

# PROGRAM OF AAA TO BE CONTINUED

### Special Relief For Drought Stricken Areas Planned; To Hold Control Ground

The great drought, which has reduced grain and hay crops to record low levels, has started a country-wide discussion of the agricultural adjustment program and affected materially the agricultural refinancing program of the government, according to information received by the Oregon Agricultural extension service.

In answer to those who feel that agricultural adjustments are no longer necessary, Secretary Wallace of the United States department of agriculture says that undoubtedly the drought will make it necessary to change many of the agricultural programs for 1935.

**To Continue Control Plan**

Regardless of what revisions may be made, however, Secretary Wallace says there will not be any abandonment of the principle of government assistance to farmers in establishing the necessary balance between supply and demand and giving just compensation for their cooperation.

Already nearly 4 million checks, amounting to approximately 200 million dollars, have been issued as rental and benefit payments to farmers. Payments on the corn-hog contracts for 1934 production are just getting well started, while the wheat, cotton and tobacco contracts already in effect run through the year 1935.

**Refinancing Slows Up**

Owing to depreciated security, the farm refinancing program of the Farm Credit Administration is being slowed up in the drought areas, both as to mortgage loans and production loans, says the college extension service, but drought-stricken farmers are receiving some aid through special emergency drought relief loans as well as from the crop adjustment benefit checks. The cattle purchase program is also affording relief from the distress caused by the drought and plans are being made to purchase sheep in the drought areas.

President Roosevelt has already issued orders for the purchase of fruits and other food supplies where such would be wasted under normal conditions and has ordered additional sums of emergency relief funds to be expended in the midwest.

Rising prices for foodstuffs are expected to continue although there is no real shortage in this country. Government officials are determined to prevent excessive increases. An average increase of 7 percent is all that need be made, says Secretary of Agriculture, Henry Wallace.

## HARLOW TO PLAY IN "GIRL FROM MISSOURI"

"The Girl From Missouri", the new Metro-Goldwyn-Mayer picture opening Sunday at the McDonald theatre, brings Jean Harlow in one of the most entertaining pictures in recent months.

Miss Harlow is seen as Eadie Chapman, on the hunt for a millionaire husband, in a role that only Jean Harlow could handle.

Lionel Barrymore plays the part of T. R. Paige, a financial and political power, who tries to turn heaven and high water to prevent Eadie from marrying his son, Tom, taken by Franchot Tone.

Lewis Stone appears briefly as Cousin, millionaire bachelor, and Hale Hamilton enacts another playboy bachelor who crosses Miss Harlow's trail.

Patsy Kelly serves admirably as a foil for Miss Harlow in her role as Kitty, Jean's showgirl pal.

She first attaches herself to Cousins, but he commits suicide. She trails the elder Paige to Florida and quite by accident runs across his son, Tom. Tom is madly in love with Eadie but dodges the wedding issue.

Disillusioned, Eadie returns to New York and Tom relents and offers to marry her. But Tom's father "frames" Eadie, has her arrested—and the manner in which Eadie gets her revenge provides a series of exceedingly humorous incidents.

## FISH PARASITES TOPIC OF COLLEGE BULLETIN

Parasites of one kind or another have been found in every important species of game fish which occurs in Oregon, although in most instances these parasites do no serious damage if present only in small numbers, says a new bulletin published by the Oregon State college experiment station, entitled "Some Diseases of Oregon Fish and Game and Identification of Parts of Game Animals." The mere finding of parasites in fish and game, it goes on to say however, should not be reason for condemnation for food, as all meat-producing animals serve as hosts for parasites.

The new bulletin reports on studies of problems concerned with diseases of Oregon fish and game some of which were begun as early as 1925, by the department of veterinary medicine at O. S. C. in cooperation with the Oregon State Game commission. Authors are Dr. J. N. Shaw, Dr. R. E. Simms and O. H. Muth of the veterinary medicine department.

Some of the fish eating birds are known to be carriers of parasites which live a part of their lives in fish, the bulletin says, and such birds may severely contaminate lakes and streams. Because life cycles of many fish parasites are still unknown, further studies will be necessary if control measures are to be worked out.

## LEAGUE TO BROADCAST MUNICIPALITY TOPICS

The proposed 20 mill tax limitation amendment and other subjects of interest to citizens in Oregon cities will be broadcast over station KOAC every Wednesday from 7:55 to 8:15 p. m. by a corps of experts under the auspices of the League of Oregon Cities and the Bureau of Municipal Research of the University of Oregon.

