CANDY, TOBACCO TAKEN FROM STORE AT LOWELL

No clue has been found yet of the identity of the thieves who entered the Blair store at Lowell Friday evening taking about \$75 worth of tobacco and candy. Access to the store was gained by breaking the front window with a rock. The small light above the front door which is always kept lighted was broken before the theft took place. Sheriff's officers are inclined to think that it was a job of amateurs as matches were used inside of the building instead of the usual flashlight with which most modern hold-up men equip themselves.

BURNS PROVE FATAL TO YOUNG BOY AT WESTFIR

Elmer L. Arnold, eight-year-old son of Mr. and Mrs. Everett Arnold of Westfir, died at the Eugene hospital Friday as the result of burns received December 27 when his clothes became ignited while he was standing close to an open fireplace. He is survived by his parents, two sisters, Adeline and Jewell, and one brother, Wendell. The remains were shipped to Dallas for interment.

Mrs. W. K. Barnell was a guest soloist at the installation ceremonies for the Blue River chapter of the Eastern Star in Eugene Thursday evening of last week. She was accompanied by Mrs. Louis Waldorf, violinist and Mrs. Dow Moxley, pianist. Several Springfield Star members attended the installation meeting which was held at the Masonic building in Eugene.

Harry, wearing his first pair of pants, went down town to see his father. After daddy had told him what a big man he was, he asked him if he would like a nickel. Harry replied: "Well, it makes a feller feel better to have a little money in his pockets."

A kindly landlady inquired of the young bride how she and her husband proposed to spend their holiday. "Our plans so far," replied the bride, "are tentative." "Oh, how delightful!" exclaimed the landlady. "I'm sure you'll enjoy camping out more than anything else you could do."

Young Hubby—Dearest, what did you do with that rubber plant Aunt Agatha gave us?

Young Wife—I put it upstairs, honey. Why do you ask?

Young Hubby—Oh, for no particular reason. I was wondering what kind of salad this is.

MUDDY STREET AT H. S. IMPROVED THIS WEEK

The muddy parking strip in front of the high school is being graded down this week by Robert Pirrie, new street commissioner. The soft mud and dirt is being shoveled out into the street to fill the chuck holes. Gravel may be spread on the strip after it has been worked down. Students and others at the high school have been in the habit of parking their automobiles in front of the school having been granted permission to run them up on the boulevard from the city council. This has resulted in a slough of mud in front of the school every time it rains. The work now being done is expected to eliminate this.

NEW BRIDGE IS STARTED ON BLUE RIVER ROAD

Work of improving the road from Blue river up to the copper mines is being pushed ahead rapidly during the winter months according to Charles Neal, county road patrolman in that district. Workmen are now busy constructing a concrete bridge across Simmons creek about a half mile from the McKenzie highway. The lower part of this road has been graded and the mine owners have done considerable work on their private part of the road. It is expected that the road will be opened all the way to the mine this summer.

Many local people spend week-ends camping along this road on the banks of the Blue river during the summer months.

HUNTERS COLLECT FUNDS FOR WILD GAME HIDES

H. C. Saunders of Jasper collected bounties on three large cougars, eight bobcats and one wolf Friday at the office of W. B. Dillard, county clerk. Others who collected bounties for smaller quantities of predatory animals were Alex Workman of Mabel, who brought in one adult female coyote pelt, and Bud Kintzley of Fall Creek who had two bobcats.

"Oh, save my hair! Save my hair!" she cried pointing to a wig rapidly drifting out to sea.

"Madam," replied the gallant life guard, as he took a firm grip on her shoulder, "I'm only a life-saver, not a hair restorer."

"I've found a dandy parking space."

"Yeah?"

"It has only one drawback."

"What's that?"

"There's a car in it!"

First One—"Yesterday I stepped into the middle of the street, held up my arms, and stopped a runaway horse."

CAROLINA WOMAN LOST 47 LBS.

In 3 Months and Feels Years Younger

"I have been taking Kruschen Salts for nearly 3 months. I have continued taking one teaspoonful in warm water every morning. I then weighed 217 pounds was always bothered with pains in my back and lower part of abdomen and sides. "Now I am glad to say I am a well woman, feel much stronger, years younger and my weight is 170 pounds. I do not only feel better but I look better, so all my friends say. "I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it." Mrs. S. A. Solomon, New Bern, N. C., Jan. 1930. "P. S. You may think I am exaggerating by writing such a long letter but truly I feel so indebted to you for putting out such wonderful salts that I cannot say enough."

A bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at Katala Drug Store and druggists the world over. Take one half teaspoon in a glass of hot water every morning before breakfast. Attention to diet will help—cut out pastry and fatty meats—go light on potatoes, butter cream and sugar—the Kruschen way is the safe way to loose fat. Try one bottle and if not joyfully satisfied—money back.

COST OF FLOUR MINOR ITEM IN PRODUCTION EXPENSE OF BAKERS

Efforts on the part of senators at Washington, D. C. to start an inquiry into the failure of bread prices to tumble with the prevailing low market price of wheat and flour is being countered by studies of production and merchandising costs now being made by the Sperry Milling company at San Francisco.

The first report received here is in the form of an article "Let's Tell the Truth About the Cost of Bread." The article shows how although the price of wheat as dropped from \$1.35 per bushel to 76 cents, yet the actual drop in the cost of flour for each loaf of bread is only one cent. Expert millers, the article states, can produce one one-pound loaf of bread from one pound of good milling wheat.

Prices of other commodities have dropped very little and merchandising costs have increased, the writer contends, hence the price of bread can be cut only one cent at the best and still give the manufacturer his former percentage of profit.

A table of percent of total cost of specific items in a loaf of bread was compiled and is as follows: Flour, 26.7; other ingredients 14.5; manufacture 25.4; sale, distribution and administration 33.4.

That the price of flour is only a minor element in the production cost of bread is illustrated in the article by a table showing the various costs of producing 100 pounds of bread. The price of flour is set at \$6.00 per barrel and is gradually scaled down until the cost of the flour is not included in the cost of the bread and the average cost per pound is then 4.2 cents as compared with the cost when flour is \$6.00 per barrel, at which time the cost per pound of bread was 6.2 cents.

IRRIGATED ACREAGE DROPS IN MANY OREGON COUNTIES

Irrigated farming in Lane county has not increased during the last ten years, but has gradually decreased according to figures included in the farm census, announcement of which has just been made by the Department of Commerce at Washington. Lane county had 1,144 acres under irrigation last year the report shows. This is a lighter acreage than reported in 1920. The county has acreage enterprises capable of irrigating to the extent of 2,719.

Those counties showing increases in irrigation during the past ten years are Grant, Harney, Hood River, Jackson, Jefferson, Josephine, Klamath, Morrow, and Wasco, all other showing slight decreases. The greatest increase was shown in Klamath county the acreage under irrigation jumped from 50,600 acres in 1920 to 156,710 in 1929.
