CAREERS Man Made "A man's life is what he chooses to make it," I heard an eminent scholar say not long ago. It sounded like a pretty broad statement, but as I tried to analyze it I came to the conclusion that he was right.

Most people won't agree, because most people are not satisfied with what they have made of their lives, and imagine that if they had "got the breaks" their careers would somehow have been different. But, looking back of the failures as well as the successes among men I have known for years, I think the professor was right.

The failures failed because they did not or would not make the necessary effort to attain the goal of their ambitions; the successes succeeded because they put all they had in them into the job. To the failures their successes seemed to have been easily achieved, but only the man who has succeeded knows how much harder he has worked than did the man who failed.

WORDS How Many? How many words does it take to express one's self clearly in the English language? Shakespeare used more than 35,000 different words in his writings. Some years ago a student of such things reported that the average uneducated man used not more than 700 different words. Some savage tribes have vocabularies of only 300 words.

In the effort to compile a dictionary of English for use in the education of persons speaking other languages, the faculty of New York University has come to the conclusion that not more than 900 words are really needed to carry on all ordinary conversations. That does not include technical terms, of course.

Too many persons have a tendency to use unusual words where ordinary ones will answer as well or better. Sometimes I think the world would understand itself better if nobody were allowed to use more than 900 words, and those were so clearly defined that nobody could misunderstand their meanings.

WEATHER Down East The month of February, 1934, was the most severe winter month in the Eastern United States since the winter of 1777-78, when Washington's army camped at Valley Forge and nearly froze to death. There have been heavier snows, but not in connection with such low temperatures. At my farm there was at one time three feet level depth of snow, with drifts as high as twenty feet, and the thermome-

ter 35 degrees below zero! Folks who were certain that the Gulf Stream had changed its course and made the Atlantic coast permanently warmer are trying other guesses now to account for the cold weather. Nothing gives most people more pleasure than to try their hands at weather forecasting. And nothing is more futile than long-range weather predictions.

INSULATION New Method As everybody knows, the trouble with most houses is that they let too much heat out through the roofs and walls in winter and let too much heat in through the same routes in summer. There are many ways of insulating an ordinary house, some more expensive than others, but all expensive.

Now this discovery has been made that sheet-aluminum, less than 1-100 of an inch thick, will insulate against the penetration of heat as well as 20 inches of concrete or twelve inches of brick. The discovery was made when a young man tried wrapping cigarettes intended for export to Africa in aluminum foil, and found that was the only protection against the tropical heat. It has been tried on many houses and it works perfectly and costs almost nothing, those who are experimenting with it say.

That is only one of many new inventions which will make the new homes of the future more comfortable and economical to run. OBSOLESCENCE Interpreted Owen D. Young has brought into public notice a word that is not given enough consideration when people discuss the replacement of men by machines. He said the other day:

"Science is the mother of obsolescence."

What Mr. Young meant was that it is the function of science to send old machines and old methods to the scrap heap, to make them obsolete. There is no danger of the world becoming overcrowded with goods of man's production, so long as scientific research continues to find new machines or methods which will perform the same functions better, or do new things that no machine has ever done before.

Some people thought there were enough automobiles in the world when Ford finished making his fifteen-millionth "Model T." But

where are the model T's now? They have been replaced by better cars, which in turn will be replaced by still better cars. Let someone invent anything which will do any job twice as well as existing machines and cost half as much and every machine of the old type becomes obsolete.

SOCIAL CLUB PLANS DANCE FOR SATURDAY Another of the dances being held each week at the social hall 210 Main street will be given Saturday evening. It has been announced by J. L. Labree, dance manager. The music is furnished by the Hungry Four dance orchestra. One of the dances was held Tuesday evening this week. The dances were originally scheduled for Thursday evenings but later changed because of the wrestling matches in Eugene.

Dances at the social hall are not affiliated in any manner with the unemployed council which held a final free dance at their former headquarters on Fifth street Friday evening. The group have now moved to a residence on Mill street.