The program for the next three weeks follows:

August 22—"Principles of Sound Municipal Utility Management," by J. W. McArthur, general superintendent of the Eugene Water Board.

August 29—"How to Secure and Maintain Low Fire Insurance Rates in Small Cities," by Percy E. Tallman, chief of the fire department of Corvallis.

September 5—"Everyday Problems of Municipal Utility Management," by F. M. Bennett, office manager, Eugene Water Board.

## AZALEAS BLOOM TWICE DURING SAME SEASON

Several flowers have already opened and many buds are appearing on the two wild azalea plants in the front yard at the Maxey home. The flowers are white. The early spring weather and advanced growth at this season is credited with the unusual occurrence.

## MINIMUM PRICE ON TOMATOES REDUCED

The minimum price on tomatoes to the retailer in Oregon and Washington will be 40 cents for each 20 pound box it was announced this week by the melon and tomato marketing agreement committee. The price is a reduction of 10 cents for the minimum and became effective Monday.

Two cases of violation by growers of the \$1.25 per crate minimum placed on cantaloupes by the Marketing committee are now being prosecuted by the State Department of Agriculture.

Under the new ruling the buyers and the sellers are now liable for prosecution when either one violates the price scale except in instances where prices are reduced to avoid loss by spoilage.

## WARNING ISSUED IN CHANGING INSURANCE

Salem Aug. 16 — (Special) — Insurance agents who attempt to replace or encourage the replacement of life insurance policies already in force by one in another company, which new policy is purported to be more suitable to the insured's needs usually do the policyholder a grave injustice, declares A. H. Averill, insurance commissioner, in a statement issued as a result of inquiries from numerous policyholders as to whether a policy in another company would not be more beneficial than one which has already been carried for a number of years.

A life insurance policy has a definite property value which increases with the age of the policy and a change from one company to another usually means a financial loss to the insured, for the new insurance purchased must be paid for at the advanced age rate. It should be remembered that with the first payment on a life policy an immediate insurance estate has been created and the acquisition costs have been paid.

## Thurston

Miss Norma Hart spent last week visiting relatives at Harrisburg.

Mrs. John Endicott and son, James, Ray Baugh and son, Harry, and daughter Ella, D. O. Baugh and Miss Cora Calvert and Mrs. Loren Edmiston, motored to Junction City last Sunday and attended the birthday party of James Calvert who celebrated his 80th birthday. ## GOVERNMENT TO AID 235 U. O. STUDENTS

### Students Wanting Part-Time Work Should Make Applications As Soon As Possible

Funds have been made available to the University of Oregon to provide employment during the coming school year for 235 students, under the federal emergency education program, it was announced here by Dr. C. V. Boyer, university president.

This represents an increase of 20 percent over the total of 196 allotted last year. The sum of \$3,525 per month will be distributed to the students beginning with the school year. The average pay per month per student will be \$15, on a probable basis of 35 cents per hour. This sum will be in addition to funds allotted by the university regularly for work done by students. Half of the recipients of the federal money must be students who were not in the university last January. This will permit attendance of 118 new students.

Applications from both new and old students are already coming in at the university. These applications, which should state types of work students can do, may be mailed to Miss Janet Smith, employment secretary, at the university, Eugene.

## To Visit Here—Miss Jeanette Thompson arrived here this week to visit at the home of Mr. and Mrs. P. J. Bartholomew. She lived here and attended school one winter.

## "STOMACH PAINS SO BAD I COULD HARDLY WORK"

Says C. S. Gross: "After taking Dr. Emil's Adia Tablets the pains are gone and I eat anything." Try Adia treatment on our money-back guarantee. Flanery's Drug Store.

# THE 1ST THING I'M GOING TO BUY—IS A MAYTAG

"With prices going up I want to buy a lot of things. But not another thing till I get a Maytag. Because with a Maytag, I can save money to buy other things."

- That's sensible buying. Because it is buying quality you can use—quality that pays a weekly return on your money.
- The Maytag washes clothes faster, washes them more thoroughly, more gently and at lower cost per washing because it is a better designed, better built washer.
- Select your Maytag at today's low prices.

The Maytag Company  
Manufacturers  
Founded 1893 NEWTON, IOWA

You can still buy a Maytag for as little as \$69.50

For homes without electricity, this electric may be had with Gasoline Motor-Adapter at slight additional cost.
