### Why Fat Men Stay Fat

"The trouble with me, and I guess this applies to 99% of the men who are putting on weight, I didn't have the energy or 'pep' to keep it off. Lost all interest in any healthy activity and just lazed around accumulating the old pounds until I got that 'Kruschen feeling.'"

Start taking Kruschen Salts—that's the common sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape and fill you with a vigor and tireless energy you'd most forgotten had existed.

As a result instead of planting yourself in any easy chair every free moment and letting flabby fat accumulate you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.

Then watch the pounds slide off! Kruschen Salts are the up-to-date Fountain of Youth. Take one-half teaspoonful in a glass of hot or cold water tomorrow morning and every morning—and if they don't change your whole idea about reducing, go back and get the small price you paid for them. Get an 85 cent bottle of Kruschen Salts—lasts 4 weeks at Ketels Drug Store or any progressive druggist anywhere in the world.

## A Solution of Farm Problems

It is frequently said that "We must find some way to keep folks on the farm." If we are to keep folks on the farm we must make farm life as comfortable as life in the city. The farmer and his family have become too well educated to put up with the farm life of fifty years ago.

### ELECTRICITY WILL GIVE THEM THE COMFORTS THEY DEMAND
