School Sports

Does a school need a team to yell for? Why, of course it does! If it were not for athletics in a school, how dead it would seem!

Every school needs a team to root for, because the team is representative of the school. If the team is defeated the school is defeated and this means that much pride and interest is lost by the students.

Many people say that sports take the minds of students off their school work. Well, it does, and this is just what every one needs. If a person has his mind on one thing all the time he will soon become old and wear that grouchy, crabby look that nobody likes.

To take part in athletics one must have a passing grade in three subjects, so you see that school work is not entirely forgotten.

We Don't Sell "Seconds"

It Never Pays to Take Chances With Quality

Although a century apart in time we are as rigidly careful of the Quality of our merchandise as the old Craftsman whose reputation was bound up in every article that left his shop.

That is why we don't sell "seconds," why our nightshirts are cut full and long, and why we make the inner soles of our shoes of the same tough, long-wearing leather as the outer.

Quality is that part of your purchase you cannot see. We have kept faith with our customers for over a quarter of a century.
