

RESULTS OF WEED TEST DESCRIBED

Sodium Chlorate and Atlacide Prove Effective Killers in Extermination Work

Results obtained from 120 demonstrations on the use of sodium chlorate and atlacide, two commercial weed killers, on farms in Lane county during the year 1930 have been published in bulletin form for distribution by O. S. Fletcher, Lane county agricultural agent. The findings also embrace tests made in fifty demonstrations during 1929 and three made in 1928, he states.

Summing up his observations after the experiments with commercial weed-killers, the county agent states that the spraying was done with one gallon of water to one pound of chlorate. The average amount of chemical used was three pounds to the square rod. The atlacide dust was applied in the proportion of three pounds to each square rod.

Good results were generally obtained on both Canadian thistles and wild morning glory where the ground had not been plowed for a year or more before the application and where the plants had reached the full bloom stage before the first spray was applied. In each case where good killers were obtained, the weeds were sprayed either two or three times to kill all new growths. Good kills were also obtained with Himalaya blackberry plants and with poison oak and wild rose plants where they were in full bloom before they were sprayed.

Both are Effective
Very little difference was noticed in the results obtained from using either sodium chlorate or atlacide where the two were used under identical conditions on adjoining plots. Dusting with atlacide proved equally effective with the spray method. One instance was cited where two fruit trees were killed as a result of spraying them with atlacide while attempting to kill evergreen plants.

In another part of the county a prune orchard was sprayed successfully with sodium-chlorate to kill Canadian thistles without damaging the fruit trees.

Warnings about the fire hazard of these chemicals is also contained in the report. The county agent advises that care be used in handling sodium chlorate.

Thurston

Mr. and Mrs. John Endicott motored to Portland Saturday and spent the week-end with Mr. and Mrs. Linn Endicott.

The Ladies' Aid society is meeting with Mrs. Ellen Needham on Thursday to quilt a quilt for Rev. and Mrs. Victor Hershizer, who were recently married here. The ladies of the neighborhood have each pieced a block, with their names embroidered in it and are giving it to them for a wedding present.

Miss Hazel Edmiston left for Portland last Thursday to attend the rose festival.

Thurston baseball team motored to Salem last Sunday to play the team at the state penitentiary. It rained so hard they only played two innings.

Mrs. Curtis Price who has been visiting relatives here for several weeks left for her home in Wyoming last Sunday. Her husband is employed in government work near the Yellowstone park.

Mrs. Inus Flanigan spent the week-end at the Weaver home.

Vern Stone who has been picking strawberries near Portland for the past few weeks returned to the home of his grandfather, A. W. Weaver, last Saturday.

Winton Cole of Portland called at John Edmiston's Wednesday morning on his way to Palo Alto, California.

Mrs. Ellen Needham and son, Ray Mitchell, motored to Oakridge last Friday and visited friends until Sunday.

Miss Senna Heersma in company with Mr. and Mrs. Henry Hanakamp motored to Newport last Tuesday returning on Friday.

Mrs. Arch Shough and Miss Mildred Price drove over from Burns last Sunday. They motored to Portland Monday and are spending several days there.

Pear Blight in Young Trees
Pear blight is more serious in Jackson county this year than any other season for six years, reports L. P. Wilcox, county agent in charge of horticultural work. The infestations, he says, are largely in young fruits, and thus present a difficult problem in control.

Estate of M. H. May, Deceased.
Notice is hereby given that C. F. May has filed in the County Court of the State of Oregon, in and for Lane County, his final report as administrator of the Estate of M. H. May, deceased; and that ten o'clock in the forenoon of Monday, the 20th day of July, 1931, at the courtroom thereof in Eugene, Oregon, have been by the Court fixed as the time and place for hearing objections to said report and for the final settlement of the estate of said deceased.

C. F. May, Administrator of the Estate of M. H. May, Deceased.
A. E. Wheeler, Atty. (J. 18-26; Ju. 2-16)

Gunnery Sergeant Henry M. Bailey, U. S. Marine Corps, with the Custer Trophy which he won at the Camp Perry meet.

Upper Willamette

Efforts are being made to raise a fund to purchase the fire acre tract of land at Pleasant Hill which includes the picnic grounds and Ross Mathews has been made head of a committee to take charge of the campaign.

The Pleasant Hill Girl Scout troop 21 are meeting regularly at their home on the Jordan ranch. Miss Irma Laird who is home after teaching the past winter at Bend is their leader. There are about 20 girls attending regularly. Some have dropped out and some have moved away since the troop was organized last year.

Any girls interested are cordially invited to attend these meetings and if they so desire, Miss Laird will be glad to add them to the membership. The girls are planning many events together.

