

L. L. RAY ANNOUNCES PLATFORM ON WHICH HE SEEKS SENATE POST

L. L. Ray, democratic candidate for the joint senatorship from Linn and Lane counties, announced the platform on which he will seek election this week. It includes a statement of his stand on each of the major issues in the present campaign.

His statement follows: "In matters of government I am a liberal and not a conservative or a radical. I realize that we live in an age of industrial, economic and social change. I am not afraid of new innovations in government to meet these changing conditions. If we are to have a better social order, new legislation is continually imperative. I, therefore, submit the following statement of principles in regard to some questions that will probably receive the attention of the next legislature."

Taxation: Real property bears more than its just portion of the burden of taxation. The activities of the state government should not be extended so as to increase taxes on real property. Taxation of real property for state purposes should be gradually eliminated.

Cabinet Form of Government: This proposed Constitutional amendment represents an effort to make the administration of state government more efficient. If carried, the legislature should give earnest attention to such legislation as will make the amendment effective and carry out its purpose. Care, however, should be taken in making changes effecting the highway commission, the Industrial Accident Commission, and the Board of Higher Education. The nature of these boards should not be changed in the new system.

Power: The Eugene municipal power plant has been a success. Such additional legislation as may be necessary to preserve the right to the same success to the other municipalities of the state should be enacted at this time.

State Institutions: The late governor Patterson was working for the establishment of a state reformatory for youths and certain first offenders. Such an institution should be created to be conducted with the principle of reform as its chief object. Some provision should be made in our state hospital for the care of drug addicts.

Higher Education: These institutions should be adequately supported, but any additional appropriations should be determined largely by the recommendations of the federal survey now being conducted.

Fish and Game: Our fish and game problems should be removed from politics. Scientific study and research should be given these problems by experts in our state colleges, whose findings and recommendations should be given great consideration.

Old Age Pensions: Some form of old age security is an eventual certainty in an industrial state. Any such system must provide for industry carrying its adequate share of the burden. Agriculture is not responsible for any great amount of old age poverty and should not be taxed to correct a situation caused by industry.

Prohibition: There is no place for alcohol as a beverage in a machine age. The Oregon legislature should neither vote for the repeal nor the modification of the Eighteenth Amendment without a direct mandate from the people to do so.

Motor Traffic: Motor accidents are on the increase. Additional legislation is necessary for the protection of both life and property. The issuance of a driver's license should no longer be a mere matter of form. The use of Oregon's beaches by both automobiles and airplanes should be regulated.

Political Promises: Any one can make political promises regardless of his ability to fulfill them. I, therefore, limit my promises to one, which I believe I will be able to keep; it is this: If elected Senator I will, during my term of office, endeavor to give expression to the desires of the people of Lane and Linn counties for intelligent, constructive and practical legislation which will promote the growth and development of Oregon and better the welfare and increase the general happiness of its citizens.

MUST REPORT MEASLES SAYS HEALTH OFFICER

Families having measles must make a report of the fact to the city health officer whether they have a physician in attendance or not, according to Dr. W. H. Pollard, city health officer. There are several cases of measles in the city and three families are now quarantined. Some of these cases of measles are believed to have been spread by children attending school in families where they should have been kept at home, thinks the doctor. Failure to notify the city health officer, if the family lives in town, or the county officer, if the family lives outside of the city, is punishable under a state law, says Dr. Pollard.

TAX LAW DISAPPROVED BY LANE CO. SHERIFF

The tax law which is now being prepared by the state tax commission does not meet with the favor of H. L. Bown, Lane county sheriff. The

proposed measure provides for quarterly tax collections instead of semi-annually as is now being done. This would make twice the amount of work for the sheriff's office and they are kept busy now collecting and preparing statements.

Ben F. Keeney, assessor, is inclined to think that if the tax commission approves of the law that it must be all right.

The state of California has been using the quarterly tax payment plan for several years.

Several former students from the Pleasant Hill high school are going on with their education in different schools this fall. Harriet Brabham and Nellie Lorenz are attending State Normal school. The Girl Scouts held their first evening meeting Tuesday night at their scout home. There were 25 present. Miss Stutz, assistant master, was present.

How Old Are You? Today Said She—I'm 43 AM I Fat?—Not Me

Yes! A year ago I had twenty-two more pounds of fat than I needed—I was fat—and very sensitive about it—but now I say it is foolish for anyone to be overweight. What did I do? Nothing very hard, I can assure you—I cut out pies—candy and all sweets—ate moderately and every morning before breakfast I took one half teaspoonful of Kruschen Salts in a glass of hot water—Never missed a morning. I lost fat—gained in energy—vigor—charm—and vivaciousness and have a shapely figure I am proud of—anyone can do the same. A North Carolina woman lost 47 pounds in 3 months—a Montana woman lost 19 pounds in 4 weeks—Wisconsin woman 11 pounds in 6 weeks. Kretsch Drug store and every druggist in the world sells Kruschen Salts—a bottle that lasts 4 weeks—costs 85 cents.
