Tired Eyes Waste Energy

Nothing wastes energy more than straining your eyes. Common causes of eye strain are nearsightedness, farsightedness, astigmatism, and double vision. All of these can be effectively and quickly remedied by the use of proper glasses.

If your eyes are causing you discomfort you owe it to yourself to have them examined. This will cost you nothing at **DR. ELLA MEADE**

Rotary Chief

John Nelson, of Montreal, Canada, is the new president of the Rotary International, being elected at the annual convention, which was held at Boston this year.

COOPERATIVES MAKE GAINS IN FOUR YEARS

New Directory Lists 187 Groups; Fruit and Vegetables Lead Other Industries

Oregon now has 187 cooperative marketing or purchasing organizations operating within the state, according to a new directory of such organizations compiled by George O. Gatlin, extension marketing specialist at Oregon State college. This is a gain of 52 since the previous directory was issued four years ago.

All but 12 of the organizations are strictly Oregon associations, the remainder being out-of-state associations doing business in this state. Gatlin reports that Oregon ranks high in the percentage of associations that are incorporated and in the uniformity and soundness of the organization setups. This is made possible, in part, he says, because of the exceptionally favorable cooperative laws that have been built up here through some 23 years and which are unexcelled in the entire United States.

Many Federated Together Although there are 175 separate organizations, 65 or more of these are associated together in federations or central sales groups which tend to promote greater strength and unity. Fruit and vegetable marketing associations lead all others in total numbers, according to the new directory which classifies the cooperatives in 18 groups. There are 11 general purchasing organizations and six dealing exclusively in oil and gasoline.

A new setup for federal financing of cooperatives is now in force under the new federal farm credit administration which decentralizes this type of financial service, Gatlin reports. Loans to cooperatives will now be made through 12 regional cooperative credit banks, the one for this region being in Spokane, Washington. Most Are Self-Financing Oregon cooperatives have been largely self-financing and now owe only about \$285,000 to the credit administration, a policy that might well be continued even under the new and more favorable loan arrangements, Gatlin believes. Outside entangling financial alliances frequently lead to outside control, he says, while Oregon cooperatives are stronger for their position of home ownership and control.

Return to City—Mr. and Mrs. E. Lee, former residents of Springfield who have been living at Independence for some time, have returned to this city to make their home again.

Birthday Surprise—Alonza Manwaring was the honor guest at a surprise birthday party given here Saturday evening at the home of his parents, Mr. and Mrs. John Manwaring, by Mrs. Lloyd Elliott, a sister, of Santa Clara, and Miss Helen Carter.

TELLS HOW SHE LOST 15 LBS. OF FAT

Rheumatism Gone Too

Here is a woman who was rapidly putting on weight and who was troubled with rheumatism too. Read her letter: "I started taking Kruschen Salts because of the good it had done for a friend of mine who had been crippled with rheumatism. At the end of the second bottle I was weighed and find I am now only 148 pounds (original weight 163 lbs.), at which I am so pleased. But I have also felt my rheumatism much less, which has been so troublesome in my knees. I must say I think Kruschen a splendid weight reducer." (Miss) E. L. P. Overweight and rheumatic poisoning often go together. The six salts in Kruschen assist the internal organs to perform their functions properly—little by little that ugly fat goes; slowly, yes—but surely. You feel wonderfully healthy, youthful and energetic—more so than ever before in your life!

Kruschen Salts is obtainable at all drug stores—a jar lasts four weeks and costs not more than 85c.

NOTICE TO CREDITORS
NOTICE IS HEREBY GIVEN: That Effa P. Spence has been appointed executrix of the Last Will and Testament of Harry Y. Spence, deceased, by the County Court of Lane County, Oregon. All persons having claims against said estate are required to present them, with the proper vouchers, within six months from the 22nd day of June, 1933, to the said executrix at the law office of L. L. Ray in the Miner Building, Eugene, Oregon. EFFA P. SPENCE, Executrix of the Last Will and Testament of Harry Y. Spence, deceased. L. L. RAY, Attorney for Estate. (J 22-29 - Ju 6-13-20)

TOWN AND VICINITY

Visits at Newport—Miss Edith Eaton spent the week-end with friends at Newport.

