## GIVE THE NEW GOVERNOR YOUR SUPPORT

General Charles Martin has a plurality sufficient to elect him governor returns show as this is written. The three candidates split the vote more evenly than it had been predicted in a confusing election. The bad part of any three cornered race is that it usually results in a candidate being elected that the majority of the people voted against.

From the standpoint of character and ability Governor Martin may make a good governor. Living most of his life without the state necessarily he is not intimately acquainted with its problems. This lack of experience may be overcome if he applies himself diligently to the duties of his office and surrounds himself with able men who do know conditions.

Be that as it may he is now governor and as such is entitled to the support of everyone. A successful democratic government requires the losers to be good sports and cooperate with those successful. Lay aside animosities and help for the common good should be everyone's attitude toward the new governor.

More than half the people of the state voted for Dunne and Zimmerman. If they continue an attitude of hostility the new governor's administration will be hampered by attack at every turn. Under such conditions the general welfare of the state suffers. If the ship of state in Oregon is to sail through these troubled economic waters successfully it requires that all hands on board cooperate rather than mutiny.

We did not support General Martin in the campaign but we extend him our humble cooperation in anything that he may do for the good of Oregon.

## PRAISE RATHER THAN CENSURE

Praise rather than criticism should be given Sheriff C. A. Swarts for his action in discharging the deputy in charge of the auto license department and changing the system after a shortage was found in the department's accounts. When the shortage was discovered by the auditor the deputy was discharged and the fact reported to the district attorney. Sheriff Swarts made good to the county all the money short and is now suing the deputy's bonding company to recover. The deputy was bonded to the sheriff in order to prevent the county losing if just such irregularities did occur.

Every sheriff for many years back in Lane county has suffered in some manner by the action of one or more of his deputies. Some have lost office and faced recalls as a result of deputy conduct. Shortages have occurred with other sheriffs and have been hushed up by the sheriff making good the loss. The antiquated system was continued.

Sheriff Swarts did not try to cover up the misconduct of his deputy. He acted open and above board—fired the deputy and reported the facts to the prosecutor. He made good the shortage out of his own pocket and then installed a new system for closer checking in the auto license department. In doing this he has shown courage and demonstrated to the public that he is fair and square in public dealings and is trying to fool nobody.

The sheriff's office handles between two and three million dollars a year. It goes through the hands of low paid deputies and clerks. The sheriff's duties are many and varied; necessarily he must trust some deputies with the money. He should have the support of the public when he acts fairly and squarely.

## "NO'S" SCORE COMPLETE VICTORY

Legislation by initiative and referendum had a setback in Oregon this election. This method of making laws started as a means of giving the people greater voice has been badly abused in recent years when it has been the instrument of cranks and selfish interest in many elections.

Laws generally are more satisfactory if they are made by the legislature. The trouble with the initiative is that you must take the whole measure as written. In the legislature bad features can be removed and good ones substituted by amendment before a bill becomes a law. To serve the best interest of the people the initiative and referendum should be used sparingly and those initiating measures should be more careful in drawing them.

Our forefathers fought and spilled their blood against taxation without representation. Now we have too much representation without taxation.

Huey Long would have Louisiana cede from the union. The nation might vote for it if he would agree to take Washington, D. C. with him.

It was a bad election of the "ins" as they had to fight for their life to stay in and some of them went down fighting.

All the candidates rush in like sheep to be slaughtered at next election.

### The FAMILY DOCTOR

by JOHN JOSEPH GAINES M.D.  
DANGEROUS ERRORS

This week I observed a circumstance that impressed me profoundly and which I deem worth passing along to you.

A young man had been complaining with "a pain in his side" which he attributed to lifting a heavy object of some kind; it was a deep-seated pain, rather low down in the right flank. He kept on with his duties about the farm, and was annoyed a week or more. He noticed the pain getting more pronounced, and spoke oftener to his mother about it.

