Appreciation

I want to thank the members of the committee organized earlier in the fall for the splendid work they have done to date. The organization of a community-wide committee to carry on the work of relieving distress among the needy of the city has been asked because of the large numbers of cases needing such relief, so many more than had been anticipated that it would be an unfair imposition to expect this smaller group to continue the work alone.

I feel that the time has come when it is necessary to enlarge the committee and to more evenly divide the work which must be done. penefitting from it.

The former work of the committee has been greatly appreclated by myself and by those I sincerely hope and feel sure that we can continue to have the willing cooperation of the

members of the earlier group

in the larger work now before

Signed, W. P. TYSON, Mayor.
