

COUNCIL HOLDS UP WALK CONTRACT

New Warning Signs Ordered Placed at Intersections on Fifth Street

MILK ORDINANCE PASSED

Progress Made on Plans for Refunding \$50,000 City Bond Issues Soon

Five bids for new sidewalk construction on East Main street were received by the city council and opened at the special meeting held Tuesday evening, but no contract was awarded at that time. The five bids were very close, and there seemed to be some question of bids which would alter the amounts of the bids so the council took the matter under advisement and will probably act on them soon.

The sidewalk construction consists of 1000 feet of new cement walks, most of which is to be built on the north side of the street. Only one lot lies on the south side. The costs are to be paid by the sale of a Bancroft improvement bond sold by the city and to be paid for by property owners in the area to be improved.

The milk ordinance prohibiting the sale of pasteurized milk within the city limits which has not been pasteurized within the city was passed at the meeting. This ordinance does not restrict the sale of raw milk by any producers or distributors within the city, nor does it in any way interfere with the sale of milk by people having family cows. The ordinance carries the emergency clause and is effective immediately.

New regulations signs with the wording, "Danger, Slow," were ordered purchased and installed on the streets leading into Fifth between B and G inclusive. There has been one accident recently because a motorist unfamiliar with the street markings of the city saw a stop sign at A street and thinking that each of the streets leading into Fifth was a stop street took the right-of-way from another automobile. The installation of these signs will warn motorists, but does not in any sense make Fifth a through street.

To Vote on Refund
The question of refunding \$50,000 in city bonds was further discussed and negotiations are being made to have a Portland bond house re-issue the bonds and sell them for the city. A special bond election will be ordered by the city soon, although the exact time has not been set.

This is necessary to take up a \$15,000 bond issue falling due in November, and another issue of \$35,000 due in February. Funds with which to meet the first issue were accumulated in a sinking fund at the Commercial State bank and it was believed that this issue could be taken up when due. After the bank closed the council agreed to a deal whereby the sinking fund would be retained in the bank and used to take up outstanding warrants. In this manner the city received 100 cents on the dollar for the money in the sinking fund and it very likely would not have done this had it remained there and gone through process of liquidation.

Passing another bond issue to replace the one due soon will in no manner increase taxes in the city, according to councilmen. They are hoping to be able to sell the new bonds at 6 per cent interest whereas the present bonds are drawing seven. This might even lower the actual taxes necessary in the future.

Residents of the city are morally obligated to pass the new bond issue. To fail to do so would mean to default the issues now coming due and this would put the city in a position where it would be highly improbable that future issues could ever be sold. The market for bonds of the city size of Springfield is not very good at the present time and such action would certainly not improve it, contend the city officials.

Short talks were given at the meeting by G. H. Woods, principal of the Brattain school, and by Roy Quiney, principal at the Lincoln building. Both men stressed the fact that the cooperation of the patrons in donating old school books to the district had made it possible to furnish nearly all necessary texts for the students this year by using the \$1.50 per student provided by the new law. There are new students entering each day, however, and it is possible that there will not be enough books for all of these unless the people of the district will look over their books and see if there are a few more which they can donate or loan.

CENT-A-MILE RATES TO BE EFFECTIVE SUNDAY

S. P. to Try Offering Low Return Rates With Right to Leave for Journey on Sunday

Featuring a Sunday sale date for the first time in connection with its famous "cent-a-mile" offers of transportation, the Southern Pacific Company today announced plans for another series of low fare roundtrip excursions over its lines in Oregon and five other western states on October 9, 10 and 11.

The inclusion of Sunday, October 11, in the three-day offering of bargain fares, beginning Friday, October 9, is expected to find particular favor with persons planning short trips, Mr. Smith declared. Heretofore, he pointed out, journeys on the low-fare tickets had to be started on Thursday, Friday or Saturday.

Attention was called to the fact that football fans will be able to make good use of tickets to attend games in various parts of the west, and also that the excursion dates include Columbus day, October 12. In announcing plans for the forthcoming roundtrip excursions, Mr. Smith stated that the tickets will be accepted on all trains, coach or Pullman.

Smaller Cities Have 54 Per Cent Stores

Sales Found to Be 40 Per Cent of State's Retail Business in Towns Less Than 10,000

Fifty-four per cent of 7882 of the 14,642 retailers in the state of Oregon are located in towns and cities of less than 10,000 population. This statement was made by Charles D. Bohannon, in charge of the section of agricultural and rural distribution, in connection with the release by the Bureau of the Census of the bulletin on retail trade in the state of Oregon.

Mr. Bohannon further points out that over 60 per cent of the population of Oregon lives in the area served by these "rural retailers." In fact thirty of the thirty-six counties in the state of Oregon contain no town or city with a population as great as 10,000. In the state there are, however, 52 towns and cities with a population of 1000 to 10,000 divided among various size groups as follows: 9 cities and towns between 5000 and 10,000; 14 between 2500 and 5000; and 29 between 1000 and 2500.

The 7822 retailers serving this rural area include, 1925 food stores; 2131 retailers in the automotive group; 429 lumber and building material stores; 309 clothing and other apparel stores; 619 restaurants and lunch rooms; 216 furniture stores; 941 general merchandise stores; 275 drug stores; 118 jewelry stores. The total sales for these rural retailers amount to \$182,368,079 or 40 per cent of the total retail sales for the state. The amount of sales made by each of the groups together with the per cent which such sales formed of the total sales of similar stores for the state are as follows: Food group, \$43,945,213, 43 per cent; automotive group, \$44,602,646, 43 per cent; lumber and building material group, \$12,761,231, 43 per cent; apparel group, \$5,184,856, 19 per cent; restaurants and lunch rooms, \$5,958,030, 23 per cent; furniture group, \$5,538,382, 30 per cent; general merchandise group, \$37,110,554, 42 per cent; drug stores, \$6,147,639, 40 per cent; jewelry stores, \$1,082,308, 26 per cent.