A bad taste in his mouth—and constipation—led the mother to a family diagnosis—he was "bilious"; "his liver was torpid," and was common with him at times. There was no fever apparent, and he remained up and around, until—

They administered a full dose of liver pills—the sort that never has failed. These acted with violence, and the boy went to bed with alarming symptoms! The family physician was called, who saw the serious nature of the trouble—appendicitis with abscess! The heavy cathartic all but killed the young man!

He was hurried away to a hospital in the big city, where the facilities for operation were ample. The surgeons found a ruptured abscess of the appendix, with peritonitis already set up. The giving of an irritating physic was a most dangerous thing to do, under the circumstances.

They saved his life, but it was a close call. It took four times as much hospital attention, including several transfusions of blood, to keep the pulses going.

I have written several letters on this subject, and I hope this further warning is not superfluous; NEVER give a harsh purgative in case of an abdominal pain.

## TELEPHONE CO. OPPOSES ORDERED RATE CUT HERE

Enforcement Would Mean Earning Reduction On Property To 1 Percent Says Official

Telephone rate reductions ordered effective in Oregon starting November 1, will be opposed and an injunction preventing Charles M. Thomas, state corporation commissioner, from enforcing his edict has been obtained by the Pacific Telephone and Telegraph company.

Mr. E. D. Wise, vice-president and general manager of the phone company has issued the following statement:

"Every vital principle and fact which have given Oregon a telephone service of the highest quality at the lowest consistent sound cost have been ruled on adversely by the Public Utilities Commissioner. The injustice done is so fundamental that if we are to meet our obligations to the public we service, our men and women who are loyally devoting their lives to this public service, and our stockholders, and if we are to continue to render an adequate, dependable and satisfactory service, we have no other recourse than the legal step which the rate order forces us to take.

**Property Values Hit**  
"We fully recognize that rate reductions are always welcomed by our patrons. We have made them whenever it has been possible to do so without impairing the quality of our service or our financial stability. This recent order, however, while making a small reduction in rates to the individual means such a loss to us, aggregating over \$365,000 per year, that our present low earnings will be reduced to 1 percent per annum on the value of the property. Further, the order reduces the value of the property by \$10,000,000, a reduction amounting to over 30 percent. It is at once apparent that these differences are substantial and not minor concessions the company might make.

"In view of our responsibility to those we serve, we will continue to perform our public service to the best of our ability in a courteous, satisfactory and efficient manner. In carrying forward this policy, we desire to merit the public's confidence and good will. An understanding of all the facts will clearly show that we desire no more than is fair and feel that our patrons have no desire to accord us less."

## RAILROAD SCHEDULES CHANGED FOR WINTER

Important changes in passenger train schedules which became effective October 28 were announced by Carl Olson, Southern Pacific agent this week.

The "summer schedule" of the Cascade Limited, which was inaugurated at the beginning of the tourist season with an additional train operating on fast schedule between Portland and San Francisco to handle increased travel during the summer period, will be discontinued, it was stated.

Hereafter the Cascade will resume its schedule as train number 18 northbound and number 17 southbound.

A new train has been established which leaves Eugene at 5 p. m. and which arrives in Portland at 8:45 each evening.

Three trains will stop in Springfield under the new schedule says Mr. Olson. Northbound the first will stop if flagged at 3:14 a. m. and regular stops are made at 3:27 p. m. A stop daily at 12:28 p. m. is the only southbound train which picks up passengers in Springfield. Persons wishing to take the other trains of the system can do so by going to Eugene.

## VEGETABLE MEN TO HAVE O. S. C. SHORT COURSE

A three-day short course for vegetable growers of Oregon has been arranged at Oregon State college from November 21 to 23 inclusive. Fifteen specialists in various fields of agriculture at the college, commercial truck growers, and others are cooperating with A. G. B. Bouquet, professor of vegetable crops, in the educational program arranged.

The course will be divided into three parts. Soils, fertilizer and irrigation matters will be dealt with throughout the first day. Greenhouse crops, frames and plants will be discussed the second day, while on the third day attention will be confined to insect and disease control and marketing.

Demonstrations and exhibits of latest vegetable gardening equipment will be an important part of the short course, says Professor Bouquet. These will include showings of soil fertilization and irrigation equipment, greenhouse and hotbed materials, and insect and disease control supplies.

