prizes and one of the most coveted is the big silver Roosevelt trophy, presented by the Roosevelt Hotel in New York for the cowboy having the greatest number of points in the major events (bronk riding, bulldogging, roping and the bucking horse race) at the Cheyenne Frontier Days and the Pendleton Round-Up.

This trophy, to be kept in permanent possession, must be won for three years, not necessarily successive, and the only cowboy who has two wins to his credit is Bob Crosby, who won it in 1927 and also in 1925. It was thought that Bob would win this year and thus hog-tie the trophy for keeps.

But Lady Luck decreed it otherwise. For at the Cheyenne show, Shark Irwin, who is, by the way, a former Round-Up bucking champion, piled up points to the tune of 120, and with these to his credit, will be the strongest contender for the trophy at the Round-Up September 19, 20, 21 and 22. Only phenomenal performance by some cowboy who might make many first places at the Round-Up could overcome Shark's lead of points and wrest the prize from him.

QUARTERS FOR LAUNDRY ARE BEING REMODELED

The room in the Elite hotel building at the corner of Third and Main streets which will house the Springfield laundry was thoroughly remodeled this week.

A new floor was placed throughout the entire length of the building in order to support some of the heavy machinery of the laundry.

The front part of the room will be used by the New Service Cleaners, successors to J. F. Nadvornik, who now occupy the office space just north of the postoffice.

Managers of the laundry expect to have most of their equipment in the new location this week.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician, says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall-Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store—(Adv.)

MONEY CAN'T BUY A BETTER OIL than THE NEW ZEROLENE

FOR THE MOTOR CAR'S YEAR OF YEARS

A STANDARD OIL PRODUCT

The New, New York--the Choice of Good Taste

Wherever people of good taste gather white gold spectacles and eyeglasses wear is noticeable. Our prescription work carries a certified certificate. A quality product that is genuine.

Two in Hospital—Mrs. Hazel Finley of Portland underwent a major operation in the Pacific Christian hospital Monday. Mrs. E. I. Van Orden is also in the same hospital following an operation Monday. Both are under the care of a Springfield doctor.

Ohio Editor Visits—John C. Martin, publisher of a newspaper in Val Center, Ohio, was a visitor at the Springfield News office Monday morning. Accompanied by his wife and daughter his is on an automobile tour of the middlewest and west.

The Dry and Dusty Time

Fall is coming and it is the dry and dusty time of the year before the rains start. You won't mind it though if you are regular with Eggimann's ice cream and soft drinks. They are the proper refreshments for parched mouths.

If you are not one of the crowd that has been coming here this summer you've missed something. Eventually you'll come, why not now?

EGGIMANN'S

"Where the Service is Different"

A SUCCESSFUL SIX NOW WINNING EVEN GREATER SUCCESS

FASTER

more Powerful than ever and enhanced in Style and Beauty

To Pontiac's thoroughly proved design—to its 186 cu. in. engine and generously oversized vital units—to its numerous engineering advancements—Oakland has applied its policy of progressive engineering. Now this lowest priced General Motors Six provides the most impressive performance ever achieved in a car of comparable price. In addition, the car's beauty has been enhanced by the added smartness of smaller wheels and over-sized tires. Improved in performance and appearance, built in a great new plant with unsurpassed facilities—today's Pontiac Six is more than ever the value leader of its field. Drive it—and discover this truth for yourself!

Coupe, \$745; Sport Roadster, \$745; Phaeton, \$775; Cabriolet, \$795
4-Door Sedan, \$625; Sport Landau Sedan, \$675. Oakland All-American Six, \$1045 to \$1265. All prices at factory. Check Oakland Pontiac delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

Education for Reality

"To the extent that colleges and universities fit youth for the realities of our own day, the more who attend college the better."

—President W. J. Kerr, "Education for Reality," Dec. 1927.

IN THE LAND-GRANT COLLEGES, as described by Senator Morrill, curricula were established "to offer an opportunity in every state for a liberal and practical education for the world's business, for the industrial pursuits and professions of life."

