HATCHING AND REARING CHICKS

The Poultry Architect Gives Some Good Ideas Which May Be o. Interest to Poultry Raisers.

Almost every poultry feeder has

terest to our readers: The plan constists in having a separate yard and house, for every three sitting hens. The house consists of a small lean-to shed, built of matched boards or other material, and lined on the inside with tarred roofing. The house occupies a space of 4x5 feet on the ground, is four feet high on the back, and five feet in \$13.50; middlings, \$15@16; rye, 75@80c front. Has a door two feet wide. It also has a 2x4 foot-window in the front, facing the yard, to admit the matched flooring, raised six inches above the ground. Adjoining the house is a yard 9x10 feet in size, in which feed, water and a dusting box are always ready for the hens, they be ing allowed to come off and go back at their pleasure, after being started right. Three hens are to be set at the same Eggs-Oregon, are quoted 20c per time, so that when they hatch the chickens can all be given to one hen, and the other two hens given their liberty or set in another house of the green onions, 10c per dozen; cucumbers, chicks are weaned, when she is given 75c@\$1 per sack; cauliflower, \$1 per her liberty, and the chicks left to keep dozen; tomatoes, 25@40c per box; corn, house for themselves until sold or Beer as—Blackberries, 4c per pound. otherwise disposed of. Low roosts are to be supplied for them if kept beyond the broiler age. The small hole or ventilator, above the door, is to be kept box; Mediterranean sweets, \$2.50@3.00; closed at all times, except during the summer or early fall months. The California Vegetables-Garlic, new window sash should also be removed at ing separated from other hens and house they do not fight or get on the Nurs - Almonds, soft shell, 9@11c wrong nest; convenience and general are built in a row, and face a large grass or clover plot and cultivated field, into which the chicks are allowed to range at will.

Going Into Dairying.

The man who goes into dairying, says L. S. Hardin, must not forget that he must outline some method for mak-The officials say that the soshi are an irresponsible and lawless class, and that their acts cannot be laid to the Japanese people or government.