Registration is open without charge to all interested in vegetable growing, and they may attend the entire course or any part of it.

## GOSPEL ASSEMBLY TO HAVE SPECIAL SERVICE

Special dedication services for the Felt Gospel Assembly church will be held Monday of next week. A special dedication service will be held at the Mission, 231 Main street, at 10:30. Other services will be held at the Methodist church at 2:30 and 7:30, and a basket dinner will be held in the basement of the Methodist church at 5:30.

## MANY PLACES OPEN FOR YOUNG MEN IN ARMY

The Army Recruiting Office, 323 New Post Office Building, Portland, Oregon is offering for enlistment at the present time an unusual array of desirable assignments, both for domestic and foreign service. A few of these are the Air Corps and Ordnance Department in the Hawaiian Islands; the Medical Department and Coast Artillery Corps in the Philippine Islands; and for domestic service, the 29th Engineers at Port Townsend, Washington, for which qualified surveyors are desired for topographical work on the Olympic peninsula. Many other assignments are available and interested young men are invited to call or write for full information regarding these.

**Returns Home**—Lee Rivett has returned to his home in Lincoln, Nebraska after spending some time here visiting with his sister, Mrs. Mabel Tyson.

## MOST TURKEYS SOLD THROUGH BIG POOLS

Approximately five percent of all the turkeys marketed in the United States are shipped by the Northwestern Turkey Growers' association of Salt Lake City, according to figures released by the Cooperative Division of the Farm Credit Administration. The Northwestern Association is the selling agency for eight or nine pools in the Pacific states including Oregon and maintains its own selling agency in Los Angeles and New York.

The association ships its turkeys under its own label, but stamped on the parchment wrapper is a stencil showing the pool where the shipment originated.

## DOCTOR TOLD THIS LADY HOW TO SAFELY REDUCE FAT

Mrs. Helen Green writes: "A physician advised my mother to take Kruschen Salts for overweight so I immediately started taking it myself. I weighed 192 and after taking 3 bottles I now weigh 165 and never felt so well. It's a tonic as well as reducer."

Reduce safely and sensibly by taking one half level teaspoonful of Kruschen in hot water every morning—you'll be overjoyed with your improved health and slender, stylish figure. One bottle lasts 4 weeks. You can get Kruschen Salts at Planery's Drug Store or any drug store in the world.

## ACCIDENTAL DEATHS INCREASED IN MONTH

Drunken Driver Responsible For Major Serious Accidents Says Traffic Experts

During September 24 persons were killed in traffic accidents this year as compared to 16 last year; 496 persons were injured this year and 402 in 1933; there were 1375 accidents this year and 1602 in 1933. Totals for the first nine months of 1934 are as follows: 14,893 accidents; 218 deaths; 3,564 injuries. For the same period of 1933, totals were 13,748 accidents with 172 deaths and 2,958 injuries. These figures are taken from records in the office of the Secretary of State.

In Lane county during September of this year there were 69 accidents, 12 injuries and two deaths as compared to 78 accidents, 19 injuries and no deaths in September 1933.

Drunken driving is the major accident cause selected for attention during the current two-week period of the drive. Traffic experts report that while accidents from this cause are not as numerous as those from other violations, they usually are more serious in results, because the drunken driver is physically handicapped in that it takes him longer, after perceiving an emergency, to apply his brakes or turn his car, than it takes the sober driver.

## HOW MUCH FOR YOUR EYES

### AT YOUR FURNITURE DEALERS

Eyestrain is a very real danger. Few of us realize that we pay dearly for every hour we strain our eyes. The tragedy is that we seldom know that we ARE mis-using our eyes. Attempting to read, work or study in poor or glaring light is the cause of most eyestrain. Often the penalty for eyestrain is not paid until later years. Then it is too late. The two or three pennies a day saved on your light bill isn't worth the risk of impaired vision. See this new type lamp (recently designed to help correct the evils of improper home lighting) at your dealers.
