Sure cure—Preston's "Hed-Ake."
S. M. Daniels was over to Albany Thursday.

Immediate, harmless—Preston's "Hed-Ake."
Get your physiognomy imitated at the new studio.
Mr. Ross Hibler went to Albany the first of the week.

Thompson & Overman, the leading harness makers, Albany.
None but first class work permitted to leave Harnish's studio.
George Anderson the irrepressible fish merchant of Albany was in town Thursday.

It looks like business was rushing to take a look at the streets of Scio this week.
Messrs Sam Shore and Riley Shelton went to Albany Wednesday on business.

Mrs. P. O. Smith has removed her millinery store to one door north of the PRESS office.
Paymaster C. C. Hogue of the Oregon Pacific returned from the front last Saturday.

The new city hall is about enclosed and adds much to the beauty of the west portion of town.
The largest stock of harness and saddles in the valley at Thompson & Overman's, Albany.

Mr. W. E. Arnold has purchased property on the south side and will move in town shortly.
Bob Dorris a former resident of this city but now of Seattle Wash. was in town yesterday.

H. Bryant, the bustling president of the Bank of Oregon, of Albany, was in our city Thursday.
Preston's "Hed-Ake" is a specific for headache.

Miss Ella Carey left the first of the week for Salem. She intends working on the Capital Journal.
Harnish makes negatives free of charge for all persons over sixty years of age. Call at any time.

Don't miss the chance to get thirteen cabinet photographs for a dozen at the new photograph gallery.
A large invoice of those justly celebrated Monitor stoves and ranges just received at Smith & Senders.

Cures in fifteen minutes! Preston's "Hed-Ake."
Remember Harnish makes thirteen cabinet photographs for the value of a dozen till Oct. 15.

Mr. Green Coffey and wife, also Mr. Fred Barker and family took the excursion to the bay last week.
Uncle Pres Munkers is still very poorly in health. He has been confined to his room for several weeks.

Harnish's photograph gallery is now open ready for business.
Top pickers in every direction now-a-days. We hear there is a scarcity of pickers at some of the yards.

Don Bogard left town Thursday to join the gang of bridge builders on the Oregonian Railroad. They are now near Silverton.
J. Q. Lynch, of Stayton, has moved over to this city, and will start a barber shop in the room recently vacated by Frank Mack.

Editor McGill of the Stayton Sun, was over to Albany Wednesday. We had the pleasure of swapping lies with him, over in that city. He reports Stayton to be improving.

Men who are informed on the subject say horses are being stolen and driven out of Crook county. Horse men throughout the county should be on the lookout and try to intercept the thieves.

Last Monday, at his livery stable in Albany, a horse kicked Mr. Frank Trites, hitting him in the thigh bruising his leg, but fortunately not breaking it. He was walking around the next day with a crutch.

The safe and vault doors for the bank of Scio, arrived last Wednesday. They will be placed in position and the bank will be ready for business in a few days. It took Scott quite a little bit to get onto their combination, but he got there.

Ten teams are now at work hauling 20,000 bushels of wheat from Tangent to Albany, the rates over the Southern Pacific between the two points being such as to justify this mode of shipping. The wheat is for San Francisco firms and will be shipped over the Oregon Pacific via Yaguna.

We notice some fine corn the first of the week, raised by A. J. Houston of this city. One stalk bearing four large plump ears of corn, and another bearing five with the silk on, four of them being unusually large ears. Mr. Houston says he has taken seventeen ears of corn from one hill.

These cold mornings convince us that firewood is a very useful article. We would feel kindly towards those subscribers who intend paying their subscriptions in wood if they would only bring us a load. Our devil is kicking and will be raising the d—l with us if we don't supply him with a more lasting corn bustible material than old papers.

Mr. Martin had quite a painful accident the first of the week. He was untieing a wild horse from a tree, when it became frightened and started around the tree catching one of his hands between the rope and the tree, while trying to extricate the one hand the other was caught in the same manner, mashing and bruising them very badly. It will be some days before he will be able to work again.

A water tank that has been used to haul water for a threshing machine near Brownsville this fall was being repaired on the 5th inst. and upon the sand being washed out a fine prospect of gold was found, having been dipped up from the California, just below the bridge in that city thus showing the bed of the river to be full of float gold, coming down some forty miles from the ledges above.

