SHE LOST FAT HIGH BLOOD PRESSURE

Here's Today's Live News For Fat Women—And Men, Too Read It—Please.

"I have been taking Kruschen Salts for nearly a year for my health, and for high blood pressure and rheumatism and it helped both. My blood pressure was as high as 290 when I started to take Kruschen. I weighed 255 and now I weigh 214 that is losing 41 lbs., in about nine months and I feel fine. Wouldn't go without Kruschen Salts in the house." Mrs. W. Eck-off, Saginaw, Mich.

Besides melting away ugly, excess fat Kruschen constantly keeps the bowels regular and free from waste that is always apt to poison the system.

Fat folks should give Kruschen a month's trial—it never disappoints—you'll feel so much better after taking one inexpensive jar which you can get at any drugstore in the world—keeps you cooler in hot weather.

CAPITALISM defined

People speak of capitalism as if it were some sort of an organized plan imposed upon people unable to help themselves. Capitalism is merely a name for the system which has grown naturally out of mankind's ability to produce a surplus of wealth beyond immediate needs. Capital is nothing but wealth not required for productive use at the moment. Every man who has a dollar in a savings bank and does not need it is as much a capitalist as a millionaire is.

Capital is destroyed only when it is consumed by individuals. It is not lost when it is invested in permanent things, like buildings and railroads. The individuals who invested may lose, but the building remains. The outcry against capitalism is not really aimed at the system, which is the only system under which real wealth ever accumulates, but against individuals who divert too high a proportion of their temporary share of the world's capital to non-social uses.

SOCIALISM State owned Stripped of all its sophomoric entanglements, the essence of Socialism is not the abolition of capital, but the ownership of all capital by the State. The tendency in that direction has been growing stronger for more than a hundred years. Private capital used to build and operate highways and bridges, charging toll for every traveller or vehicle that used them. Long ago those enterprises became investments of public capital.

Agriculture, fishing, mining and manufacturing are still in the hands of private capital. The complete Social program would make all of those functions of the State.

REGULATION U. S. aim What we seem to be heading for in America is a compromise between uncontrolled private Capitalism and complete Socialism. The compromise is the continuance of private Capitalism under State regulation. We have had that in the case of railroads for fifty years. It seems to be close at hand in the matter of telegraph, telephone and radio communications.

At the same time, there is an increasing tendency to apply State capital to long term enterprises which do not promise a direct return in dividends, but which are presumably justified by their social value. This includes such things as parks, many classes of highways, public buildings, and similar enterprises. Private Capital is not inter-

"You, too, can get on and be the best of all that's going on—easy—at a cost that's about 1/2 cent a week, with Lin-x CLEAR-GLU."

It has always seemed to me that a sound principle was established there. Private capital might justly be required to go to work for some social purpose, such as building a sawmill. In a perfect social system it would not be a permissible for its owner to withhold more of its benefits than sufficient to maintain himself and his family in reasonable comfort.

Such a rule would be absurd, however, even wicked, in a political system riddled with inefficiency and honeycombed with graft. Private capital and its owners, at the worst, are far more honest and far more careful of the uses they put their capital to than any government I know of.

FOURTH IS COMING FIREWORKS ON SALE

The sput-sput of firecrackers has already begun on the Springfield streets as the fourth of July firecrackers went on sale in some of the local shops this week. The coming of June usually brings out early displays of these noisemakers which please the children.

One quart of this new finish is enough to cover the average kitchen linoleum one coat. Dries in 4 to 6 hours to smooth, glossy, transparent finish. LIN-X is acid-proof, grease-proof, water-proof and dust-proof. Even boiling water won't turn it white. Won't show heel marks. Not an ordinary varnish. Not lacquer. Not wax. Does not make floor slippery. Has no disagreeable odor. Easy to apply. . . . no polishing. . . . no brush marks. Get a quart today. Finish your linoleum tonight. Walk on it in the morning.
