Baseball season will officially open at Springfield high school tomorrow, Friday, when the high school team meets the Eugene nine in the first game of the season in this district. The game will be played on the field back of the high school.

First and second base will go to two of the following three: Bill Mills, Gordon Wright, if not used as catcher, and Jack Hulett. Vernon Lyles will start at third. ## Young Lady Asks Many Questions On Campaign

Fair Contestant Gets Information First Hand About Big Subscription Contest: Is Told How to Win.

Did you ever have a bunch of questions fired at you with such rapidity that you hardly knew where you were? This fair maid wanted to know What, Why and When!

That's what happens to the campaign manager almost every day, except that you can't faze him and he will welcome others to call and do likewise. Ask him as many questions as you like, and he'll answer them as fast as he can talk.

Some people might become peeved if questions were hurled at them with rapidity of a machine gun, but the campaign manager revels in it.

For instance, there came to the campaign department a young woman who wished to enter and compete for the valuable prizes to be awarded by this newspaper on June 3.

She wanted to find out "all about it," and if medals were given to question propounders, this young lady would be given a solid gold one studded with diamonds.

She walked briskly into the office and came to the point right away.

"I want to be counted in on that race," she announced, "and I want you. That's all there is to it."

"Yes, indeed," replied the campaign manager. "You see—"

"Can I win that Graham-Paige sedan?" she interrupted.

"You most certainly can. That is if you get the largest number of votes."

"And does it make any difference where I live?"

"No difference whatever, just so you live in Lane county."

"Well then tell me what I must do to win," and she moved her chair a notch forward.

"That's easy. All you have to do is to see your friends and acquaintances and get them to subscribe to The Springfield News through you. That's all there is to it."

"How much does each subscription count? I haven't got that quite straight in my mind," she eagerly inquired.

"That depends entirely on the length of time the subscription is paid, which 'period' same is received at the campaign department according to the printed schedule."

"And," continued the campaign manager, "there are literally hundreds of people who would only be too glad to have someone come and get their subscriptions, thus saving them the bother of bringing it to the office, if but properly approached in this manner."

## CITY SELLS OLD RAILROAD LAND

45 Acres Goes to Philip Saul for Farming Purposes; Property Adjoins His

MONEY TO PAY TAXES

Remainder of Land to be Held for Airport and Other Municipal Purposes

Sale of about 45 acres of the industrial and park site, recently deeded to this city by Eugene, has been made to Philip Saul, by the Springfield council. The land sold for approximately \$100 an acre and joins that which Mr. Saul now farms south of the mill race and on the south east corner of the tract.

Proceeds of the sale will be used to pay the back taxes, which the city of Eugene allowed to become delinquent when it was in possession of the land. Springfield is now left with about 200 acres of land which will be used for the municipal airport, a city park, and other municipal purposes. Very little if any of the land will be sold, city officials say. It is desired to hold the property and attempt to convert it to uses which will benefit both Springfield and Eugene in the future.

The land sold is river bottom soil and for farming purposes is the best land on the tract. It was less adaptable for city purposes. Mr. Saul plans to improve the property. He does truck gardening and the place is very good for this use.

The sale of this property is in line with the procedure agreed upon by both Eugene and Springfield city council at the time the property was deeded to this city. Eugene originally bought the property from the Southern Pacific railroad company in order to get the car shops located in that city instead of Springfield. The county assessor carried the tax assessment to the supreme court and the assessment, which Eugene protested, held.
