

FARM LOANS TO BE WITH BONDS

Government Backs Securities and Urges Farmers to Seek Data Before Selling Them

C. W. Hansen, secretary-treasurer of the McKenzie Valley National Farm 1,700 association, received word today from Wm. I. Myers governor of the farm credit administration, Washington, D. C., that Federal land bank loans and land bank commissioner's loans will be made in the future through the Federal Farm Mortgage corporation, which bonds are guaranteed by the United States government both as to principal and interest, which will be at the rate of 4 per cent per annum for the bonds to be issued at this time. These bonds will take the place of the cash distribution in the disbursement of the unclosed loans previously approved by the Federal land banks.

The bonds of the Federal Farm Mortgage corporation, according to the statement by Governor Myers, will have behind them not only the unconditional guarantee of the Federal government as to both principal and interest, and the capital of the Federal Farm Mortgage corporation amounting to about \$200,000,000, but also the consolidated bonds of the Federal land banks issued in exchange for the bonds of the Federal Farm Mortgage corporation and the mortgages accepted by the land bank commissioner as security for loans.

Bonds Desirable Investment
Governor Myers assured Secretary Hansen that the Federal Farm Mortgage corporation bonds will be an attractive investment. "They will be as readily marketable as bonds of the United States government and they will be quoted in all of the principal markets," he continued. "Holders who have to dispose of these bonds should not sell them without first ascertaining their real market value."

"CAMPING OUT"

IN LITTLE OLD NEW YORK

by CARL H. GETZ

"Bunk, hooye or baloney" is the way you'd receive it if you saw it on the stage or in the movies. But it actually happened in a New York suburb. Edward Barrett in a house flooded with deadly fumes from a defective furnace tried to telephone for help. He fainted immediately after he removed the receiver from the hook. When the telephone operator got no reply to her "Number please?" she notified a tester who sent a repairman to the house. The repairman and two police found Barrett unconscious, took him to a hospital. He lives!

For fifteen years there has been a skeleton at the annual feast of the Elite Headwaiters association. It was prohibition. . . . But the 1934 reception and ball was all smooth sailing. Repeal was here, and its spirit was genuine. At last the headwaiter, or "Maitre D's," as they like to call themselves, find that their hotel dining rooms are once more well filled. The speak-easies no longer compete! "You see, our customers have come back, yes," said the president. "We see our dining rooms full. It is possible now to eat like a human being instead of a beast. But how many remember how to do so?" "Even now, this last week I have seen a party drink that stuff, that gin and orange juice from the soup to the salad and then the lecs," cried another. . . . Two or three years is the time that they give to the American public to learn once again, to eat properly and to take adequate time. "From 6:30 to 11 p. m. is the appropriate time for dining," said another. "Then we can cook with civilization."

Hobbies, more hobbies. . . . And if you've never seen a fencing match, it's difficult to realize how graceful a hobby fencing can be. And March is the time for the important contests at the exclusive little Fencers Club in East 53rd street. And such resounding names among the women contestants and directors: Mrs. Stayvesant Fish, Mrs. Charles H. Voorhees, Mrs. Harold van Buskirk, Miss Maude Van Courtlandt Oakes, Miss Maria Cerra, Miss Amy von Hansa!

"There's less immorality in a nudist camp than on Park Avenue," says the publisher of four magazines that have just been barred from New York news stands. And he talks of his magazines this way: "I truly believe it's an education. Take a girl of 18 or 20. They get educated in the sex life and are better able to defend themselves." . . . Ho, hum. Four of his magazines are "La Paree," "Spicy Stories," "Pep," and "Gay Parisienne."

The steel work of the Knickerbocker Village low-cost housing project is up some six stories or more, and occupancy is slated for December of this year. Knickerbocker Village replaces the old "Lang Blocks" of the lower East Side, and is planned as a Community of medium rental apartments for white-collar workers.

Public Confidence Returns

Direct information indicates conclusively that the banking situation is showing definite and steady improvement. J. F. T. O'Connor, Comptroller of the Currency of the United States, said in a recent address. He pointed out that the decided drop which has occurred in money in circulation shows that the public has largely ceased hoarding.

On March 1, 1934, the Federal Reserve Board reported that the volume of money in circulation amounted to \$5,355,000,000, which was a decline of \$1,077,000,000 since March 1, 1933. It was a drop of \$2,226,000,000, or over 29 per cent, from the all-time peak of \$7,581,000,000 reached on March 13, 1933. About one-half the decrease, it was pointed out, reflected the return of currency from the public.

WILL ROGERS GREAT IN "DAVID HARUM"

Will Rogers has brought to life one of the most beloved characters of American fiction, with his role in the Fox film release, "David Harum," which is playing a full week at the McDonald theatre. The novel by Edward Noyes Westcott makes a delightful and thoroughly enjoyable film that shows Rogers at his very best. It was because of the numerous requests of theatre-goers that the Fox officials produced the picture.

Rogers gives all he has to his role and turns in a truly remarkable performance. The romance of Evelyn Venable and Kent Taylor is delightfully sincere. The other members of the cast, Louise Dresser, Stepin Fetchit, Noah Beery, Roger Imhof, Charles Middleton, Frank Melton, Sarah Padden and Lillian Stuart do splendidly with their allotted roles.

County Key Bankers

Describing the activities of the Agricultural Commission of the American Bankers Association, the Director, D. H. Otis, says: "With 2,500 agriculturally minded bankers designated as county key bankers, there is enlisted a tremendous force for the improvement of agriculture. These key bankers bring organized assistance to progressive bankers, who are led to see the possibility of agricultural work in their communities. Banker-farmer tours are emphasized as a means of acquainting bankers, farmers and other business men with first-hand knowledge of how agricultural improvement methods are working out in practice. These give an opportunity for the key bankers to contact country bankers and work out new ideas."
