Coincidence in Deaths.
 It was an odd coincidence, but a striking one, that the greatest genius of England and the most masterful man in Spain passed from earth on the same day. Shakespeare and Cervantes both died April 23, 1616, the former being only fifty-two years old, and the latter sixty-nine.

MEXICO GETS FINAL WORD FROM U. S.

President Wilson's Appeal May Presage Intervention.

AID ASKED FOR STARVING POPULATION

Recognition of Either Faction Its Not Now Contemplated—Plea for Humanity Most Urgent.

Washington, D. C.—President Wilson has decided to serve notice on all the warring factions in Mexico that conditions in that country have become intolerable and that unless they themselves compose the situation soon some other means may have to be employed to accomplish the result.

The first intimation of the President's determination to take this step came in his appeal issued as head of the American Red Cross, setting forth that "due to several years of internal disturbances, the unfortunate people of many parts of Mexico have been reduced to the verge of starvation, and urging contributions to relief funds."

Later the White House gave out the following: "When the President's appeal for aid for the Mexicans was issued it was also stated at the executive offices that a statement from the President on the present situation in Mexico might be expected within the next few days."

This statement has been prepared and will be issued after the cabinet meeting Tuesday and then communicated to the leaders of all the Mexican factions. Officials at the White House and State department declined to say what the President's statement contained, but denied that recognition of any faction was now contemplated. It was said authoritatively that while friends of Carranza here had been pressing for recognition, the Washington government had not been impressed with the ability of any of the contending chiefs to restore order.

Bryan's Plea for Five Mexicans Heeded by Arizona Pardon Board

Phoenix, Ariz.—After every legal recourse had failed, the mercy plea of William J. Bryan, secretary of state, which had been rejected by the state legislature, proved potent to save the lives of the five Mexicans who were to have been hanged at Florence penitentiary.

At the last moment the state board of pardons and paroles, taking cognizance of Mr. Bryan's request for delay, ordered reprieves of nine weeks for all of the condemned men and recommended that they be executed separately and not together, as was intended.

Whether they will be executed at all depends, however, on the success attending future moves in Governor Hunt's five-year struggle to abolish the death penalty in Arizona. The condemned men had been bound and made ready for the plunge through the gallows trap, when the board of pardons and paroles made known its decision to grant a delay. The decision was expressed in a resolution adopted after a session lasting all morning. This resolution declared that the secretary of state had seen fit to recommend reprieves, in view of the executions on American interests in Northern Mexico, the board had concluded to recommend delay.

Rome Fears Air Raids.
 Rome—It being believed that Austrian aeroplanes may appear over Rome, special measures of protection have been adopted. A close watch is to be kept along the Adriatic coast. Equal vigilance will be exercised on the crest of the Apennines, while nearer Rome observation posts are to be established "at points of vantage. Stations for Italian aeroplanes have been established at Centocelle, on the Appian Way, and at Lake Bracciano, about 25 miles from the capital. Aeroplanes are ready to start instantly.

Gulfight Act Admitted.
 Berlin—The torpedoing of the steamship Gulfight is now established as due to a German submarine, the report of the commander of the submarine in question having been received by the admiralty. The commander said that when he saw the Gulfight she was being convoyed, and concluded that she must be a British vessel, or was carrying contraband. The presence of patrol boats, the commander reported, made closer investigation dangerous.

Painless Dentistry.
 A new combination of drugs, manufactured by Lilly & Co., Chemists, is proving of much interest to dentists and persons interested in painless dentistry. It contains neither cocaine nor arsenic, but is a combination of neostein, trioxymethylene and thymol, which thoroughly sensitizes the tooth, but does not de-vitalize or injure the nerve. It means at last that dentists can fill or crown teeth without pain.

Another preparation of extreme value used in the extraction of teeth is novocain and suprarenin. It is a German product, and by far the most wonderful of all the local anesthetics. Many of the leading surgeons of the world are using it today in major surgery. As many as 200 teeth have been taken out with its use, the patient not feeling a twinge of pain.

These preparations are used by Dr. E. T. Hiedund, Dentist and Specialist in Bridge and Plate Work, 456-459 Morgan Bldg. (4th floor), Washington near Broadway, Portland, Oregon. Nurses in attendance. Prices reasonable. Work guaranteed.

Constipation causes and seriously aggravates many diseases. It is thoroughly cured by Dr. Pierce's Peppets. Tiny sugar-coated granules.

Benefited by Infirmary.
 Josiah Wedgwood, the famous potter and scientist, suffered from a disease of the right knee, which necessitated the amputation of the limb. Referring to this infirmity, Mr. Gladstone once declared, "It sent his mind inwards; it drove him to meditate upon the laws and secrets of his art. The result was that he arrived at a perception envied by an Athenian potter."

The First Perfumes.
 When you use perfume and call it such, do you think how the name came about? It means, in Latin, "from smoke," and the name proves that the first perfumes were only aromatic woods or gums that scented the air when burned.

MRS. LYON'S AGES AND PAINS
Have All Gone Since Taking Lydia E. Pinkham's Vegetable Compound.

Terre Hill, Pa.—"Kindly permit me to give you my testimonial in favor of Lydia E. Pinkham's Vegetable Compound. When I first began taking it I was suffering from female troubles for some time and had almost all kinds of aches—pains in lower part of back and in sides, and pressing down pains. I could not sleep and had no appetite. Since I have taken Lydia E. Pinkham's Vegetable Compound the aches and pains are all gone and I feel like a new woman. I cannot praise your medicine too highly."—Mrs. AUGUSTUS LYON, Terre Hill, Pa.

It is true that nature and a woman's work has produced the grandest remedy for woman's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, forty years ago, gave to womankind a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for woman's ills.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health—many of them openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound; and in some cases that it has saved them from surgical operations.