REBEKAH'S HAVE QUIET SESSION ON MONDAY The last silver offering to raise Springfield's share of the expenses for the joint picnic sponsored each summer at Lost Creek ranch was taken Monday night at the regular meeting of Juanita Rebekah lodge. Following the business meeting a social period was enjoyed under the direction of Mrs. Glenn Stone, Miss Maxine Snodgrass, and Mrs. Clara Snodgrass.

GIRLS GROUP HOLDS PARTY FOR BIRTHDAY Members of the Terpsichorean club held a birthday party Friday evening at the home of Miss Jean Louk honoring the birthday of Faye Holverson. Miss La Moyne Black was the assistant hostess. Members present for the evening of games and dancing were Miss Holverson, Miss Black, Barbara Barnell, JoLana Putman, Irene Anderson, and Jean Louk.

"SIX OF A KIND" IN SIX-STAR FILM HIT "Six of a Kind," the Paramount picture starting at the McDonald theatre Sunday is a real screen comedy, played by real comedians and directed by one of the best comedy directors in the business. There fore, it is needless to say, it is a solid hit.

The featured cast is 100 per cent famous comedians, comprising Charlie Ruggles, Marry Boland, W. C. Fields, Allison Skipworth, George Burns and Gracie Allen.

The story takes the first four on an auto trip across the country. They get as far as Nuggetville, Nevada, pursued by detectives who suspect Ruggles, a bann clerk, of the theft of \$50,000. Here they run into Miss Skipworth, in the role of a hotel keeper, and W. C. Fields as the sheriff.

The arrival of two detectives and the real thief mixes things up some more and adds to the furious pace of the comedy. It is impossible to give a clear idea of the fun in the picture, which must be seen to be appreciated.

DISSOLUTION NOTICE Notice is hereby given that a meeting of the Board of Trustees and Members of Eugene Bible University will be held Tuesday, March 20, 1934 in the Administration Building of Eugene Bible College, 11th Ave. and Alder St., Eugene, Ore., at 7 p. m., for the purpose of dissolving said Corporation. Old Grads to Hold Reunion Members of the 1909 class of O. S. C. at Corvallis will be the "silver jubilee" class at the coming June commencement, and graduates in this group are already making plans for their 25-year reunion. Members of the class from Albany, Newport and Corvallis have arranged to send out the call to the 90 per cent of the class still living, but now scattered throughout this and foreign lands.

HOW WOMEN CAN WIN MEN AND MEN WIN The Favor of Other Men Unless two pints of bile juice flow from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movements get hard and constipated. You get yellow tongue, red, low skin, pimples, dull eyes, bad breath, bad taste, gas, diarrhea, headache. You have become an unwholesome, foul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you.

But don't take salts, mineral waters, oils, laxative pills, laxative candies, chewing gums and expect them to get rid of this poison that destroys your personal charm. They can't do it, for they only move out the tail end of your bowels and that doesn't take away enough of the decayed poison. Cosmetic won't help at all. Only a free flow of your bile juice will stop this decayed poison in your bowels. The one mild vegetable medicine which starts a free flow of your bile juice is Carter's Little Liver Pills. No salomel (mercury) in Carter's. Only fine mild vegetable extracts. If you would bring back your personal charm to win men, start taking Carter's Little Liver Pills according to directions today. 25¢ at drug stores.

Refuse "something just as good" for it may grip, loosen teeth or oxidize. Ask for Carter's Little Liver Pills by name and get what you ask for. ©1933, C. M. Co.

YOU CAN SAVE 3c to 5c a WEEK IF YOU DO YOUR WASHING BY HAND

YOUR ELECTRIC BILL Would be 12 to 20 cents a Month Less

Just think how useful that 12 to 20 cents a month would be. Dad could have another package of cigarettes, or by saving for three or four months, the average family of three or four could go to the movies one extra time. (Of course mother might be too tired to go but she could use her share of the money to buy two or three spools of thread to mend the family hose while she rested.) And then there is the family car . . . 12 to 20 cents a month would buy nearly an extra gallon of gas.

ELECTRICITY IS THE CHEAPEST SERVICE YOU CAN BUY