Another instance of where a very little boy and a wee small piece of phosphorus can cause a lot of destruction is reported from Stayton, says the Salem Statesman. Saturday evening Mr. Jones, who resides on the eastern border of Stayton, was unloading a lot of straw at his barn, and during the time his little boy found a match, which he lighted and in so doing burned his fingers. Of course he dropped the little torch in a hurry, and just about as quick as he dropped it the straw caught fire, and quite soon the barn and contents were a pile of cinders resting on the spot of ground. The loss was \$300.

Ethel Curtis, a 19 year old typewriter and stenographer, was smoking a cigarette in bed at her home on Lexington avenue one evening this week. She fell asleep, the cigarette dropped from her hand and ignited the bed clothes and the girl was terribly burned about the body. She after ward died of her burns at Bellevue hospital.

An Artesian Well.
Warm Spring Johnny, who lives on the peninsula formed by the confluence of the Calipooia and Williamette, and works a garden, has heretofore depended upon a spring for water. But this year the spring went dry, and he informs a Herald reporter that he dug down a well. At the depth of 48 feet he struck a flowing vein of pure cold water, it at first spouted several feet into the air and still continues to run with force and has finely irrigated his garden. That being the case the matter should be looked into, and perhaps a sufficiently strong well can be struck to supply the city with good pure water.—Herald.

Arriving.
Johnson Hilder & Co. have received and are now receiving the largest and best selected stock of clothing for men, youths, boys, and children that can be found in this part of the valley; and at prices that defy competition. Their line of goods furnished goods also is large, and selecting with a view to please their customers. You are cordially invited to inspect their new lot of fine dress overcoats, from which the most fastidious can be suited.

Change of Time.
We hear that the Oregonian Railroad time table is changed so that we will not get our evening mail till 7 p. m. This arrangement will hardly be as convenient to the people as the former time of 4 p. m.

A HORRIBLE ACCIDENT.
Mrs. Elliott, formerly of Prineville, Probably Fatally Burned.

Word was brought to this city Thursday evening that a frightful accident had occurred at Glass's hop yard one and one half miles west of town. Dr. Cole was called and we are indebted to him for the following information. The Elliotts were formerly of Prineville and had just moved down in the Valley. Doing as nearly every body else is doing now, they concluded they would pick hops during the season. Mrs. Elliott joining the hop pickers at Glass's, while Mr. Elliott was over at Lebanon at work. Thursday afternoon Mrs. Elliott's baby being sick, she did not go to the yard, but stayed in camp, and was busy over herself about camp work. In passing around the camp fire her clothing was ignited. She had smelted the burning cloth for some little time before she discovered that it was her own clothing that was on fire. She then started to the tent to get a blanket to smother out the flames. At the tent door she met her 18 months old baby, and even at this exciting moment the safety of her child predominating over personal pain, she took it and placed it out of harms way a few feet distant and then returned to the tent for the blanket and rolled herself therein in the attempt to smother out the flames that were by this time blistering and crisping her flesh. She rolled the blanket around as well as she could, but the agony she was undergoing was so great, that she threw the blanket away and started for the hop yard near by, all the time screaming for help. The first person she met was a man, and of course she went to him for help. He not having any other means of putting out the fire commenced throwing dust on the burning woman. Other help arriving the unfortunate woman's burning clothing was torn from her, what little there was left by this time, and was conveyed to her tent by kind hands and word sent for the doctor and the husband who was, as before stated at Lebanon. Upon examination Mrs. Elliott proved to be literally roasted, with the exception of her arms and face. Her shoes even were burned to a crisp upon her feet.

Dr. Cole thinks she can survive but a few hours. Her parents who live in or near Eugene have been telegraphed for, but had not at the time of going to press arrived. Mrs. Elliott, whose age is 23, will leave a husband, and a little child but about 18 months old. The sympathy of the entire community is with the husband in his dire calamity.

