Many Get Bibles During Past Year

More Than Seven Million in 148 Languages and Dialects Are Distributed

Distribution of 7,517,548 Bibles, Testaments, and portions of the Bible during 1934 in 148 languages and dialects and in more than forty countries was reported at the 119th annual meeting of the American Bible Society held in New York City on Thursday, May 9. The report stated that since the institution of the Society in 1816 a total of more than 261,000,000 Scripture volumes had been placed in circulation.

The circulation in the United States was greatest in the middle west, more than a million copies of Bibles, Testaments and portions being distributed from Chicago. Over 30,000 New Testaments were supplied to the chaplains in the camps of the Civilian Conservation Corps. Circulation among the colored people was larger than in any year since the beginning of special recognition of the Negro population a third of a century ago. Distribution of complete Bibles throughout the entire United States was thirty percent greater.

During the year the Society published the New Testament for the first time in Cherokee for the Indians of Montana and Oklahoma, and in Tai Lu for distribution in South China. A revised New Testament with Psalms was published for the Chinese speaking the Hing-bua dialect.

PLAYS HISTORICAL ROLES

George Arliss, above, as "Cardinal Richelieu" in the film of the same name coming to the McDonald theatre Sunday for four days. This is the seventh time that Arliss has been called on to portray the role of some historical figure. Featured on the same bill will be "It's A Small World," with Spencer Tracy.

ARLISS AT McDONALD IN "CARDINAL RICHELIEU"

Approaching the 67th milestone of a career marked by hard work and distinguished accomplishment, George Arliss believes the world is suffering largely from "too much ambition."

Arliss is playing just such a man in his latest picture, "Cardinal Richelieu." Darryl Zanuck's lavish production of the 20th Century Pictures, which comes to the McDonald Theatre Sunday for 4 days. But in private life, the actor deplores excessive ambition.

"A desire to work hard for the sake of doing a good job is better than ambition as a driving force," says Arliss. "From a desire for self-development, comes happiness. Ambition leads the other way."

Arliss' advice to ambitious youth is to seek not fame, but happiness. This can be attained, he says, by doing "what one most wants to do, no matter what it costs."

"If there is a mistake in the viewpoint of the rising generation, it is the result of its desire to get the most it possibly can without a fully compensated return in the way of effort."

"In my younger days, I had no ambition either to make a lot of money, or to be famous. I merely wanted to become as good an actor as my capabilities would permit. To that end, I made the necessary sacrifices and performed the necessary work. I spent ten years in obscurity, but wasn't unhappy or discontented—I was doing the thing I most wanted to do, regardless of the effort. That's the secret of happiness."

Rodent Control Group Appointed

Ten Men Assigned To Eradication Program in This Area For Present Year

Rodent control supervisors were appointed by the County Court on recommendation of O. S. Fletcher, county agent, at a meeting Tuesday morning. Those appointed from the school district territory tributary to Springfield are as follows: Waiterville, nominated by the Waiterville grange, District 57, Marvin Drury; District 65, Hugh Coddard; District 126, Gordon Frazer.

Fall Creek-Lowell, district 67, E. E. Callison; district 71, Stanley Gray and Anderson Renfro; district 74, E. M. Edwards; district 83, Eldon Warner; district 132, Joe Walker.

The district numbers refer to school districts. Each supervisor is to take charge of the rodent control work in his area. Farmers in the vicinity and non-resident land owners will be notified to set out poison where rodent damage becomes too high.

The county agent states that these supervisors have the authority to go upon land where squirrels are not controlled by the people in charge of the land and poison the squirrels at the expense of the owners. The supervisors are paid for their time and poison by the county court and the expense is placed as a lien against the land and collected with the taxes. Official notice to all land owners to control the squirrels on their premises was published during March by the county agent. While these supervisors have authority to go upon neglected land and poison at the expense of the owners the county agent states that all supervisors are expected to secure voluntary cooperation where possible. Supervisors will be appointed in additional communities on request of people in those districts.
