Getting it All. The doctor told him he needed carbohydrates, proteins and, above all, something nitrogenous. The doctor mentioned a long list of foods for him to eat. He staggered out and waddled into a Penn avenue restaurant.

"How about beefsteak?" he asked the waiter. "Is that nitrogenous?" The waiter didn't know.

"Are fried potatoes rich in carbohydrates or not?" The waiter couldn't say.

"Well, I'll fix it," declared the poor man in despair. "Bring me a large plate of hash."—Pittsburg Post.

British Capture Fricourt from Germans After Desperate Battle.

FRENCH ADD MORE PRISONERS

Teutons Retreat Before French Drive Near Hardecourt—Lose Many Trenches Also to British.

London—Fricourt, three miles east of Albert, the scene of desperate fighting between the British and Germans since the entente allied offensive was begun Saturday morning, has been captured by the British, according to an official statement issued Sunday night.

"Substantial progress has been made in the vicinity of Fricourt, which was captured by us at 2 p. m. "Up to noon some 800 more prisoners had been taken in the operations between the Ancre and the Somme, bringing the total up to 3500, including those captured on other parts of the front Saturday night."

The official statement by the French war office at Paris says that south of the Somme the French have forced their way into the second line of the German entrenchments at several places and have captured the village of Fries and the Mercatcourt wood. The number of unrounded prisoners taken in the two days' battle now is said to be more than 6000.

Sunday night's statement by the French war office said that in the fighting south of Arras Saturday the French took a total of 5000 prisoners. In the course of the night French troops captured the village of Curieu, about seven miles southwest of Albert. A heavy German counter-attack on the village of Hardecourt, north of Curieu, was repulsed, the statement adds. After repeated assaults the Germans were obliged to retreat in disorder.

London July 2.—The British troops in their great drive in France have captured a German labyrinth of trenches on a front of seven miles to a depth of 1000 yards and the villages of Montauman and Mammetz.

North of the Ancre valley, according to the official statement, the British have not been able to hold sections of the ground gained in their first attacks. Two thousand German prisoners have been taken.

Hughes Plans Trip to Pacific Coast Cities First of August

Bridgeton, N. Y. — Unless he changes his plans, Charles E. Hughes, in all probability will inaugurate his campaign for the Presidency in the second week in August, starting on a tour which will take him to the Pacific Coast. The present purely tentative arrangements provide for addresses in about 10 leading cities, probably St. Paul, Portland, Or.; Seattle, Wash.; San Francisco, Los Angeles, Salt Lake City, Kansas City, St. Louis and Chicago among others.

Mr. Hughes intends this swing around the circle as merely preliminary to one or two whirlwind tours. He hopes to avoid rear-platform speaking on the first long trip.

Mother and Baby Washed Away By 15-Foot Wall of Water

Pendleton, Ore.—Mrs. M. C. McCabe, a rancher's wife, and her infant boy were drowned Saturday night about 5 o'clock when a cloudburst broke over upper Butter Creek canyon, 43 miles southwest of Pendleton, and a wall of water swept down upon their home. Mrs. McCabe's body was found five miles further down McDonald canyon Sunday morning by a searching party. The baby's body was found later. Mr. McCabe, her three children and some men were in the McCabe house and knew nothing of the flood until it struck the house, tearing it asunder and carrying away Mrs. McCabe and the child. The other children were rescued by the men.

I. W. W. Leaders Threaten

St. Paul — Declaring their personal liberties as citizens have been violated by the order of Governor Burnquist for the sheriff of St. Louis county to disarm all striking miners, nine I. W. W. leaders at Virginia, in a telegram received Sunday night, ask if they are in Russia. The message is a demand that the chief executive of the state remove all mine guards from within the city limits of mining towns on the range. "Otherwise," the statement reads, "our miners will be instructed to defend themselves."

Italians in New Attack

Rome, via London—Continuing their offensive in the Trentino, the Italians have begun an attack on the Austrian fortified positions between Kugna Totta and Foppiano, says the Italian official statement issued Sunday. The Austrians were driven from sections of trenches north of Pedescala, the dispatch adds, and some more trenches were carried between Selz and Monfalcone. In the latter battle 195 Austrians were taken prisoners.

The War Children of Paris.

How beautiful they are, the war children! How well cared for, how thriving, and how showered with love! Their prolonged stasias in the Bois or in the gardens have freshened the bloom of their cheeks. Their immaculate pink-and-whiteness seems to testify to the girl mother's loving care of the now sovereign baby who for two years has had no rival. The mother's entire time is devoted to His Majesty, the baby, nor is he ever forgotten except occasionally when her thoughts wander to the absent one, she traces in the baby's dimpled face the sometimes fugitive, sometimes striking resemblance to his soldier-father. Sacred moments these when in the twilight the curly head and downy cheek resolve themselves into the pale or sunburnt features of one "somewhere in France."—Cartoons Magazine.

