RULES GOVERNING EXHIBITS.

1. Any child may make as many different exhibits as he or she desires, but only one entry for each prize.

2. In gardening, a child may have the ground plowed by some one else, but all the planting, care, harvesting and preparation of the produce for entry at the fair must be done by the child in whose name the entry is made. Lambs and pigs must be taken from their mothers not later than two weeks after birth, and there after the child who enters the lamb or pig must take all the care of it. If a child desires to exhibit chickens, he or she must set the hen, and after hatching take all the care of the hen and chicks. All entries must be accompanied by a certificate signed by the child's parents or guardian to the effect that the article exhibited is in every sense the child's own production, according to the intentions of the fair, which is to encourage the boys and girls to raise and make the articles by their own efforts, subject to these rules.
