

# Every Hour of Every Day

## We Are For Springfield

We have **CONFIDENCE** in its present and in its future . . . .

We want this community of ours to be a good clean, healthy place in which to live. . . . .

We want it well and responsibly governed . . . . .

We are strongly in favor of all worthy development for local betterment. . . . .

We feel that it will benefit each member of this community if we each buy every possible thing we can at home—keep your money here where we can profit through its spending.

The following business and professional interests stand ready to serve you and Springfield.