Oregon State Agricultural College

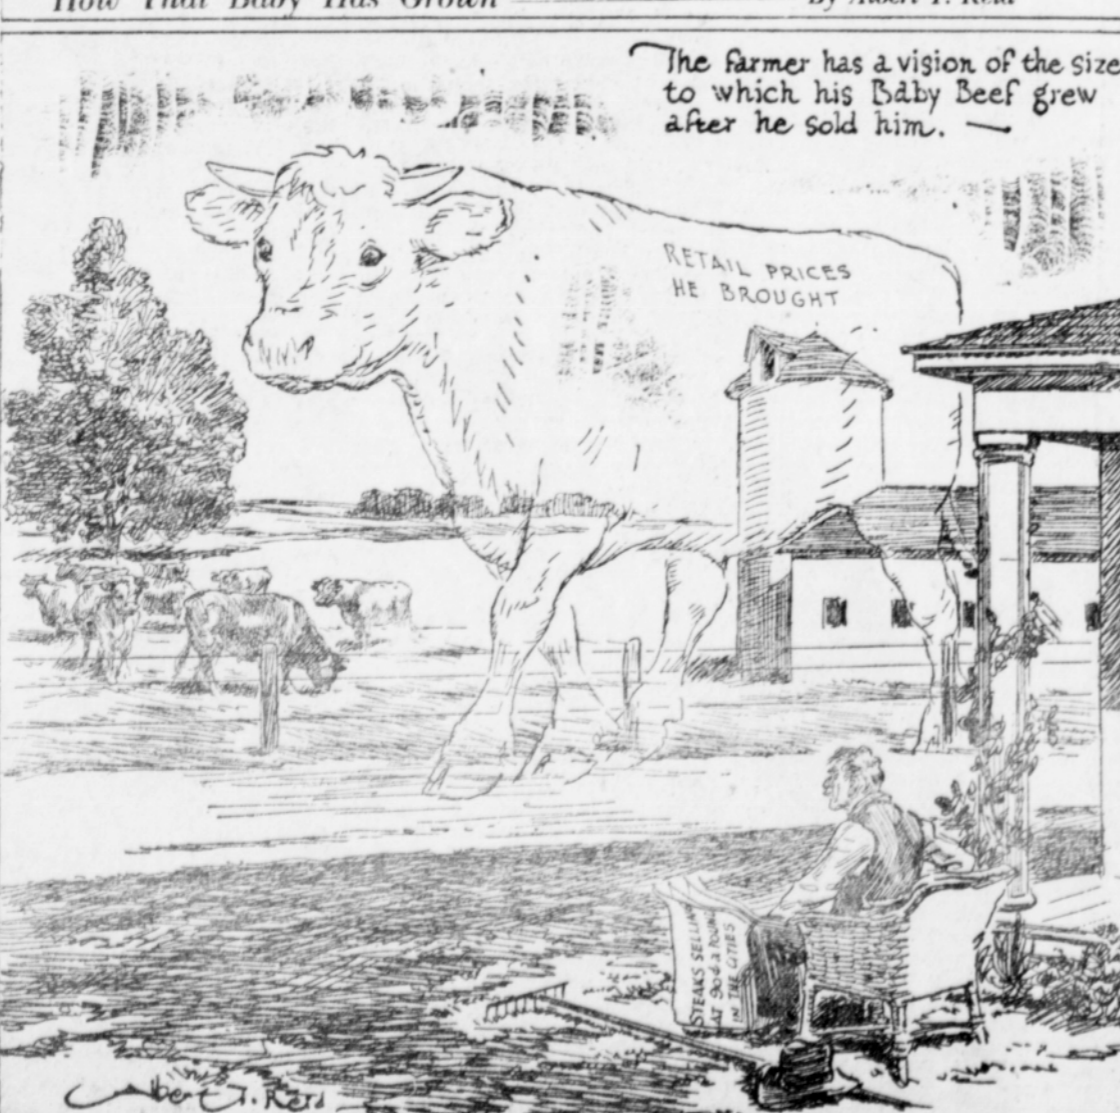

Affords this type of education in its 10 degree-granting schools and departments

AGRICULTURE (B.S., M.S. degrees) Animal Husbandry, Farm Management, Horticulture, and 17 other majors.	FORESTRY (B.S., M.S. degrees) Logging, Engineering, Lumber Manufacture, Technical Forestry.
CHEMICAL ENGINEERING (B.S., M.S. degrees)	HOME ECONOMICS (B.S., M.S. degrees) Clothing, Textiles, and Related Arts; Foods and Nutrition; Household Administration; Institutional Management.
COMMERCE (B.S. degree; M.S. in Agricultural Economics, Rural Sociology) Accounting and Management, Advertising and Selling, Banking and Finance, General Business, Real Estate, Secretarial Training, Marketing, etc.	MILITARY SCIENCE AND TACTICS (B.S. degree) Cavalry, Field Artillery, Engineers, Infantry.
ENGINEERING (B.S., M.S. degrees) Civil (Structural, Highway, Sanitary, Hydraulic, Railroad Construction); Electrical (Power, Railways, Lighting, High Voltage, Telephony); Mechanical (Machine Design, Heat Power, Ventilation, Heating, Gas, Refrigeration, Aeronautical); Industrial Shop Administration.	MINES (B.S., M.S. degrees) Geology, Mining Engineering, Metallurgy.
	PHARMACY (Ph.C., B.S., M.S. degrees) Pharmacology, Pharmaceutical Analysis, Pharmacognosy.
	VOCATIONAL EDUCATION (B.S., M.S. degrees) Administration, Supervision, and Teaching of Agriculture, Commerce, Home Economics, Industrial Arts.

The School of Basic Arts and Sciences, Industrial Journalism, Library Practice, Physical Education, and Music—service departments not leading to degrees—afford additional training supplementary to the major curricula.
