

THE GLORY OF THE SKIES! FIREWORKS
RIVAL BEAUTY OF HEAVENS! SKY
PAINTING TO THRILL THOUSANDS

The mystery of the fiery universe about us has thrilled and awed ages of humanity. Prophets have foretold the future by the blazing glory of the sun or darkened eclipse of that solar king. Nations have gone to war at a starry signal.

We read in the scriptures of fire descending from heaven to kindle the altars of the righteous and to strike down the unbelievers.

Jove's thunderbolts blazed the indignation of the Gods for the medieval. Comets have stricken the superstitious and foretold the coming of the end of the world.

Wonderful and splendid, powerful and impressive have been the Sky Pictures from the scenic paths of the heavens. Their only rival has been those brilliant dazzling scenes of the Pyrotechnician. Modern chemistry has stolen the brilliance of the stars and the colors of the firmaments.

Foremost in the Magic of Sky Painting the Hill Fireworks Company stand. They are soon to present one of their scenic splendors. Do not fail to see this magnificent spectacle.

This fireworks display will be seen at the Lane County Fair every night from September 5 to 8.

HOW CAN I REDUCE MY
Automobile Expense

How often have you asked yourself that question? We can show you definitely how to reduce it as far as it applies to tires.

The secret of this isn't buying cheap tires. Cheap tires are not only more expensive—often they cost two or three times as much. The secret of tire economy is a paradox; it consists of buying the BEST tires, and then profiting by the REAL TIRE SERVICE from the best dealer in getting the most out of that tire.

There are many things the dealer should do to insure tire mileage. Drop in and let us explain them to you.

don't be satisfied with the commonplace!

You never saw the equal of these new electric ranges. Except for setting the clock and the thermometer when you put the food in the oven (cold), you don't have to watch or touch a thing until cooking is completed. No initial searing is required. No hand adjustments are necessary. No basting to do. No water to add. For "Flavor Zone" cooking is entirely automatic from start to finish and there's no guesswork about results.
