

MEXICAN STUDENTS HAVE TWO MONTHS VACATIONS

A very interesting letter is posted on the bulletin board at the high school. The letter was received some time ago by Ernest McKinney, Spanish instructor at the school from the director of education in Mexico. It was signed by Manuel Velasquez Andrade.

The letter is in reply to a letter which the local instructor had previously sent to the Mexican educator asking if it would be possible for their students to exchange letters written in the languages in which they were staying.

In his reply the Director of Mexican education states that he will be pleased to carry on such inter-communication as was suggested. He warns the reader, however, that the schools of Mexico close their year on December 1, and the new year does not begin until the first of February.

Mr. McKinney stated that letters would probably be exchanged later in the year.

Beautiful Embossed Christmas Cards, with your name printed on them, are ready for you at The News office.

PRESIDENT ENROLLS IN RED CROSS

President Hoover, who is also president of the American Red Cross, enrolls in the annual Roll Call of the society, which occurs from Armistice Day to Thanksgiving Day, November 11 to 28.

REPORTS ARE HEARD AT MEETING OF MOTHERS

The regular meeting of the Mother's Club was held at the home of Mrs. Allen Kafoury in Eugene on Monday evening. The evening was spent in a discussion of the course on "Child Training," by Bolton and Bolton. Two chapters were reported upon with papers by Mrs. Floyd Thompson and Mrs. Winifred Cooke. Mrs. Clarence Chase read a review of several magazine articles.

The next meeting is to be held at the home of Mrs. Henry Fandrem.

Those present at the meeting Monday were Mesdames Levi Neet, Carl Phetteplace, W. N. Dow, Clifford Nelson, Laurence Moffitt, Alton LaSalle, W. C. Rebhan, Henry Fandrem, Shay, W. N. Gossler, Floyd Thompson, Winifred Cooke, Clarence Chase and Allan Kafoury.

PRINCIPAL OF BRATTAIN SCHOOL HAS TONSILITIS

Glenn Wood, principal at the Brattain school, was unable to meet his classes Monday and Tuesday of this week due to a bad attack of tonsillitis, which kept him at his home.

Mrs. Ida Adams served as substitute teacher for Mr. Wood during his illness.

Steaks, Delicious and Tender

Steaks so tender that they almost melt in your mouth—so it seems when you enjoy one of the steaks we supply. Cut from the prime, tender beef a steak is a real treat.

PIONEERS

IN LENS GRINDING

In Eugene and in Oregon Outside of Portland

Moody's Deep Curve Precision Lenses

This is the third time we have completely changed our lens grinding machinery the better to meet the newest needs in newest lenses.

Our new machinery and equipment for grinding, surfacing, polishing and edging ophthalmic lenses is completed and ready to serve your optical needs quickly and accurately. We know lenses for we have been grinding them for many years; we know eyes, for fitting them with right glasses has been our exclusive business for a life time.

We invite the public to see this up-to-the-minute grinding laboratory, the only one between Portland and San Francisco of this kind.

We specialize in the latest patented ophthalmic wide angle, precision lenses, that are clear to the very edge. We have the exclusive franchise and are the only licensees for making and prescribing these Tillyer lenses in Eugene.

These Tillyer lenses are nationally advertised as the most scientific lens made. The American Optical Co. own the patent and are the largest manufacturers and dispensers of ophthalmic lenses in the world.

They are capitalized at many millions of dollars and have wholesale branches established in 156 cities of 50,000 population or over in the U. S. and Canada.

Our shop foreman and expert grinder is Linn Buley, who was employed by us in the same capacity for nine years at our former location at 881 Willamette street. This is no new or untried venture with us but a continuation of the most dependable and efficient prescription service, the excellence of which only long experience and expert knowledge of eyes and lenses can give.

The lightness, brightness, efficiency and appearance of lenses depend on the glass used, how they are designed, the machinery on which they are ground, the skill of the man operating the machines and the accurate adjustment of the frames or mountings used for holding them.

Our TILLYER lenses are ground from imported and domestic optical glass, carefully selected and inspected—designed to harmonize with your features—ground on the most modern machinery known—finished by expert lens grinders—placed in a mounting careful study shows is the best—and fitted by skilled specialists, all under one roof and an individual undivided responsibility and a system that approaches perfection because it is the development of many years of practical as well as theoretical experience. Easy to buy and easy to wear and no fancy prices.
