## NEWS ITEMS Of General Interest About Oregon

### Farmers' Week Is Plan at

McMinnville June 21 to 24

McMinnville.—A West Side Farmers' week and picnic is to be held in McMinnville June 21 to 24, under the auspices of the McMinnville Grange. Other granges and farmers' unions as well as all other farmers' organizations are invited to participate.

Speakers of national standing as well as leading educators of the north-west will be invited. The agricultural college will be asked to hold a farmers' institute in connection with the week's program. The committee has been assured of the assistance of County Agriculturist M. S. Shrock, whose work is along similar lines.

Following are some of the speakers who will be invited: Secretary of Agriculture David F. Houston, Governor Withycombe, President W. J. Kerr and R. D. Hetzel, of the agricultural college; President P. L. Campbell, of the University of Oregon; J. Frederick Thorne, of the same institution; Dr. C. H. Chapman, of Portland; J. A. Churchill, superintendent of public instruction; L. R. Alderman, superintendent of Portland schools; "Farmer" Smith, of the O.-W. R. & N. Co.; Dr. Hector McPherson, of the bureau of markets and rural organizations of the Oregon agricultural college.

It is the intention of the committee to ask the candidates for president of the republican, democratic and prohibition parties to participate in the program.

### Opposes Inviting Laborers to Oregon

University, of Oregon, Eugene.—Letters that invite laboring men to come and settle in Oregon should not be sent by Oregonians to Eastern friends or Eastern newspapers. This admonition was given by O. P. Hoff, state labor commissioner, to students in the University school of commerce. "Oregon offers less opportunity for the laboring man than any state in the Union. A city the size of Portland has five times as hard work taking care of a surplus of 10,000 men as a city of the same size in Massachusetts has, because Portland does not have the great manufacturing establishments of the East," said Mr. Hoff.

The state labor commissioner thinks that as a partial remedy for winter unemployment the state should arrange to get needy men onto small tracts of stump land. "No man can make a profitable investment by buying such land and putting all his time on it," said Mr. Hoff, "but by using his idle time any man could build up a good home in a few years."

Mr. Hoff said compulsory safeguards would put an end to 50 per cent of all accidents in industrial plants in Oregon.

### Electric Line Proposed.

Pendleton.—An electric road from Pendleton to Walla Walla and from Cold Springs Landing through Pendleton to Bingham Springs is an undertaking projected by an association of capitalists represented by C. W. Lefler, formerly a farmer in the Cold Springs country. It is understood E. W. McComas, of Pendleton, is connected with the undertaking.

Mr. Lefler said there was plenty of money back of the venture. The plan is to lay the rails on concrete ties to reduce the cost of maintenance.

The route has been selected with an idea of tapping much of the freight-producing area of the country, as well as the area of passenger traffic. The line from here to Cold Springs Landing would be a feeder to the open river.

### Mining Property Bought.

Baker.—One of the most important mining deals in the Sumpter district in many years has been consummated in the purchase of the Bald Mountain property by the Ibox Mining company. The Ibox mine has been idle several years because it was deemed unwise to run it until the Bald Mountain mine could be secured, and the acquisition of the latter will insure the operation of both properties within a short time.

A tunnel between the two has already been started, and with the use of a gravity system both mines can be operated in an economical manner. Reports say that the mine's equipment will be greatly augmented, and that both will be operated extensively this season. The price paid for the Bald Mountain mine has been kept secret.

### Sack Offer Guaranteed.

Pendleton.—The first guaranteed sack delivery offer of the season was made this week to the Inland Empire grain-growers at their meeting in Pendleton by the Balfour-Guthrie company at 14 cents. Heretofore war clauses have been attached. Although no action was taken, it is probable the cotton sack investigated by H. W. Collins will receive a tryout in Umatilla county. The sentiment seems to be that a carload of 60,000 cotton sacks be purchased at 11 and 12 cents each. Wesley Harrah, John Mumm, Henry Hudeman and other farmers are building portable elevators to take care of the 1916 crop. The grain can be taken by the elevator from the field to the cars for loading.

### \$50,000 Hotel Deal Made.

Dallas.—One of the most important deals in this city for the past several years was consummated on Saturday when, for a consideration approaching \$50,000, Lew A. Cates, publisher of the Polk County Observer, and K. N. Wood, until recently one of the owners of the Dallas steam laundry, took over the Hotel Gall property, one of the leading hostleries of the Williamette valley, purchasing the furniture and fixtures and taking a lease upon the building for a term of 10 years. The new owners take charge at once.

Huge Sums Spent for Chewing Gum.

Washington, D. C.—The chewing-gum habit has cost the American people for chicle alone nearly \$35,000,000 in the last ten years, or almost five times as much as we paid Russia for Alaska, according to figures furnished by the Bureau of Foreign and Domestic Commerce, of the Department of Commerce. Normally our annual imports of chicle amount to 7,000,000 pounds, for which we pay about \$2,500,000 in the countries of origin, and to which must be added customs duties in our own ports of about \$750,000.

Imports of chicle gum during the fiscal year 1915 were as follows: From Mexico, 2,197,000 pounds; from Canada, 2,181,000 pounds; from British Honduras, 1,139,000 pounds; from Venezuela, 952,000 pounds; from the Central American republics, 26,000 pounds; from all other countries, 5,000 pounds. Chicle is not produced in Canada, but large quantities from other British possessions are handled through the Dominion. In 1913 the total imports of the gum amounted to 13,759,000 pounds, and that is the record importation for any one year. In 1915 the total was 6,500,000 pounds.

Chicle is the dried milky juice of the sapodilla tree, which is one of a large family of tropical trees known as bully-trees. Some of the gum is used as a substitute for gutta percha, but the bulk of it is used in the manufacture of chewing gum.

## How to stop dandruff and loss of hair with Resinol

Here is a simple, inexpensive treatment that will generally stop dandruff and scalp itching, and keep the hair thick, live and lustrous:

At night, spread the hair apart and rub a little Resinol Ointment into the scalp gently, with the tip of the finger. Repeat this until the whole scalp has been treated. Next morning, shampoo thoroughly with Resinol Soap and hot water. Work the creamy Resinol lather well into the scalp. Rinse with gradually cooling water, the last water being cold. All druggists sell Resinol Soap and Ointment.

## Save Money on Your Stump Blasting—

The explosives that get stumps out cleanest and cheapest are those that have a heaving and lifting effect, shattering the stumps just enough to break them up. Then you can handle them easily.

"The farmer," says an Experiment Station, "should use an explosive that stands all ordinary shocks of handling and does not easily freeze. He does not need the expensive nitro-glycerine explosives." Thousands use

## Made Him Nervous.

A crowd of dirty-faced urchins were playing dangerously near the edge of a Providence pier. Suddenly an old salt, who had been a fidgety onlooker from the cabin of his boat, emerged from his favorite post and proceeded to soundly thrash one of the lads in question.

Some passer-by, surprised by his actions, stopped to question the old tar thereon.

"Wal, I'll tell yar," said the old fellow as he regretfully ceased his hold on the lad's collar. "Taint as I care a hang whether they fall in or whether they don't, but it's the danged uncertainty about it that I can't stand."—Judge.

## Politics.

"I always like to meet a fellow who came from a farm," remarked Congressman Flubdub.

"Yes?"

"Yes. You can advise him to go back to it if he isn't a success, and congratulate him on leaving it if he is."—Louisville Courier-Journal.