Cereal Crops Are Doing Well.
 The following summary of weather and its results on the condition of the principal crops in Oregon for the week ending May 25, 1915, is based upon investigations made by a number of correspondents reporting to the Portland office of the Weather Bureau:

Showers fell every day in the week in the Western counties, and on two or more days in the Eastern portions of the state. There was much cloudiness, and in consequence the day temperatures were unusually low, but the night temperatures were about normal and no damaging frosts were reported.

The weather was especially favorable for fall and spring-sown cereals, legume hay crop, pasture and ranges. Fall wheat is now in the boot and in some places it has begun to head. On low lands in the Willamette valley the rains have caused some fields of grain to turn yellow. Weeds are getting troublesome and there has not been enough dry weather to enable the farmers to do as much cultivation as necessary. The weather has also been too cool for corn to make much progress and it has been very injurious to strawberries, which have rotted on the vines and in transit. Other fruit is doing nicely, except in a few localities where fungus has made its appearance on the apples.

Wool Sale Falls Flat.
 Pendleton—No wool sales were consummated at Echo, buyers and growers being unable to agree. Seven clips, containing 290,000 pounds, were put up for bids, drawing offers of from 14 1/2 to 19 cents for fine and 26 1/2 cents for coarse grades, but growers held out for a 20-cent basis. One hundred thousand pounds in warehouses was not offered. Bidders were numerous but not talkative.

Growers talk of pooling and shipping the combined clip to Portland for sale. Several predict that the poor offers for fleeces will cause sheep prices to drop \$1 a head all over the state. Eight hundred yearlings were sold by J. C. Hoskins, of Echo, at \$4 a head.

Many buyers are in Pendleton for the sale here, with 250,000 pounds in warehouses. The Echo sale is viewed as indicating the probable trend of the market at Pendleton and Pilot Rock. Half a million pounds are at Pilot Rock.

Local Bids for Wheat Are Higher.
 Portland—There is a firmer feeling in the local wheat market, but no business was put through, because of the wide margin between the ideas of buyers and sellers. Bids for prompt delivery were advanced 1 to 1 1/2 cents on white wheat and 2 1/2 to 4 cents on red. Offers for futures were also higher. One hundred tons of June oats were sold at \$28.25, an advance of a quarter over this week's top bid. Offers for feed grains in other respects were lower. The European visible wheat supply is estimated \$2,952,000 bushels.

Big Timber Deals at Aberdeen.
 Aberdeen—Two timber deals, aggregating \$100,000, transpired here this week. Both were in favor of the Simpson Logging company. One sale was by W. H. Able and probably aggregated \$75,000, and the other was from the Port Blakely Mill Co., and amounted to probably \$25,000.

Proved by Experiment.
 One of the young enigmas who was acting as teacher on the battlefields of Texas asked the question: "What are the two principal parts of a sentence?" expecting to get the answer, "Subject and predicate." An old ad scratched his head in perplexity, and at last replied, "Solitary confinement and bread and water."—The Sallio's Magazine.

Burroughs' Birthday Message.
 "Keep cheerful and mind your own business." I may say that I have followed that rule myself not successfully, and in these trying days, when there is so much foolish talk and hasty, violent action, it might be worth the while of others just to give it a trial.—John Burroughs.

Boils, Biliousness, Malaria, Constipation

Dr. Pierce's Golden Medical Discovery

Perhaps this case may be similar to yours
J. Wesley Tilly of (Box 673,) Seima, Cal., writes:
 "Gentlemen—It gives me much pleasure to be able to send you a testimonial, if by its reaching you my sufferer your medicines will do much for him he has had for me. At the age of fourteen I was troubled with a great deal of biliousness and constipation with the worst sort of large boils. I was persuaded by my parents, who have always been strong believers in Dr. Pierce's remedies, to try the Golden Medical Discovery. I took one bottle and the boils all disappeared, but I did not stop at one bottle, I took three and the malaria all left me and I have had no more boils to this day, thanks to the Golden Medical Discovery for my relief."
 "Following an operation for appendicitis, I was again troubled very much with constipation and I have been trying Dr. Pierce's Pleasant Purgative Pellets and they have done for me. At the age of fourteen I was troubled with the whole trouble, thanks again for the 'Pellets' and for what I have obtained from The People's Common Sense Medical Adviser." Mysteries of Rheumatism Practically Solved

Action in the Tissues of a Remarkable Antidote

S. S. S. is a Regular Wizard in Driving Out Rheumatism.
 Rheumatism is often the effect of some blood impurity. It rushes into every cell, causes other blood affliction that has left its impress in the joints, muscles and tendons, covering the body. It works into the tissue cells, those tiny, little bodies in which nutrition goes on. And it is here that a most remarkable medicine known as S. S. S. does its most active and most effective work.
 Its action is marvelous. Bed-ridden rheumatics get on their feet as if by magic. That odd, clammy sensation that made you hug a red hot stove is gone; that twinking, that excruciating pain that made a feather lay as heavy as a lead on the sick is gone. You get up and dance with glee.
 Your rheumatism is gone—absolutely! It is an actual logical fact, that Swift's Sure Specific flushes your blood, gives your entire blood circulation a fine thorough bath. It just naturally and thoroughly irrigates every atom in your body. It rushes into every cell, causes every bone, muscle, ligament, tendon, mucous surface and every nerve to thrill with freedom, with health, with new-born vigor, with health, with new-born energy.
 Ask for and insist upon getting S. S. S. to the Swift Specific Co., 203 Swift Building, Atlanta, Ga. Their medical department is famous on all blood diseases, and is equipped to make personal blood tests, approved by the highest medical authorities. Get a bottle of S. S. S. today. That way goes rheumatism for all time.
