field directly back of the Brattain gene hospital yesterday, expecting school was authorized Monday night at the monthly meeting of the school board. The new field will take the place of the one formerly used which has now been plowed up and planted. The new field will be on property owned by the school board and will probably be fenced at some future date. The field will be back of the school which will make it impossible for large numbers of people to sit in their parked automobiles and watch the game without paying admission

Bids were also called for 200 cords of wood for the schools during the next year. The bids will be received up to the time of the next regular meeting of the board in June. They call for quotations on both slab wood and body fir in 4 foot lengths to be delivered to the three schools.

The resignation of Miss Wilma Scott as teacher at the Lincoln school was accepted by the board. Miss Miriam Male was elected to take her place on the faculty.

No action was taken on the proposed changes necessary at the high school to accommodate the increased numbers which will result from the decision of the McKenzie union high school to send students to this city instead of continuing the school at Walterville, Members of the board wanted to wait until they heard something from the of
