On a Bill Prohibiting Commercial Fishing on the Rogue.

The following excerpt from a letter from Henry O'Malley, Commissioner of the United States Bureau of Fisheries, constitutes a conclusive argument in favor of the passage of the Rogue River Fish Bill.

feel that the Rogue River, as well as the other salmon rivers in Oregon, should be closed to commercial fishing if it is hoped to maintain the rivers in anywhere near their ori-These rivers are not unlike the rivers of Alaska, and we do not permit any fishing in any of our rivers in the north. In fact, some of them are closed a mile or more outside their mouths. I believe that the fish in the rivers should side their mouths. I believe that the fish in the rivers should be left there to reproduce their species. This would give the steelhead trout, which is largely a game fish, an opportunity to perpetuate itself and furnish sports and food for the people of Oregon and the thousands of tourists who are now seeking the great out-of-doors. These tourists will prove to be one of the valuable assets of the state of Oregon."
