HALLOWE'EN PRANKS NOT VERY EXTREME, REPORT

Pushing over the two bath houses at the bank of the river and besmudging store windows in the downtown district was about the extent of the damage done by Halloween prowlers last night, police reported.

No instances of extreme vandalism were reported.

Boys on the overhead crossing at Mill street and on the railway trestle which spans the Pacific highway at the junction here poured buckets of water on the tops of passing cars. A liberal supply of soap was used to mark up the store windows.

FARMERS COOL TO SMITH PLEA

New York State Agriculture Backs Hoover Plan as Practical.

HALL, N. Y.—Farmers in New York state are giving active approval to the constructive farm program announced by Herbert Hoover, declares Charles S. Wilson of this place, who as commissioner of agriculture came to grips with Governor Smith in the latter's efforts to extend Tammany's domination over the New York farms and markets department.

"New York farmers who have had their own problems to solve during the last decade," says Mr. Wilson, "recall that, in eight annual messages to the state legislature, Governor Smith's chief recommendation with respect to agriculture has been to scrap the machinery of the present department of agriculture and markets, which the farmers in the state with few exceptions endorse and approve. That done, it was well understood in political circles that the governor planned to seize the department and reorganize it as an added portfol of gubernatorial patronage.

"It may not be generally known that 750,000 persons reside on the farms of New York State. They employ capital, in farmlands and equipment, approximating \$2,000,000,000. Two-thirds of the area of the state is farm land. While the state, among the other states is only 22th in total area and 20th in area of farm lands, it stands eighth in the total of agricultural production.

"Republican legislatures for eight years have kept these varied, as well as financially and economically important farm interests, out of the main of the political patronage into which Governor Smith has sought to throw them.

"Governor Smith during his incumbency of the executive chair has had some other peculiar ideas respecting agriculture. In his first year as governor there was submitted to him a report in which the suggestion was made that milk be declared a public utility and its price fixing power be made a function of the state. At the outset, Governor Smith made known his approval of this recommendation."

Wages and Bread

Our real wages and our standards of living are the highest in the world. And I am speaking of the real buying power of wages compared with the foreign wages over a common denominator of bread and butter. — HERBERT HOOVER in his Newark speech.

Foreign Trade Gain

If we make a survey of the world's trade today we shall find that the export trade of all countries is only 10 per cent above pre-war, while ours is 53 per cent.—HERBERT HOOVER in his Newark speech.