Mrs. Robert Doyle who became very seriously ill at the home of her parents, Mr. and Mrs. F. F. Cooper was taken to the hospital in Eugene last week. She is reported as some better.

T. F. Kabler, after teaching at London the past winter has returned to his home at Pleasant Hill.

At the annual meeting of the school district No. 1, E. E. Schrenk was elected to succeed himself on the school board. He has already served six years. J. A. Phelps was re-elected clerk. The budget for the coming year was adopted.

Mr. and Mrs. Ray John, Oscar John and Miss Cora John left last week for an extended automobile trip. They plan to go as far east as Kallispel, Montana and be gone over a month. They will camp out along the way.

E. B. Tinker has harvested his gooseberry crop and began picking loganberries last week. The rain is hindering picking but is doing more good than harm.

Upper Camp Creek

At the annual school meeting Mrs. Geo. Fisher was elected director for three years and Geo. Fisher, clerk.

The Bickford farm operated the past few years by H. Phelps, son-in-law of Mrs. Bickford, has been traded for property at Long Beach, California. The new owners, J. A. Montgomery with wife and six children are expected to arrive soon.

Mr. and Mrs. Phelps and three children, Mr. and Mrs. Weston and child started by motor car for their future home at Long Beach, California last Sunday morning.

Mr. and Mrs. Hall of Kallispel, Montana, are visiting at the home of Mr. Hall's mother, Mrs. L. Duncan.

Creswell

Mrs. Emma Hager and daughter, Eunice of Ashland arrived Friday and are the guests of Mr. and Mrs. E. A. Schwering and Mr. and Mrs. A. E. Schwering. They were here for the nuptials of Kenneth Schwering and Edythe Long celebrated Sunday.

The Grange met Friday evening in their hall and transacted routine business. As the delegates to the state convention had not returned their report will be deferred until the next meeting. C. E. Hewitt was appointed acting Overseer during the absence of Chas. Wetble overseer, for the summer.

Mr. and Mrs. Chas. Wetzel left this week for an extended summer's vacation taking in points in California, and east of the mountains. They do not expect to return until the school opens in the fall when Mr. Wetzel will resume his duties as janitor of the school.

LIMEROCK AIDS CLOVER IF USED SUFFICIENTLY

Trials carried on cooperatively by Alfred Anderson, Colton; J. A. Shibley and son, Springfield, and Clackamas county agent J. J. Inskip showed that the application of two tons of limerock per acre produced a successful stand of clover, while the crop on a plot receiving only one ton per acre was a complete failure. In a similar demonstration on the Schatz brothers farm at Stafford, two tons of limestone per acre produced a stand of red clover which cut better than two tons per acre, while on an unlimed check plot the clover was of no value.

NEW USE FOR CHERRIES DEVELOPED AT O. S. C.

Successful Processing Method Will Open Large Market for Maraschino Product

A new outlet for Oregon Royal Ann cherries has been opened up with the perfection by the horticultural products division of the Oregon experiment station of a new and successful method of processing these and other white cherries for maraschino stock. Details of the new process are contained in station bulletin 275 just off the press, entitled, "Bleaching and Dyeing Royal Ann Cherries for Maraschino or Fruit Salad Use," by D. E. Bullis and E. H. Wiegand.

Approximately 70,000 barrels of brined cherries for the maraschino trade are imported into this country annually, according to Professor Wiegand. With the perfection and publication of the new process, it is possible to manufacture maraschino cherries without serious loss through cracking. Around 10,000 barrels, or 2,500,000 pounds were processed in Oregon last year, mostly under old methods. Many Oregon plants are to use the new process this season.

O. S. C. SUMMER SCHOOL REGISTRATION IS LARGE

Each year more teachers and advance students from other parts of the country are attracted to Oregon as a place to combine study and vacation recreation. And this year is to be no exception, according to Dean M. Ellwood Smith, director of the summer session at Oregon State college, who reports more pre-registration inquiries than for any previous year.

In addition to 72 members of the resident faculty who will take part in the instructional program at the college during the six-weeks session beginning June 22, will be 16 visiting staff specialists. Most of the latter will be in the field of home economics. Twelve members of the agricultural staff will also assist in a special short course in vocational agriculture, held primarily for Smith-Hughes teachers.

Work will be offered in home economics, vocational education, commerce, industrial arts, agricultural engineering, landscape architecture, agriculture, and health and physical education, industrial journalism, hygiene, religion, basic arts and sciences, and music.

