FOUR L'S RECOMMEND ALL LUMBER INDUSTRY WORK FIVE-DAY WEEK

Portland, Ore., May 23.—Recommendations that the entire lumber industry of the United States balance its production with consumption of its product by the general adoption of a five-day working week was the leading subject discussed by the 4L board of directors at its last 21st semi-annual meeting held here Monday. C., and also to all regional lumber associations in the south, California and other lumber producing sections of the country: "That, whereas, the problem of ad-

justing supply to demand is the most serious one now confronting the lumber industry, be it,

"Resolved, that the 4L, through its Board of Directors recommend to all the regional Lumber Manufacturers' Associations in the United States the establishment of a national 8-hour day in the lumber industry, and the Board commend the attitude of these employes in the Northwest who have patiently and loyally accepted the conditions imposed on them by the necessary curtailment which the 8-hour industry has practiced by running a five-day week, and otherwise shortening the operating time, while already on a shorter day than that in effect in other competing territories." W. C. Reugnitz, 4L president, was in the chair. He reported steady progress and increased activity of the organization.
