

RODENT CONTROL WORKERS BUSY

Special Prizes Add Stimulation to Contest Which Attracts Many Club Members

Four groups have sent in enrollments in the county-wide rodent control contest, according to R. C. Kuehner, county club leader. These four groups are from the Norton district, Dorena, Waltherville, and Ada. Several other groups have signified their intentions in competing in the contest which is county-wide and several individual members have enrolled. A total of 50 boys and girls are now working in the county-wide rodent control contest for the control of pocket gophers, moles, grey diggers, rats, and mice. A total of \$10.00 in cash prizes is being offered, \$5.00 and a sow pig. The prizes include prizes for groups and prizes for individual members. An additional feature has been added to the contest for special prizes. For the five boys or girls securing the most number of mole tails, Mr. C. E. Grello, mole trap manufacturer of Portland, Oregon, is awarding an improved model mole trap.

Waltherville Member Busy
Much interest is being shown by the members competing in the contest. One barn in the Waltherville district furnished members in that area with 50 points, which means 100 mice to come to the crusade against rodents by boys and girls in this contest. One boy has borrowed all the mole traps in the neighborhood and is acting as official mole catcher for the entire community. In another district one boy has made arrangements with a farmer to poison the grey diggers on his land, and this farmer is furnishing the poison barley for that purpose, a very good arrangement for both of them.
In the contest pocket gophers and moles count 5 points each and rats and grey diggers count 1 point

each, and mice 1/2. In order to show that the member competing has killed the rodents he must submit the tail of the rodent to the rodent control supervisor in the district who will report to the county club agent, or to the 4-H club leader in the district who will report to the county club agent at the end of the contest.
A total of 100 mole traps have been secured from Mr. Grello to be loaned to boys and girls competing in the contest.
Any boy or girl wishing to enter into the county-wide rodent control contest may do so by sending his or her name to the county club agent as soon as possible.

AVERAGE FAMILY CAN LIVE ON \$7.51

Food Purchases for Five People Need Not Exceed This Sum Says Dairyman

"The average American family can live well, enjoy good health and have abundant energy for work, school and social activities on a weekly food budget of \$7.51," declared M. D. Munn, founder, and for twelve years, president of the National Dairy Council at a meeting of Oregon leaders recently. Mr. Munn spent two days in the state studying dairy problems and advocating greater use of dairy products in all family menus but especially in homes where economy in food buying is given serious consideration.

The government census shows that the average family consists of two adults and three children and it is with the idea of being of greatest service to this type of household that we have prepared a low-cost food budget which contains every necessary nutritional element and which furnishes abundant energy for meeting our complex problems of present financial conditions. This food budget allows a wide choice of foods, and has that important feature, appetite appeal, without which any meal is unsatisfactory.

Dairy Products Used
"This low-cost budget makes greater use of dairy products than is sometimes used in the average menu, as it calls for 28 quarts of milk, two pounds of butter and one pound of cheese each week. Ice cream may be made a part of this weekly menu and there is a wide choice in meats, fish, vegetables and fruit. Cereals play an important part also," said Mr. Munn.

He explained that one quart of milk furnished one-half the necessary daily food requirements of the body, but that this statement did not indicate that two quarts of milk a day completely filled the average physical and mental needs. Other foods, such as variety of fruit, vegetables and cereals, must be eaten to give a balanced ration, but with milk products as a low cost base for each meal, the average adult or child would be more economically and more healthfully fed, he said. Industrial firms and welfare organizations in all parts of the country have adopted this low-cost budget which has met with wide approval from housewives.

The low-cost food budget will be issued in this state by the Oregon Dairy Council, based upon local prices, and it is intimated that the weekly figure may be even lower in this state, due to local prices. The Oregon Dairy Council office is in the Citizens Bank Building, Portland, from where this budget will be issued by the nutritional education department.

STANDARD OIL CO. IS OPTIMISTIC ON BUSINESS

California Oil Company Continues Advertising and Increases Sales on Pacific Coast

One of the most optimistic of the large business interests on the Pacific coast this year is the Standard Oil Company of California. T. O. McCann-Erickson Advertising Agency of San Francisco has just announced a forthcoming advertising campaign which will appear in most of the newspapers on the coast in half of their clients.

The California oil company has been a consistent user of newspaper advertising space and has continued this policy during the present business slump. They have sought to produce a useful product of high quality on the theory that such an article if soundly advertised and aggressively sold will find a receptive market.
"Without attempting to attribute the salvation of the West to Standard Oil Company of California advertising, we do feel that this renewed effort in 1932 is a step forward to better conditions," declares Mr. McGuffick.

FAST CARDS FOR FRIDAY ASSURED

"Yaqui" Joe, Vasil Tascoff Draw Headliner Place; Art O'Reilly Puts Up Belt

Two exceptional drawing cards are listed for the week's wrestling card at the Eugene armory. "Yaqui" Joe, Sonora Mexico, Indian, and Vasil Tascoff, recent arrival from Bulgaria will meet each other for the main event on the card, and Art O'Reilly will stake his junior welterweight belt, which he won last week, in a battle with Tony Caponi, a Spanish-Italian who travels about the country with the Indian. These latter two will wrestle 45 minutes in a special event for the belt.

"Yaqui" Joe, is a former Indian runner of Sonora, Mexico, who tried wrestling and liked it. He has adopted the white man's clothing and tactics of wrestling and has been very successful. Packed houses have always greeted him on all of his previous appearances in Eugene and this visit to the armory will probably not be an exception.

If Art O'Reilly meets the other performers on the Friday card in the dressing room he is apt to think he is in a foreign land as each of the other participants speak different languages than himself although they are fast mastering the American tongue.