NEW BULLETIN TELLS OF CHERRY MARKET

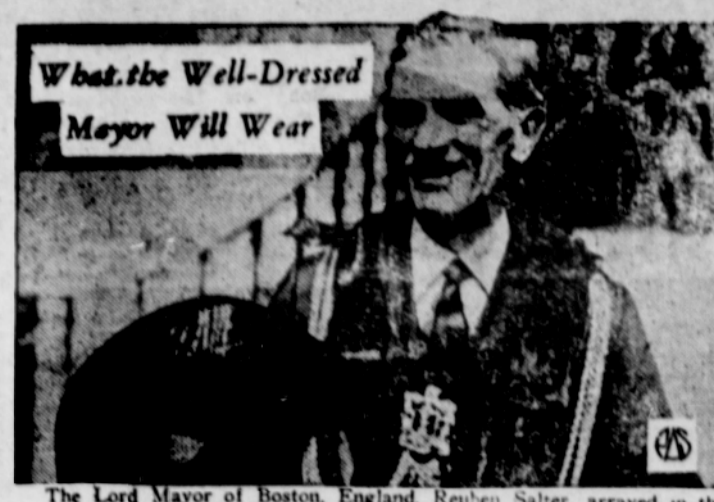

A new bulletin for Oregon Royal Ann cherries has been opened up with the perfection by the horticultural products division of the Oregon experiment station of a new and successful method of processing these and other white cherries for maraschino stock. Details of the new process are contained in station bulletin 275 just off the press, entitled, "Bleaching and Dyeing Royal Ann Cherries for Maraschino or Fruit Salad Use," by D. E. Bullis and E. H. Wiegand.

Approximately 70,000 barrels of brined cherries for the maraschino trade are imported into this country annually, according to Professor Wiegand. With the perfection and publication of the new process, it is possible to manufacture maraschino cherries without serious loss through cracking. Around 10,000 barrels, or 2,500,000 pounds were processed in Oregon last year, mostly under old methods. Many Oregon plants are to use the new process this season.

ROAD PATROLMEN TO START WEED CONTROL

Control of Canada thistle and other weeds on the right-of-way of county highways will hereafter be in charge of county road patrolmen. An order of the county court was issued Tuesday directing all patrolmen to care for weeds on all ground held by the county for road purposes.

In the past the district weed control supervisors had charge of the weed control on county roads as well as on private property.

The Lord Mayor of Boston, England, Reuben Salter, arrayed in the gorgeous red robes of office which English mayors wear, on a visit to Boston, Mass.

NEW RECORD IN ATTENDANCE SET AT 4-H SCHOOL

Girls Outnumber Boys Two-to-One, Half of Students Attend on Scholarship Awards

In spite of the economic depression, the total enrollment for the two weeks session of the annual 4-H summer school at Oregon State college this year showed an increase of approximately 50 club members more than any previous year.

The girls outnumbered the boys at the summer session this year nearly two to one. Of the total number of club members present, nearly half were holders of scholarships won as a reward for outstanding work in their club projects last year. Approximately 120 of these were state fair scholarships awarded to first place winners at the state fair last year. The majority of the other club members enrolled were either delegates of their respective clubs which had earned the money to send them, or boys and girls who had earned the money to pay their own way.

Each morning during the session was given over to class work, including, for the boys, all phases of agriculture, and for the girls various branches of home economics work. In addition, both boys and girls were given instruction in club news writing, first aid, health, and photography. Regular assemblies occupied from one to two hours each afternoon, with prominent men of the state as speakers.

Supervised classes in tumbling, basketball, quiddennis, dancing, volleyball, swimming and similar sports provided exercise for the girls, while classes and tournaments were scheduled for the boys in baseball, tennis, volleyball and other games. Entertainment consisted of smokeless smokers, pajama parties, educational movies and exhibitions of local talent occupied the evenings.

PATRONS AT CRESWELL ELECT IN AFTERNOON

Election of officers for school district 40 at Creswell was held at the school house Monday afternoon in conjunction with the annual meeting of the patrons of the district. Van Groubeck, chairman presided at the meeting. Miss Elizabeth Tryon, clerk, read reports of financial receipts and disbursements. Her report showed that there are 98 boys and 130 girls enrolled in the school, and that there are 225 registered voters in the district. Seventy new books were purchased.

Arthur Olson was elected director succeeding Lee Land who declined the position for another term.

STATE COMMISSION TO HOLD SALEM MEETING

Meeting of the state highway commission will be held at Salem, Thursday, June 25, according to word received by the county court. This will be the first time that the commission as met at Salem in some time as the meetings have usually been held at Portland.

There are no contracts to be considered by the commission of interest to Lane county at this meeting but the county court here will be represented, according to Judge C. P. Barnard.

