

LIONS SPONSOR BASKET SOCIAL

Everybody Invited to Attend Benefit Affair; H. S. Students Are in Charge

A basket social at Taylor's hall will be the outstanding social function in Springfield Friday evening.

This affair is being sponsored by the Lions club of Springfield, but is being planned and directed by members of the Girls' League and the Lettermen's club at the high school for the purpose of raising money with which to purchase needed athletic equipment.

New and novel entertainment features including skits, songs and readings will be given under the direction of the Girls' League committee headed by Virginia Christie.

Harry Wilson is general manager for the event and has announced that the program will last one hour after which baskets will be auctioned off to the highest bidder by none other than Dr. W. C. Rebhan.

Representing the Lions club on the committee are Dr. Rebhan, John Anderson, and Thelmer Nelson.

Everybody in Springfield is invited to attend this gathering. Wives of the Lions and members of the Girls' League have promised to prepare baskets.

WHEAT HOMINY PROVES GOOD, CHEAP FOOD

Ever hear of wheat hominy? If you haven't tried this easily homemade Oregon food you have a pleasant surprise in store.

Miss Case heard about what hominy several years ago but only followed it up recently, when she made up several batches and tried it out on her friends.

Wheat hominy, of course, is just whole wheat without the outer coating or bran. It does not have the vitamin or mineral content of untreated whole wheat.

To make the hominy Miss Case says to place a quart of clean wheat in an agate or enamel kettle (never use aluminum or tin) and add one level teaspoon of concentrated lye.

The liquid with the more or less dissolved husks is then poured off and the lye is cleaned from the wheat by adding twice as much cold water as wheat which is then brought to a boil and drained.

Under present low hay and beef prices, feeders need to figure on a margin of about one dollar per hundred between feeder and beef prices in order to carry a four to five months feeding period.

Wheat hominy is but one of many ways of using whole wheat in the family diet described in a new extension circular.

MORE GRAIN USED TO FEED WESTERN CATTLE

Use of grain along with hay in fattening beef cattle is now becoming a much more general practice in the west than ever before.

Where a cornbelt feeder would feed from 15 to 18 pounds of grain and seven to eight pounds of hay a day, the western feeder will give only a third to a half as much grain and three times the quantity of hay.

Experimental results at the Livestock Branch experiment station at Union indicate that five pounds of grain is about the smallest amount that can be fed satisfactorily.

Ground or steam rolled barley is an excellent feed, little less valuable than corn, except that a straight combination of barley and alfalfa has a tendency to cause cattle to bloat.

Under present low hay and beef prices, feeders need to figure on a margin of about one dollar per hundred between feeder and beef prices in order to carry a four to five months feeding period.

Wheat hominy is but one of many ways of using whole wheat in the family diet described in a new extension circular.

TAXES EXPLAINED HERE BY BARNARD

Necessity of Levying Sufficient to Retain Credit of County Held Vital Need

Reasons for the tax problems of Lane county were outlined here Friday to members of the Lions club by County Judge C. P. Barnard. Taxes are in direct proportion to the demands of the public, he declared, showing how in Springfield the city and school district taxes consumed slightly more than eighty cents of each dollar assessed against property.

The expenditure of large sums of money for highways has necessitated high taxes, but they also offered a ray of hope because as soon as these highways have been completed they are turned over to the state and the county is at no further expense to maintain them, thereby making possible the gradual reduction of taxes, the Judge said, unless there is a heavy demand for more road construction.

Keeping the credit of the county good was held to be a vital matter under conditions such as we find at the present time. This also means increase in taxes as much tax money is not paid in and the County Court is required to budget all the money it intends to expend.

Music for the program was furnished by Mrs. C. F. Barber, violinist, and Mrs. Walter N. Gossler, pianist.