Wendling Man Here—U. G. Warfel of Wendling was a business visitor in Springfield Saturday.

Mohawk Man Here—U. V. Tallman of Mohawk was a business visitor in Springfield Saturday.

Deerhorn People Here—Mr. and Mrs. Sam Goddard of Deerhorn were visitors in Springfield Friday.

Week-end at Bend—Marion Coyner spent the week-end at Bend visiting with his wife and family.

Albany Man Here—Charles Boyd of Albany was an overnight visitor in Springfield Monday.

Grocer in Portland—D. B. Murphy, Springfield grocer, made a business trip to Portland Tuesday.

In from Waltherville—J. J. Cabo of Waltherville was a business visitor in Springfield Tuesday morning.

Leaves Hospital—Mrs. A. H. Barsi of route 1, Springfield, and her infant daughter left the Pacific hospital for their home Sunday.

Morroe People Here—Mrs. Walter Squires and family of Monroe spent the week-end in Springfield at the H. E. Gerber home.

Taking Fishing Trip—Mr. and Mrs. Dodd Miller and Mr. and Mrs. M. A. Pohl spent Sunday fishing on Portland creek near Winberry.

Back from Portland—Mr. and Mrs. M. B. Huntly returned Friday evening from a business trip to Portland.

Visiting at Independence—Miss Dale Daniels is visiting with friends at Independence the first of the week.

Waltherville People Here—Mr. and Mrs. D. C. Trotter of Waltherville were visitors in Springfield Saturday.

Returns to Home—Miss Edna Severson has returned to her home in Springfield following an extended stay at Halfway camp on the McKenzie.

Drive to Vancouver—Mr. and Mrs. Marion Adams and son, Bob, Mr. and Mrs. Walter Laxton, and Miss Mildred Carson motored to Vancouver, Washington Sunday.

TO Eastern Oregon—Ted Lonhart left the first of the week for astern Oregon.

Leave for Reedsport—Mr. and Mrs. M. B. Huntly left Wednesday for a motor trip to Reedsport.

Visits Cousin—Miss Faith Johnson of Portland visited here Saturday with her cousin, Mrs. Fred Louk.

Visitor from Creswell—Mrs. Frank Viles of the Creswell district was a visitor in Springfield Tuesday.

On Vacation—Kenneth DeLassus, son of Mrs. Riley Snodgrass, arrived here Sunday for a two weeks vacation. He has been at San Francisco for the past two years.

AMBITION Serge had it

When I hear farmers talking as if they were all headed for the poor house I think of my neighbor, Serge Katorsky. Serge came over from Russia just before the war, because he had five children and wanted to give them a chance. He had about three hundred dollars to start with. He bought a couple of hundred acres of cheap mountain land about five miles from my farm, and started to work. He repaired the tumble-down old house, and in these twenty years has so improved it that it is the most comfortable farm-house I have ever seen. There are eleven children now, seven of them through high school, two through college, three of the girls finishing up in the State Normal school. And what marks those Katorsky kids do get in school!

Serge started with some scrub cows but has bred up his dairy herd until it's one of the best in the district. They grow or raise practically all they eat, and they certainly live well.

Serge Katorsky had the two essentials for successful living, industry and ambition. With those a man can get almost anywhere.

COLORS have a care

If you take your automobile with you on your tour of the world, be sure the color is one that won't offend the people of any particular nation. In Finland they don't permit cars or anything else to be painted red. Red is the color of Communism, and the Finns are scary about their communistic neighbors next door in Russia.

One American got into trouble in Java with a light cream-colored car. White and cream are mourning colors in the Dutch East Indies, and are permitted only on hearses. A yellow car is an offense in China, for the same reason.

