The human eye is one of Na ture's greatest marvels. It gives us sight—the most valuable of all our senses. Through it we gain 85% of our knowledge and control 80% of our actions. The eye performs like a miracle. It surpasses any optical instrument ever made by man. It alone sees. It alone has great power of beauty and expression and is perhaps the most intricate and delicately constructed organ in the entire human body.

Plants Suffer Same as Individuals From Ravages of Tobacco Is Advice

Score one for the anti-tobacco eagues. Though the "weed" in ome forms of sprays is a boon to orchardists in controlling pests, science now says that tobacco is the most common source of ordinary tomato mosaic, an incurable, infectious disease common to Oregon plantings.

The Oregon State college experiment station, as well as several other stations throughout the country, has demonstrated conclusively in recent years that tobacco in any form, including chewing, or smoking, and mild toasted or raw, is a menace to tomato plants. Tomato and tobacco mosaic are, in fact, one and the same thing, and FURAGE FOR BEES the virus will live in dried tobacco leaves for years. The user gets the virus on his fingers-an invisable trace is enough-and thence to the

Is Very Contagious Here is how infectious it is: If one pint of mosaic-diseased tomato plant were poured into and mixed with 125,000 gallons of clean water, and a small flat glass rod were dipped into this mixture and gently rubbed on one leaf each of 106 young tomato plants, 80 out of the hundred would likely develop mo-

saic. Page Mr. Ripley. These and other facts about tomato mosaic and streak-the latter a disease resulting from a combination of tomato and potato mosaic-are contained in a new circular of information by Dr. F. P. McWhorter, federal pathologist, and A. G. B. Bouquet, professor of vegetable crops, at the Oregon sta-

Cleanliness is Essential One might conclude that control of such infectious diseases would

be impossible, but such is not the case. The basis of control measures state averaged 64,375, producing a absolutely prohibited if control is

Even women who handle potatoes are a source of danger in working with tomato plants unless precautions are taken to cleanse the hands thoroughly befr ehand.