MISS SMITH TO TEACH

Parents Asked to Indicate Whether They Want Children to Study Bible

Religious education work in the Springfield grade schools for the present academic year will be organized Monday and Tuesday of next week by Miss Goldie Smith, instructor, according to Mrs. R. P. Mortensen, newly elected chairman of the religious education council of this city and Chase Gardens. Roland Moshier was named secretary-treasurer of the group at the meeting held at his home last week.

This is the fourth year this work will be carried on in the city schools. It is offered to those students above the fourth grade whose parents approve and who welcome the opportunity of having their children receive this instruction. Request slips were sent out with each student Wednesday asking the parents whether they want their children to attend the classes. The work is entirely voluntary on the part of the local people and attendances not compulsory although last year every eligible child at the Brattain school was enrolled as were most of those at the Lincoln building.

The budget for the work this year will remain the same as it was during the past year according to Mrs. Mortensen.

Funds for the employment of the instructor are raised by a committee representing the three churches of the city. Members of this group are Mr. Moshier and Mrs. W. P. Tyson from the Christian church, Mrs. Mortensen and Willis Bertsch from the Methodist church, Mrs. Fred Prose and Roy Carlton from the Baptist church, and Mrs. H. L. Chase from Chase Gardens school.

Miss Smith will have nine hours of classes in Springfield on the first two days of the week. She will have one less class than last year and this will make it possible to have each class period last a full hour.

The outline for the teaching work to be followed this year will be along the Old Testament. The World Friendship project will deal with Africa this year and instead of the usual chest of gifts and wearing apparel, the children will make posters to be sent to school children in the missions of Africa.

Grading School Is Well Attended

Potato Law Has Increased Demand for Oregon Product Declares College Worker

Thirty-five Lane county potato growers attended the potato grading school held in Eugene Tuesday by County Agent O. S. Fletcher with the assistance of E. R. Jackman, extension farm crops specialist of the Oregon Agricultural college. The school was held to acquaint growers with the benefits to be derived from grading potatoes and to train interested growers to grade their potatoes.

Mr. Jackman pointed out that the compulsory grading law was enacted at the request of a large group of growers who found their market taken by low grade potatoes from Yakima and other points. The enforcement of the law has resulted in creating a market for Oregon potatoes within the state, according to Jackman, and has been a benefit to dealers and consumers as well as to growers.

Farmers brought several sacks of ungraded potatoes to the school and graded them for practice after receiving instructions on grading. Interested parties may obtain from County Agent Fletcher a circular containing the state potato grading law and the standards for the various grades set up in it.

SPRINGFIELD AND EUGENE TO PLAY

Football Game Called for Hayward Field at 7:45, May Give First Lineup

SCHOOLS SPLIT RECEIPTS

Eugene Shows Ragged Line But Wins Game With Cottage Grove Last Friday

Will Springfield high gridsters defeat Eugene high tomorrow night at Hayward field? Everyone concedes them an even break in the contest and it now seems to be largely a problem of forgetting that "bigger school" propaganda and going in the game to play straight football in the same manner that the boys do out on the home field each evening after school.

Eugene and Springfield high school teams will face each other right at the start of the season at Hayward field tomorrow night at 7:45 under the bright lights. Admission will be 50c for adults and 25c for students. The gate receipts will be divided equally between the two schools, giving Springfield an opportunity to bring home a few shekels as a large turn-out is expected. There will be no other major activity in Eugene or Springfield that night.

Norval May has not quite decided his starting lineup for this game. He has indicated, however, those whom may expect to receive first call for the various positions on the team. They are as follows: Gordon Wright, left end; Dean Anderson, left tackle; Chuck Morris, or Chetwood at left guard; Thurman at center; Elmer Ware or Louis Tuhy, right guard; William Suord or Vern Allen, right tackle; Dick Wright, Morris Steward, or Bob Stark, right end; Bruce Squires, left halfback; Lyles, full back; Freese, quarterback; and Thatcher, West, C. Hartman, Elmer Ware, or Schwendal, at right half.

Springfield boys have not had much experience so far this year, the Eugene game being the first on their schedule, and they are lighter and faster than the Eugene aggregation which opened their season last Friday against Cottage Grove. This game was no walk-away for Eugene, requiring considerable more effort than had been considered necessary.

The Eugene team played a good game, but were very ragged, having considerable difficulty in maintaining a co-ordinated team.

This will be the first night game for most of the players on both teams and it is interesting to note what the change in playing hours will have on the contest.

VANDALS WARNED OF PAINTING EPISODE

Many streaks of colored paint were put on the clean wall of the garage owned by Mrs. Eliza Winzenreid at Fourth and A streets sometime Tuesday afternoon or evening. Mrs. Winzenreid only recently had an old building adjoining the garage torn down and this left the south side of the garage clean and unpainted until someone smeared color on it. She says that she suspects certain persons of the deed and will seek to have them punished if any further depredations are made.

This act is one of vandalism and is punishable if the culprit is discovered.

It is also only one of several complaints made here recently. Another favorite trick of some persons is to throw rocks through windows of empty houses and frequently into those tenanted.