You don't want to take a green car to either England or India. In England there is a popular superstition that green is an unlucky color. Books and plays have been written about girls who wore green stockings, with the result they never could get a man to marry them! And in India green is reserved for the use of pious Mohammedans who have made the pilgrimage to Mecca and so are entitled to wear the green turban.

Better play safe—if you're really going—and take a plain black or dark blue car with you on your world tour.

FIRST two more

My friend Joe Kane has written a book to tell you who was the first to do or make many things in common use. It's an interesting book, called "Famous First Facts," but I ran across a couple of "firsts" the other day that Joe hasn't got in his book.

The sportsmen's code follows:

- 1. I will never allow the muzzle of my gun to point at anything which I do not intend to shoot.
- 2. I will never load my gun when the muzzle is pointed at any part of my body or at any person, nor stand in front of anybody who is loading a gun.
- 3. I will never cock my gun and pull the trigger for fun.
- 4. I will never shoot directly at a flat, hard surface, a bottle or similar object, as the bullet is certain to ricochet (glance) from it.
- 5. I will never handle a gun without first opening the breech to be sure the gun is empty and looking through the bore to see that it is clean.
- 6. I will never carry my gun loaded except when hunting and will then be sure that it is locked in the "safe" position.
- 7. I will never shoot at a song-bird or harmless animal for sport and will always be sure that no wounded game is left to suffer.
- 8. I will remember that a .22-caliber bullet will travel three-quarters of a mile, or through nine inches of ordinary board, and will ricochet a long way across water.
- 9. I will always put my gun muzzle first through a fence before I climb the fence and will climb over between the next two fence posts.
- 10. I will always give my gun a thorough cleaning as soon as I am through firing.

Loveliest Debutante

One of London's most thrilling pastimes each season is to select the most beautiful and loveliest debutante. This season the unanimous award went to Miss Phyllis Salt, daughter of London's Air Defense Command.

The first white bread was made by an English miller, Huger Paddington, because a nobleman in his town wanted bread to match his white table-linen! That was news to me when Frank Romer told me.

And the first paved street in America is in down-town New York. It is named, appropriately, Stone street. A Dutch brewer's wife in 1648 got tired of having her husband's drays mired in the mud, so she had her servants lay cobblestone the whole length of the street.

Interesting, if not important!

BUNK grain alcohol

We heard a lot, last year, about a great scheme to convert surplus grain into alcohol. The idea was to save the farmer by requiring every gallon of gasoline to be mixed with a certain portion of grain alcohol.

The fuel research committee of the National Automobile Chamber

of Commerce come along now and punctures that balloon. The gasoline-alcohol mixture, it finds, while it enables the motor to accelerate faster, makes starting harder, absorbs moisture from the air, corrodes engine and fuel pipe lines and costs much more than straight gasoline. Besides, alcohol of higher quality can be produced from petroleum more cheaply than the poorer quality obtainable from grain. Some day motors doubtless will be run by alcohol, but they will be built for alcohol use alone and used only where and when the gasoline supply has given out.

STEAM inexpensive

Driving through a Northern industrial city with an engineer friend I saw a curious piece of construction under way. It looked just as if a huge steam engine were being built out of doors.

"That's just what it is," my friend told me. "That's the newest idea in large steam plants for generating electric power. What sense is there in putting up an expensive building just to house a steam engine? It's cheaper to protect the equipment with asbestos, against cold weather, and put just enough of a roof over it to keep the snow off. Then, when you have to enlarge the plant, you don't have to tear out a heavy brick wall and build an expensive extension. Besides, nobody ever yet found a way to keep a boiler-room clean enough to guard against dust explosions without hiring an lot of extra help."

That sounded reasonable. It also interested me when the engineer told me that the new type of mercury boilers, like the one I saw, could generate steam so cheaply that they can produce electrical energy at far less cost than the cheapest waterpower.

One Fish!

If you were depending upon fish for a meal, one fish would not be very satisfactory unless it was a big one.

By persistent effort, good bait and a normal amount of skill, most any fisherman can likely catch enough for a string.

Likewise the business man who advertises wisely is assured of a good catch.