WIDOWS OF VETERANS GET TAX EXEMPTION

Widows of world war veterans are entitled to real property tax exemption to the amount of \$1000. This is an opinion of the attorney general of the state in regard to interpretation of the new state laws pertaining to veterans. Disabled veterans classified as 40 per cent disabled or more are exempt from taxation on \$1000 of real property.

SPRINGFIELD REBEKAHS AT COBURG TUESDAY

Twenty-two members of the Springfield Juanita Rebekah lodge motored to Coburg Tuesday evening to be present at the official visit of the state assembly president, Mrs. Ethel Meldrum of Milwaukie. Mrs. Meldrum visited the local lodge Monday evening and was a guest of the lodge at Drain Wednesday evening.

TWO BIRTHS REPORTED IN MCKENZIE DISTRICT

A boy and a girl were born to McKenzie valley families during the past week. A ten and one-half pound son was born to Mr. and Mrs. Henry Holmes of Deerhorn Friday, June 12, 1931. The mother and son are at Cottage Grove.

Mr. and Mrs. Cecil Beyerlein of Vida are the parents of the other child, a baby daughter, born to them at the Eugene hospital on Saturday, June 13, 1931. Mrs. Beyerlein was the "Fair-Bride" at the Lane county fair in 1929.

LOCAL BOY PRESENTED HONOR DEBATE PIN

Hobart Wilson, son of Mrs. C. O. Wilson of this city, has been awarded a small gold "O" pin for forensic activity at the university for one year. He was also awarded a key in recognition of his work as forensic manager. Wilson has taken an active part in the debate and public speaking work at the university during the past year.

"Who the deuce do you think you are?"
"I'm just a little dandruff trying to get a head."

Nothing skimmed, either in cut, workmanship or fabrics. Smart water-printed fancies, solid shades and whites are included... each a shirt that a man can wear with the same assurance that a larger price provides!

VERY LATEST by Mary Marshall

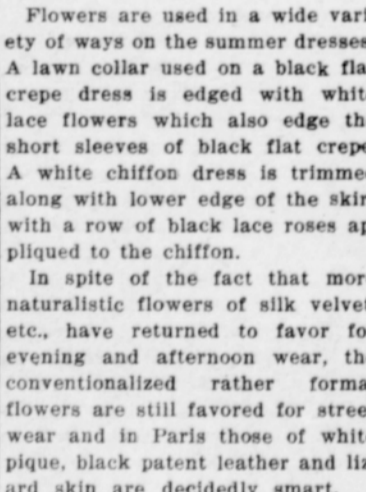

The ribbonene wreath is used here on a little girl's dress but would be as appropriate on an older girl's dance dress of the demure sort. The ribbonene may be bought at the needlework department in your favorite store. If you cannot get ribbonene you may use a very narrow soft ribbon instead. The work is not difficult. It is applied by means of a lazy daisy stitch that is as simple to do as its name suggests.

On a white dress the flowers may be done in pink with green for the leaves and yellow for the French knots. Violet may be used for the flowers alone or with pink. On a pink dress the flowers may be of light blue or of white and pink; white or yellow flowers are attractive on blue.

Small bouquets of this sort may be used effectively on negligees or to decorate sachets, lingerie cases and other dainty dressing room accessories.

Flowers are used in a wide variety of ways on the summer dresses. A lawn collar used on a black flat crepe dress is edged with white lace flowers which also edge the short sleeves of black flat crepe. A white chiffon dress is trimmed along with lower edge of the skirt with a row of black lace roses applied to the chiffon.

In spite of the fact that more naturalistic flowers of silk velvet, etc., have returned to favor for evening and afternoon wear, the conventionalized rather formal flowers are still favored for street wear and in Paris those of white pique, black patent leather and lizard skin are decidedly smart.

McKenzie Valley

Mrs. Jack Hultin and son, Emmerich, of Coquille, are visiting Mrs. Hultin's parents, Mr. and Mrs. Matthias Emmerich of the Deerhorn district.

Kenneth Jennings, truck driver for McNutt Bros., road construction work at Heceta Hear, was home last week. Rains and powder operations have caused slight delay in the work.

Election of officers at Watterville will be held by the Sunday school next Sunday morning. The following Sunday many of the members will attend the annual convention of Watterville S. S. district which will be held at Thurs on June 28.

Earl Thielen and Walter Rauch were recent visitors to Salem on business.

The Watterville district Sunday school union will hold its annual election and business session at Thurston Sunday, June 28, with a basket dinner at the lunch hour. Besides the business meeting several speakers will give talks and an interesting program by the Sunday schools will be given.
