School of Flying DEEP SNOW IS Gets New Ship

Latest Addition Has Small 35 H. P. 2 Cylinder Motor, Wingspread is 34 Feet

A new two-passenger Aronca airplane has been added to the fleet of planes at the Springfield School of Flying this week The latest addition was purchased in Portland and was brought to Springfield on Tuesday by Jim MacManiman, manager of the flying school.

The plane is powered with a two-

which is only 19 feet long and has a wingspread of 34 feet. The wings are supported with cables from a superstructure above the cockpit which is open. It has the latest airplane tires and equipment.

The most peculiar thing about the ship is the fact that the pilot and his passenger sit side by side in one compartment which has no doors and is cut away low.

Safety is one of the factors of the A musical tea will be sponsored plane, says MacManiman. The ship school administrative committee by members of the Happy Hour is licensed with the N. C. letters Springfield's annual city-wide which would replace all school club Friday afternoon at the home by the Department of Commerce of Mrs. Dean C. Poindexter, 530 C. which means that the ship has been be 2 feet deep. Two miles farther The Grange body also went on street, as a benefit for the local tested and approved for the license record as favoring the national Girl Scout troop. The tea is to oe which permits it to be flown across for the depositor of banks, and Cooperating with the committee half the number of hours in this At mile post 74 in the first cut at urged that Douglas fir wood be sponsoring National Music week, type of plane and the cost is also used whenever possible in bridge the club members will offer a splen- only about a half of what it is in
