BIG REDUCTION MADE IN LOCAL RADIO PRICES

Stupendous reductions in the price of the new RCA screen grid and su-

per-hetrodyne radio sets were announced throughout the United States last Saturday. Price reductions on these popular sets come as a big surprise to all, since radio activity has been remarkable this season. It is believed by W. K. Barnell, local manager of the Mountain States Power company, that these reductions are in line with the broad policies of the Radio Corporation of America in giving the utmost values in radio at prices that compare with actual production figures.

At this early stage no more definite information is at hand, although it is reported that some of the RCA sets have been reduced nearly \$50.00.

The Mountain States Power company handle RCA radiolas exclusively in Springfield.
