Prof. Potter to study live stock in County

Stock shipped to market

Road Supervisor has narrow escape

W. L. Miller of Lonerock has purchased a car load of calves from the Willamette Valley and is going to run them on his place. There is some question as to the ability of Western Oregon stock to stand our range conditions so we will all be interested in how this experiment comes out.

In spite of the rain and mud the Pomona Grange held its quarterly meeting in Winlock with about sixty present. Speeches were made by Mr. Weinke of Condon, Mr. Jackson of Moro, and Mr. Wise of the Farmer's elevator of Condon. A fine dinner was served at noon. Delegates were present from Lone Rock, Fossil, Mayville and Buckhorn.

A proposed mail route to extend from Trail Fork to the Lost Valley saw mill is being worked for by the people who would be benefitted by such service. Petitions are being prepared and will soon be circulated.

Ben Ensley of Lost Valley is about to trade his place for a farm in the Valley. We will all be sorry to see him leave and wish him success in his new home.

Considerable stock is being shipped to Portland by county men. Prices have dropped some in the past week but it costs considerable to hold stock and it sometimes pays to turn it even if the market is a little weak. Frank Wilkison and E. G. Shoun have shipped stock during the past week.

Professor Potter, of O. A. C. who was stock judge at the county fair several years ago, is intending to visit this section, to make a study of range conditions. It is hoped that he may have time to meet our leading stockmen and possibly make a talk or two thru the county.

John Tilley while out auto riding Saturday, fell into a mud hole near the Prairie Ranch, and was rescued by a Ford, John says the mud hole wasn't on his part of the road.

C. L. Jamison, County Agent.

COUNTY FAIR.

The County fair is to each individual county what the State Fair is to the State as a whole. Loyal support should be given every county fair, by every interest in, and tributary thereto. Any one, connected with a local fair must sacrifice much time and labor working for only one purpose; to benefit the community, to advertise its resources and to bring together friends and neighbors once a year for recreation and information. To en-

courage that which will teach the young people of today as they, in a short time, will fill our places, and the more we can aid them, the stronger and better will the future be. We are desirous of improving our fair in many ways, and if you can offer some suggestion that will be of benefit we will highly appreciate the courtesy on your part. Just drop us a card.

Yours truly,

John Stewart Sec'y.

Immediately after the Australian Commonwealth ordered an absolutely tight embargo on wool, domestic dealers marked up their prices from two to five cents a seoured pound. As boosters of wool prices commend us to a European war and an Australian embargo. But do not try to make us believe that the free wool proviso in the Underwood tariff law made wool go up in this country. We are not so gullible.

Deering Mower Assets

A THOROUGHLY dependable mower is a big asset at haying time. A good mower should be able to cut grass in any condition satisfactorily, and in this respect the Deering New Ideal is a pronounced leader. The flexible movement of the cutter bar which permits close cutting over rough ground, the one-piece main frame with all holes drilled in one operation to secure perfect alignment of parts, the covered gears and the special quality steel ball and roller bearings, etc. Still another point—the ledger plate on the Deering mowers extends the full length of the cutting surface of the guard, giving the advantage of a complete shear cut, whether the knife section is old or new. This does away with all clogging of the grass between the knife section and the rear end of the ledger plate.

Drop in and see us and we will show you the mower in detail.