Cures while you wait—Preston's "Hed-Ake."
Our Premium.
It is with pleasure that we announce to our many patrons that we have made arrangements with that wide-awake, illustrated farm magazine, the AMERICAN FARMER, published at Fort Wayne, Ind., and read by nearly 500,000 farmers by which that great publication will be mailed direct, FREE, to the address of any of our subscribers who will come in and pay up all arrearsages on subscription and one year in advance from date, and to any new subscriber who will pay one year in advance. This is a grand opportunity to obtain a first-class farm journal free. The AMERICAN FARMER is a large 16-page journal, of national circulation, which ranks among the leading agricultural papers. It treats the question of economy in agriculture and the rights and privileges of that vast body of citizens—AMERICAN FARMERS—whose industry is the basis of all material and national prosperity. Its highest purpose is the elevation and ennobling of Agriculture through the higher and broader education of men and women engaged in its pursuits. The regular subscription price of the AMERICAN FARMER is \$1.00 per year. IT COSTS YOU NOTHING. From any one number ideas can be obtained that will be worth thrice the subscription price to you or members of your household, yet you get it free. Call and see sample copy.

Being Removed.
Mr. Dayton and son of the Paint Mill, that has just been located in Scio is busily engaged in moving the mill, engine etc. from the mine near Providence church to this city. The necessary buildings are to be erected at once. Mr. Dayton has already arranged for the delivery of 100 tons of the ore in Scio. It is expected that a large quantity of the paint will be manufactured this fall.

Born.
ANDERSON—To the wife of Milton Anderson 5 mile east of this city, Sep. 6, 1890, a boy, mother and child doing well.

Died.
ANDERSON—At the home of his parents five mile east of this city Sep. 7, 1890, of blood poisoning, Clifford, son of Milton and M. M. Anderson, aged 4 years, 11 months and 7 days.

We Got A Railroad.
Tuesday the engineers of the Oregonian Railroad were engaged in locating a branch of that line into Scio. The road is to leave the line running to the Scio ware-house about a half mile from town, and skirts along the north edge of the city to near Pentland avenue, where it makes a curve and coming down the avenue runs in front of the site of the proposed paint mills and to the Scio Roller Mills. We understand that the citizens are to furnish the right of way, grade and tie the road, the company laying the iron, ballasting etc, and taking in the shovels when the road is complete. The building of this branch line into town will be of great convenience to the business men, and to the public in general. That in connection with the establishment of the Paint works and other improvements has caused property to increase in value twenty-five per cent in the past few days. The right of way for the line was donated to the citizens by those through whose premises the line runs. It is understood that Mr. Preston Munkers, would not have given any thing to the railroad, at all, but to befriend his neighbors he generously donates the right of way to the citizens.

Immediate relief by using Preston's "Hed-Ake."
New Art Studio.
Yesterday we had the pleasure of looking through Mr. C. H. Harnish's New Art Studio. After making some inquiry we came away fully satisfied that we have an art gallery here in Scio second to none of any place. While Mr. Harnish has not received all the ideas that he intends to get, still he has a sufficiency to do first class work. There is now no necessity for you to go to Albany, Salem or Portland for your pictures, for you can get just as good work done here, and just as cheaply too. He makes a new style of picture, that is rather interesting to old bachelors. Ask Cashier May of the Bank of Scio about it. He is posted, and will no doubt take pleasure in explaining.

Painful Injury.
Charles Myers a German living a few miles out of town was engaged a few days ago in splitting timber. He was using for that purpose, a steel maul and wedge, and a scale flying from one of which struck his left leg just above the knee and penetrated to the bone. The injury was quite painful, yesterday Mr. Myers came to Scio and Dr. Hyde assisted by Dr. Martin removed the steel splinter, and quite a quantity of coagulated blood. It was necessary to make quite a cut into the leg in order to thoroughly cleanse it. Mr. Myers however was able to walk away from the operating table when the doctors properly dressed the leg.

If fails, money refunded; Preston's "Hed-Ake."
Grain Market.
Our Albany correspondent sends us the following:
ALBANY, Ore., Sept. 11, 1890.
ED. PRESS.

The market here has dropped to 64 cents for wheat. Oats are 42¢ at the warehouse. Portland is easy at 1.25 to 1.27 for Valley wheat. Freight has declined to about 45 shillings per ton. The markets were all better at noon today. New York and Chicago excited and 3¢ higher.

Market Report.
SCIO QUOTATIONS.
Wheat.....54¢ per bu.
Oats.....42¢ .. lb.
Flour.....14 .. ton.

