PETER HARTMAN, County Assessor of Wheeler Co., Ore.

Announcements. Having received the Democratic nomination at the primary election for Representative for Gilliam, Wheeler and Sherman counties, I hereby announce my candidacy for that office. I am entirely in favor of the Oregon system in every way, believing that the people should have entire rule. I am in favor of electing every public official in the United States by direct vote of the people. I am opposed to single tax, to the state bonding act for public highways, and to any change in the present law which might take the power out of the hands of the people and place it in the hands of the legislature. I respectfully ask the support of the voters of the district, and if elected will do all in my power to impartially represent the interests of the people of the whole district.

W. J. EDWARDS, Mayville, Ore.

Thereby announce myself a candidate for the office of County School Superintendent of Wheeler County, Oregon, at the general election to be held in November, 1912.

R. L. GREENE.

Primary Law Repudiated. People should insist that Candidates Abide by it.

Does the direct primary law mean anything to Oregon voters? Do the people desire to preserve this law? Admittedly the only way to maintain and strengthen this popular law is to abide by its results.

Senator Bourne was defeated fairly and squarely for the Republican nomination for United States Senator by Ben Selling in the Republican primary election. Later Bourne was turned down by the state convention of the Progressive party when he sought that party's nomination.

In becoming an independent candidate, Bourne repudiates the direct primary law and asks the voters to endorse that repudiation by electing him. But we do not think the electors of this state will be parties to adjusting the direct primary law to meet the whims of Senator Bourne or any other disappointed office-seeker. The prevailing sentiment among voters is that since Bourne participated in the primary election, he is inconsistent as he entirely repudiates in seeking to defeat the result of the nominating election.

One Issue in Senatorial Contest. In this campaign the voter should not allow himself to be confused by the literary contributions of Senator Bourne's publicity department. There is only one issue involved in the senatorial contest. It is plain and unmistakable. Senator Bourne, in becoming an independent candidate, has repudiated the direct primary law and asks the voters of the state to endorse his course. Ben Selling, the direct primary nominee, stands for the strict observance of this law which he pledged to abide by.

Saved By His Wife. She's a wise woman in who knows just what to do when her husband's life is in danger, but Mrs. R. J. Elliot, Brain (see, V.), is of that kind. "She insisted on my using Dr. King's New Discovery," writes Mr. E. "for a dreadful cough, when I was a week my friends all thought I had only a short time to live, and it completely cured me." A quick cure for coughs and colds, it is the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quinsy, tonsillitis, hemorrhages. A trial will convince you. BOTTLES AND FL. Guaranteed by all druggists.
