FEDERAL PLAN OF GAME CONTROL UP

Members of National Organization Oppose Game Fees for Sportsmen in Forests

NATIONAL SUNDAY DUE

Reduced Member Held Until June 1; Gun Sets Shoot Nights; Has try

Members of McKenzie Gateway Rod and Gun club of Springfield are watching closely the steps being taken by the Federal Government in a program of controlled game management in the national forest areas. The club members voted at their monthly meeting Monday night to instruct their secretary to communicate with proper authorities and urge that no license fees in addition to the state fees be placed on Oregon citizens who wish to hunt or fish in the national forest zones. It was felt that Oregon citizens now pay enough for the privilege of enjoying these sports.

Roosevelt Orders Survey
Because of President Roosevelt's keen interest in game and wild life conservation, which finds formal expression in the recently issued report of his committee on Wild Life Restoration, the forest service has been instructed to give more attention in the future to wild life matters, and to take a much more prominent part in the conservation of the nation's wild life resources.

Two biologists have already been employed by the Federal Government to make surveys and studies of game conditions in Pacific Northwest national forest areas.

A new regulation just made by the Secretary of Agriculture, H. A. Wallace, covers the administration of all game matters on the national forests. In addition to providing summer range for most of the big game animals of this region, and many of the fishing streams, provision is also made for the creation and administration of federal migratory bird refuges. The work also extends to game and non-game birds, and non-game animals. However, no present action is contemplated to conflict with state game control in this region. Game matters are to be studied carefully for the next year, using the work of the two biologists as a basis. There will, of course, be an ultimate need for correlation of game and wild life on the national forests with the other forest values such as watershed protection, recreation, timber cutting, grazing by domestic animals, and forest fire control. Our whole aim will be to make the national forests produce their maximum value to the public, according to C. J. Buck, regional forester. In most instances, it is believed that these matters can be worked out in cooperation with the state game administrations.

Regulation is Protected
The basis for the local expression of opinion is a regulation G-20 A issued by the Secretary of Agriculture which reads as follows: "When the secretary shall determine upon consideration of data and recommendation of the Forester that the regulation or the prohibition for a specified period of hunting and fishing upon any National Forest or portion thereof is necessary for the accomplishment of the purposes above set forth, he shall designate such National Forest or portion thereof, establish hunting and fishing seasons therefor, fix bag and creel limits, specify the sex of animals to be killed, fix the fees to be paid for permits, designate the authorized official to whom application for permit shall be made, and describe the terms and conditions under which hunting and fishing shall be conducted with a view of carrying out the purpose of this regulation. Public notice of such designation shall be given by such means as the Forester shall deem adequate for the purpose. Carcasses of animals or fish taken under permit shall be marked or tagged for identification as directed by the Forester."

Reg. T-83. Upon National Forest lands designated under Reg. G-20 A the following acts are prohibited:

"Hunting, trapping, catching, disturbing, or killing any kind of game or non-game animal, or game or non-game bird, or taking the eggs of any such bird, except during hunting and fishing seasons established by the secretary, and in accordance with the terms and conditions of a permit issued by a duly authorized officer which is valid and subsisting at the time."

It was agreed by the club members present that the introductory membership rate of 50 cents for the first year be continued until the first day of June. The club was organized a month ago and now has nearly 40 enrolled members in Springfield and along the

TRACKMEN TAKE SCHOOL HONORS

Hanson Looms Strong in Mile And Half-Mile Events; Undeclared in 6 School Meet

H. S. IN FOURTH PLACE

Hall to Take 12 Students to Salem for Willamette Valley Competition Saturday

Coach Marion Hall will take about twelve of his leading track and field men to Salem Saturday for the annual Willamette Valley Field and Track meet to be held at Willamette University.

Men who will make the trip and the events they will compete in are as follows: Stewart and Hadley, 100 yard dash; Hayes, 440; Hanson and Hartman, 880; Ruth and Hanson, mile; Smith and Kendall, low hurdles; Smith, high hurdles; Hayes, high jump; Hartman, high jump; Chetwood and Williams, discus; Chetwood, shot; Chandier, javelin; Stewart and Brattain, broad jump.

The main meet will start at 1 o'clock. Preliminaries in the 100 and 220 yard dash, and 120 and 200 high and low hurdles will be run off at 10 o'clock as will the qualifying rounds in the shotput, discus and javelin.

Each school is limited to two entries in each event and each entrant is limited to one field and two track events or two track and one field event plus the relay.

Schools to be represented will include Cottage Grove, Oakland, Roseburg, Eugene, University high, Springfield, Corvallis, Salem, Albany, Chemekewa Indians, and possibly others.

Springfield athletes won fourth place in the six school meet held at Hayward field last Saturday and accounted for 20 points. Roseburg, by winning first in the relay, won the meet from Cottage Grove which was second. Eugene placed third.

This was the first competition for the Springfield men and Hall was pleased with the manner in which his men performed. The work of Malcolm Hanson of Waverlyville who is attending Springfield high school was the bright spot in the meet for the local fans. Hanson was entered in the two distance events, the 880 or half-mile, and the mile races, and took first in each of the events thereby accounting for 10 of the 20 points won by his school. His time for the mile was 4:39.1, and for the half-mile, 2:6.8.

Hanson has been training faithfully and is a good prospect for the local team in the state meet. He has been practicing daily under Hall and has been running a mile and one-half in the same time per mile as he does the mile, indicating plenty of reserve strength for his races.

Others who placed in the Saturday meet were Hadley who tied for fourth in the 100 yard dash; Disque Smith who placed third in the low hurdles; and also fourth in the discus; Hartman tied for second place in the pole vault; Brattain, fourth in the broad jump; Smith, third in the high hurdles; and Hartman, third in the half-mile.

No meet has been arranged for the week-end of May 5, yet but the district finals will be determined on May 12, and the state meet will be held May 13.
