

**"THE VAGABOND LOVER" AND "DARK STREETS" BOOKED AT McDONALD**

There are few persons who have not heard of Rudy Vallee, orchestra leader, crooner of songs, and radio idol of millions.

Playing the rest of the week at the Fox McDonald theatre, opportunity will be afforded to see and hear Rudy in an entirely different role—that of an actor.

He is featured in Radio Pictures' all talking, staging, dancing comedy-drama, "The Vagabond Lover," his first feature length screen play. Playing opposite him is Sally Blane.

In supporting character and comedy roles are Marie Dressler, Norman Peck, Danny O'Shea, Eddie Nugent, Alan Roscoe, Nella Walker, Malcolm Waite and Charles Sellon. Marshal Nielan directed.

The Connecticut Yankees, Rudy Vallee's noted orchestra, appear in the picture and furnish the complete orchestration. Radio Pictures' famous dancing girls are featured in a number of lavish dance ensembles.

"Dark Streets," the latest directorial success of Frank Lloyd, director of Divine Lady and The Sea Hawk, will open at the Fox McDonald theatre on Sunday.

Jack Mulhall, erstwhile comedian and now dramatic actor of great power, plays the featured leading role in this First National Vitaphone picture, in which he portrays a dual part, that of a cop and a crook who are brothers.

Dark Streets has been reviewed as one of Lloyd's most interesting productions. The picture, an adaptation of Richard Connell's Cosmopolitan Magazine story, Pat and Mike, relates the struggles of the brothers to protect each other. One brother is a gang leader and the other a policeman whose chief purpose is to bring the crooks to justice.

**PRODUCTION EXCEEDING ORDERS AT SAWMILLS SAYS WEST COAST ASSN.**

Seattle, Wash., Jan. 9.—Lumber production during the week ending December 28 indicated a quite general holiday shutdown, being approximately one-half of what it was during the preceding week, according to reports received by the West Coast Lumbermen's association from 224 mills in the Douglas fir region of Oregon, Washington, and British Columbia. While orders also dropped they exceeded production during the week by approximately 10,000,000 feet, or 12.46 per cent.

Production at west coast mills has declined steadily during the past four weeks, while new business has held even, except during the last reported week, during which the Christmas holiday occurred. The relationship between production and orders, which for some time has been unfavorable to the industry, is gradually improving. This betterment is believed to reflect the realization of dealers, most of whom have lower stocks than they have carried in years, that the present is probably the most advantageous time for them to stock up to meet the requirements of spring building.

Production for the week ending December 28 totaled 85,579,293 feet, while orders were 96,189,203, as compared to new business of 154,825,100 received the week before.

Production during the year to date as reported to the association by 112 identical mills has exceeded orders by 2.4 per cent.

Production reported by 308 mills for the week was 96,551,523, or 32.3 per cent of their rated weekly capacities. Since January 1, these mills have operated at 67.7 per cent of their normal capacities.