Middings.....18
Sage.....130 .. doz.
Hides.....120
Beans.....90
Shankers.....80
Peas.....80
Chickens, old.....4.00 .. doz.
.....young.....5.00

Eloped With A Cab Driver.
Albany has a real romance—another young girl the victim of misplaced confidence. Monday evening's train carried away Miss Mary Schlosser, a beautiful young lady, in company with Julius Schmidt, for some time a cab driver for Schmeier's livery stable; to California. The elopement had been planned for some time and worked quietly. Miss Schlosser told her parents that she was going into the country for a few days. She went to the house of a friend, staid all afternoon secluded and went to the depot at train time. She got on the rear sleeper just as the train started. Schmidt told about a telegram from Jackson county, stating that his sister was sick, settled with Mr. Schmeier, drove a cab to the depot with a new man and got on the front car as the train pulled out. Schmidt's people are highly respected in Jacksonville, where he married Miss Ross. His wife was with him there for a few months a year ago, and it is thought they are parted, but not divorced. He has been with Miss Schlosser a great deal, despite the positive objections of her parents. Miss Schlosser's family are among Albany's best citizens, and are much respected. She is a beautiful young lady, accomplished, and popular among a wide acquaintance.

It cures headache only—Preston's "Hed-Ake."
Attached.
Sheriff E. M. Croisan went up to Gatesville above Mill City on the Oregon Pacific on Wednesday of last week and put an attachment upon the store and other property of Don A. Smith. This attachment is for \$3,000, to collect a note for the amount held by Ladd & Dash, of Salem. Mr. Smith made a statement of his assets and liabilities and gave it to the sheriff. He claims to have \$16,150.04 worth of property, and his liabilities according to his statement, are \$7,834.53 giving assets over liabilities \$8,315.51. Mr. Smith will not make an assignment, as he says he has enough property to pay all of his debts. And he will without doubt do this if he can, for he is a square man, and has a host of friends.

The Hay House.
The new discovery for Scio hop men has made its appearance, and from all accounts is getting down to business in great shape. We have heard estimates of the damage done from but one yard, but that it is thought it has made its appearance in all or nearly all of the yards. One grower estimates his loss as being heavy. So large that the profit for growing the crops in this year of big prices is nearly swallowed up. The posts hitherto unknown to this community, no one seeming to know of any remedy if there be one. If other yards loose in the same ratio as this one, the loss will indeed be a heavy one.

Leg Fractured.
Tuesday morning Mrs. Peter Brenner, an aged lady living three miles north of town, went to the barn to gather in the eggs. In order to do so she went up into the haymow, and slipping fell and fractured the thigh bone of her leg in two places. Drs. Hyde and Martin were called and reduced the fracture. The injury is quite a severe one even for a young lady to sustain. In the case of Mrs. Brenner it becomes quite serious on account of her advanced age.

Notice.
All who are indebted to the firm of Smith and Stanley are requested to call and settle by the first of next month as Miss Stanley has sold her interest in the store and they wish to settle up all accounts.

CLEARANCE SALE COMMENCING SEPTEMBER 1, 1890, And Continuing for a Period of 30 Days.

The undersigned will sell his entire stock of General Merchandise; consisting of Dry Goods, Groceries, Boots and Shoes, Mens Furnishing Goods etc, at Greatly Reduced Prices for cash or produce.
If you are looking for bargains this is your chance; FOR IT IS MONEY I WANT AND MONEY I MUST HAVE. Come everybody; early, often, and late, and make your selections before the best goods are all gone. Office and Salesroom ALBANY, OREGON.

OREGON LAND COMPANY.

—WITH ITS—
HOME OFFICE AT SALEM OREGON,
(IN THE STATE INSURANCE BUILDING),
Branch Offices in Portland, Astoria and Albany. Has for Sale a Large List of Grain, Stock and Fruit Farms; Also, City and Suburban Property.

THE OREGON LAND COMPANY was especially organized for the purpose of buying and subdividing large tracts of land and has, during the past two years, bought and subdivided over 3,500 acres of land into from five to twenty-acre tracts. The success of the undertaking is shown in the fact that out of two hundred and eighty tracts placed on the market, two hundred and twenty-five have been sold.
We claim that ten acres of better land in fruit, will yield a larger income than one hundred and sixty acres in wheat in the Mississippi valley.
We also make valuable improvements in the way of roads, fences, etc. We can sell a small tract of land for the same price per acre you would have to pay for a large farm.
Send for pamphlet, maps and price list.

SMITH AND SENDERS, ALBANY, OREGON.

Can show you what goods they advertise, all the best, and prices are cut just as deep as any of the boys dare go. Don't forget that we have
