Origin of the Slavs.
The Slavs belong to the "Indo-European" race, although it is a question these days as to whether the Aryans, as the race is sometimes called, had their original home in Asia (around the Caspian) or in Europe. At any rate, the Slavs appear in Europe contemporaneously with the other Indo-European families to which they are related.

Happy or Brave.
When you cannot be happy, you can be brave. There are things nobody can enjoy especially, aches, pains, disappointments, unkindnesses, and things of that sort. Nobody expects that you boys and girls can be just as happy over your troubles as you are over your blessings. But that does not excuse you for fretting and whimpering, just as soon as things go wrong. If you cannot be happy, you can be brave.

Cheap Household Cement.
Plaster of paris and gum arabic in the proportion of four parts plaster of paris to one of gum arabic makes a very good cement for mending china and other articles. The ingredients are mixed in a pulverized form, water added and used at once. If smoothed over with an old knife blade while soft this cement will be glossy and hard as china when hard.

Depends on the Man.
Any woman can have any man she likes if she pursues him vigorously enough or eludes him—either does. There are two ways for a woman to get what she wants. Either chase it for all she is worth, or run from it in the same manner. It depends on the man.—"Time o' Day," by Doris Egerton Jones.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. The favorite family laxative.

Sex and Ships.
It is impossible to say just why a ship is always, or generally, referred to as "she." It is a custom, and like most customs, especially those that are ancient, is veiled in mystery. Probably there is no particular "reason" for this custom.

The Residue.
"After coal, what?" asks an esteemed, in manner of speaking, contemporary. Our own experience indicates ashes, to be followed at more or less long intervals by an ash wagon.—Cleveland Plain Dealer.

WHY DINING CAR CHEFS PREFER KG BAKING POWDER

Those who have had cakes ruined by jarring the stove, slamming the oven door or a heavy footstep, may have wondered how the dining car chef can turn out such marvelous biscuits, hot breads and pastry when his oven is being incessantly jarred and jolted and shaken by the motion of the train.

To get pastry to raise and stay raised under these conditions, a baking powder must be used that continues to give off its leavening gas—that sustains the raise—until the dough is baked through.

Dining Car Chefs have found a baking powder exactly suited to their needs in K C and you will find it just as well suited to your requirements. K C is really a blend of two baking powders, one active as soon as moistened, the other requiring both moisture and heat to start the generation of leavening gas. No matter how moist and rich you make your cake, K C Baking Powder will sustain the raise until a crust is formed and all danger of falling is past.

K C Baking Powder is pure and healthful. It is guaranteed under all pure food laws, and is guaranteed to please you. And it is sold at a reasonable price—no baking powder should sell for more.

YES, RESINOL CLEARED AWAY EVERY PIMPLE

At least once a day—usually twice—I bathed my face for several minutes with plenty of Resinol soap and hot water and applied a little Resinol ointment very gently. I let this stay on for ten minutes or so, and then washed it off with Resinol soap and more hot water, finishing with a dash of cold water to close the pores. I was astonished how quickly the healing Resinol medication soothed and cleansed the pores, removed pimples and blackheads, and left my complexion clear and velvety.
Physicians have used Resinol ointment and Resinol soap for 20 years in the treatment of itching, burning, skin eruptions. At all druggists.—Adv.
