

RAILROAD COMPANY TO TRY DOLLAR DAY SALE

Slashing rail fares to approximately one cent a mile in a special effort to promote additional travel the Southern Pacific company today announced plans for a novel experiment in so-called "dollar day" transportation.

Just as merchandise prices are cut in the interest of shopping activity, so the railroad has arranged to offer a full line of roundtrip travel bargains over its Pacific lines on two successive Fridays, February 20 to 27, according to Carl Olson, Springfield agent for the company.

The "dollar day" sales, featuring 100 miles for \$1.00 will provide for transportation on all trains, both coach and Pullman, according to Olson. Returns limit has been fixed at Tuesday midnight following the day of sale.

The roundtrip fare authorized for the special sale is three-fifths of the regular one-way fare.

P.-T. A. MOTHER'S CLUB HEARS PROGRAM TUESDAY

Lose Fat Safely and Quickly

Kruschen Salts—(a perfect combination of the six mineral salts your body should have to function properly) purify your blood of harmful acids, and aid the kidneys and bowels to throw off waste material—the continual formation of which is probably the cause of your fat.

In this modern age of living, it's impossible to get these salts from the fancy foods you eat—but don't worry just as long as you have Kruschen Salts.

Take a half teaspoon every morning before breakfast in a glass of hot water—little by little that ugly fat disappears, you'll feel better than ever before—years younger, more energy. You'll soon possess that enviable beauty, clear skin, sparkling eyes, superb figure which only perfect health can impart.

An 85c bottle (lasts 4 weeks) at Ketels Drug Store or any progressive druggist in America. Money back if Kruschen doesn't convince you that it is the safest, quickest, easiest way to lose fat.

A Hartford woman writes, "I'll tell the world Kruschen Salts is wonderful stuff to reduce." An Ohio woman lost 10 pounds with one bottle.

FOUR-H SCHOLARSHIP DETAILS ARE RECEIVED

Further data pertaining to the scholarships to be awarded by the International Harvester company, world-wide farm machinery makers, has been received this week.

100 Scholarships valued at \$500 each will be awarded to Club members in the United States on the following basis.

Rules and Regulations

1. Each entrant must be a bonafide 4-H club member in the year 1931, according to state club requirements.

2. Each entrant must be qualified to matriculate on or before September, 1932 in a regular agricultural or home economics college course.

3. The records of each contestant must be approved by the state club leader.

Basis of Awards

The judges will use the following basis of awards in selecting the scholarship winners:

1. Effort put forth by the 4-H club members in his or her club project as indicated primarily by the 1931 record, but all previous 4-H club records must be submitted. This to count 30 points.

2. Results and accomplishments of the entrants in worthwhile activities connected with the project, and on the farm, in the home, club and community. This also to count 30 points.

3. Evidence of the scholastic and leadership ability of the entrant. 20 points.

4. Development of the 4-H club member according to 4-H ideals as being the Head, Heart, Hands, and Health. 20 points, making a total of 100.

Printed application blanks giving detailed information are available at the office of the club agent, R. C. Kuehner, at the courthouse.

PRIZE OFFERED FOR OLD MOHAIR FURNITURE RELICS

Have you a mohair-covered chair or sofa in your home? If so, you may be two hundred and fifty dollars the richer for it.

The Household Science Institute, Chicago, offers this prize for the oldest piece of mohair-upholstered furniture in the United States. The style of the sought for furniture or its use or non-use at the present time are not important, providing it is in good condition. The owner of the piece selected will be awarded two hundred and fifty dollars and the piece itself will be exhibited with other old-time furniture during the World's Fair at Chicago in 1933.

Springfielders who feel that they have something of interest should communicate with Mrs. Grace Viall Gray, Household Science Institute, 7 South Dearborn street, Chicago, giving the history of the piece they have in mind, and all facts concerning age, color, condition, and other pertinent information.

Back of the Institute's offer is the desire on the part of Grace Viall Gray, its director, to ascertain the longevity of mohair. Although innumerable pieces of mohair-covered furniture and mohair rugs have seen many years of hard daily service, it is claimed that unless deliberately injured no instance has yet been found of a mohair fabric ever wearing through.

History does not tell just when it was first discovered that mohair—the long, silky fleece of the Angora goat—made exceedingly beautiful and durable fabrics. But this is known; mohair fabrics are of great antiquity and have always been looked upon as rare and valuable. Prior to 1881, when George B. and Louis B. Goodall of France, where it was made by hand.