Gypsies Use Automobiles.

"Even gypsies are abandoning horses for motors," says the July Popular Mechanics Magazine. "A band of about 40 of these nomads recently visited Columbus, Ohio, traveling in three covered automobiles which had been purchased a short time before. Each motor was fitted up in true gypsy fashion, and portions of the tops were painted in the bright colors characteristic of the familiar gypsy wagons. In all, three families inhabited the three cars. The sage of the group was a woman 75 years old; the youngest of the children was three months old."

Higher Prices for Beans Are Named in California Advices
Portland—There was some talk of an 11-cent bean market Wednesday, but jobbers were adverse to putting out such an extreme quotation, notwithstanding the further advance in the South. In fact, Portland jobbing prices are below a parity with California. It is believed there are enough beans here to meet the restricted requirements during the remainder of the old-crop year, but if the supply is exhausted, it cannot be replenished at existing prices. While the main factor in the strength of the market is the government demand, there is little doubt that speculation has played an important part in bulging prices in the South. The available supply of white beans in California is limited, and appears to have passed into strong speculative hands.

Advices received from San Francisco said small whites were practically cleaned up at shipping points at 9 1/2 cents and very few Lady Washingtons were left at 9 cents. There was a good demand for Limas, which were advancing in sympathy with the high prices of white beans.

Baker Wool Not Sold.

Baker, Or.—Out of 148,000 pounds of wool, practically all fine, offered this week in Baker at the annual wool sale, only 23,000 pounds were sold, although other deals which may be closed later were pending. High bids on fine wool ranged from 23 cents to 25 cents, while for 4000 pounds of coarse wool from the Sels-Ashford ranch, in Grant county, a high bid of 28 cents was received. Isador Koshand, of Portland, was the bidder.

With the exception of 10,000 pounds sold by Walter Steiger, of Baker, at 25 cents, to John Glorieux, of Woonsocket, R. I., all the clips offered were from Grant county. The only other clip sold was that of J. C. Moore, who sold to Mr. Glorieux at 24 cents.

Mrs. Kenneth McRae, of Prairie City, had the largest clip for sale, 615,000 pounds. It is understood that a private bid made tops the price being offered openly. Mascall & Ringmeyer, of Dayville, were offered 23 cents for their 40,000-pound clip by Mr. Koshand, while C. H. Green, of Portland, offered to take over the 16,000 pounds of fine wool from the Sels-Ashford ranch at 23 1/2 cents.

Growers To Be Helped.
Hood River — The Apple Growers' association has just sent out letters asking all affiliated growers to designate the different kinds of commercial fruits grown by each. Where the association does not handle the product of a grower, it will guide the grower to the trade that will handle it. Royal Ann, Governor Wood and Centennial cherries are maturing this week. The fruit has been sold to the cannery at The Dalles for a net price of 5 1/2 cents per pound. The prospects for black cherries are better than ever before.

always save them money, time and work. They save money because they lift and heave as well as shatter, and go further than high explosives that merely split the stumps. They save time and work because they get out the stumps—big or little, green or dead—in a condition easy to handle. "I get better results from Giant Powders than from any other powder I have used," says A. E. Adkins, Woodburn, Ore.

There are two Giant Farm Powders, both made especially for Pacific Coast farmers. Eureka Stumping Powder is most economical for dry work and Giant Stumping Powder saves money in stump blasting in wet soil. Try these two. Compare them with the powder you have been using, and you will always use Giant in future. Write us and we will have our nearest distributor supply a trial case at the lowest market price.

Her Proof.
The reading class was in session and the word "furlough" occurred. Miss Jones, the teacher, asked if any little girl or boy knew the meaning of the word.

"One small hand was raised. "Furlough means a mule," said the child.

"Oh, no, it doesn't," said the teacher. "Yes, ma'am," insisted the little girl. "I have the book at home that says so."

Miss Jones told the child to bring the book to school. The next morning the child came armed with a book and triumphantly showed a picture of an American soldier riding a mule, under which was the caption: "Going home on his furlough."—Philadelphia Ledger.

Farm Machinery Driven By Motor Car
To enable a motor car to be used for driving various kinds of machinery, a convenient, although wasteful, power-transmission jack has been devised by a Minnesota man. Two parallel shafts carrying dish-shaped rollers at either end are mounted on a heavy timber frame which supports them several inches above the ground. This forms a cradle for the rear wheels of a machine, permitting it to run smoothly and without any strain on its working parts. A pulley held at an end of one of the shafts receives a belt that is extended to whatever machine is to be operated, as, for instance, a circular saw. A car in run onto the rollers by backing it over planks forming a track laid parallel with them.—From the July Popular Mechanics Magazine.
