Our citizens are taking an unusual amount of interest in the present session of the legislature. They expect that ante-election promises will be made good. That is to say, the repeal of all useless commissions; the state board for the equalization of taxes as now constituted; the refusal to appropriate public funds for other than our public schools; requiring state officers to serve for their constitutional salaries only and turn into the public treasury all fees received by them; refusal to appropriate public money for the Oregon National Guard; and numerous other measures to save the people's money, and, finally, not the least of all, to conduct one session of the legislature on an economical basis. It is safe to say, however, that the people will be disappointed. No great amount of honest and in-the-interest-of-the-people legislation can transpire, when it is so evident that the political boss is in the saddle, as now appears to be the case at Salem.

It is to be hoped that the friends of silver in congress will not attempt to impede tariff legislation, by appending silver riders to the bills. The country will not be thoroughly satisfied that a new tariff law skin to the McKinley bill will not cause prosperity to return, until it is tried. When a tariff law to the liking of the republican majority is tried, and it is demonstrated that it will not increase the price of wheat or cotton nor the price of manufactured goods for export, then the thick headed voters of the country will remember that the advocates of bimetalism predicted that result and that no prosperity could come to the country without a reasonably fair price for what we export—a result that no tariff, be it high or low, can effect. A tariff can only cause the consumers within a country to pay more for what they consume. Exports, be they cotton, wheat or manufactured goods must compete in the world's markets with the products of other countries. The only way in which the market value of our wheat, or cotton, or corn can be appreciated, is to increase the volume of our standard, debt paying money. Unfortunately this fact has not been sufficiently demonstrated to a majority of the American people as yet. The tariff must be completely exploded before many of our honest patriotic citizens will be convinced. For this reason we hope the tariff friend of silver will place a straw in the way of the speedy enactment of any tariff legislation the republicans may propose. Either the republicans are right or they are wrong. The country has decided to give the tariff another trial. Many of us know that it will bring the promised prosperity; but the majority pronounced against us, and we will have to wait for time to demonstrate that fact. While the experience through which we will pass will be dearly bought, and at the expense of thousands of American homes; with an unprecedented increase of crime of every description; we can but wait and suffer the financial and moral wreck that must come, before the people will become satisfied to return to our old time bimetalism and its long prosperity.

Linn county's state tax this year will be \$24,272.78. As much as Crook, Curry, Josephine, Lincoln, Malheur, Morrow and Sherman combined.

The legislature in joint session will consist of 66 republicans, 7 democrats, 17 populists, 3 Mitchell republicans, 2 republican and tax payer's league, 1 Mitchell republican and peoples, 3 union bimetalist and 1 tax payer's league and Mitchell republican.

One reason we have no money with which to build roads is because we have spent it in salaries to individuals given employment by the state as reward for political effort, in fighting Salem, both outdoors and in, and in printing tons of useless and unneeded documents at state expense. If a man spends all his wages on a spree, he will have none for breakfast in the morning.—Oregonian.

If the members of the legislature will take a hint from the above and act in accordance therewith, the people all over the state will arise and call them "blessed."

There are considerable indications that the fine Italian hand of some influential political boss is throttling the legislature right at its commencement. Senators Johnson and Patterson are ambitious men, both of whom would not have given up the fight for the presidency of the senate without a struggle unless some powerful political influence had been brought to bear upon them. With Senator Mitchell's gold standard declaration in the last Saturday's Oregonian and the withdrawal of Senators Johnson and Patterson from the fight for the presidency of the senate, it begins to look as if there had been a deal between Joe Simon and Senator Mitchell. If such is the case, Senator Mitchell will be elected to succeed himself on the first ballot. Can we expect legislation that will be of value to the people, by a legislative body that can be controlled as can be a drove of cattle? Is it any wonder that the public treasury is looted by unjust and extravagant appropriations? We did hope that the people had clamored so persistently for reformation and reform in public expenditure that the present session would be one that all could proudly refer to as the one that turned the tide of extravagance back to the ways of economy and a proper regard to the rights of the masses of the people. But we must confess that this apparent deal in matters pertaining to the election of U. S. senator and the election of the president of the senate looks extremely discouraging to begin with. Had the contest for the presidency of the senate been brought to a vote as between Simon and one of the other of his republican competitors, the deal would not have appeared quite so plainly. Of course the false electing a president had to be done through with on last Monday, but the real election occurred last week at the Imperial Hotel in Portland, and was participated in by but a very few persons, some of whom were not members of the state senate.

## CUBA'S AWFUL DEBT.

Cuba, under present circumstances, is an expensive place for Spain to run. By the official announcement we are informed that the government's expenses from March 4, 1895, to June 30, 1896, were \$73,802,361, without including the cost of the navy, estimated at \$15,000,000; the secret expenses of the Governor General for diplomatic services and the ordinary budget of the island, which is over \$20,000,000.

In the six months from July 1 to the present time it is estimated semi-officially that the Spanish army has cost \$40,000,000 more.

And in return for all this expense—what has it accomplished? The official announcement also states that the official debt of Cuba is now \$425,000,000, bearing interest at five and a half per cent per annum.

The total revenues of the island since the revolution began in February, 1895, have been scarcely \$20,000,000.

In 1893 the custom houses and the lottery and duties on stamps have produced only \$8,000,000. Direct taxes have produced only \$3,000,000. So, it will be seen, Spain has practically lost control of Cuba. Taxes cannot be collected—nothing can be done—and every one must see that the island's debt of \$425,000,000 can never be paid. The insurgents are as determined as ever. The Spanish under Weyler go about burning plantations and butchering non-combatants, but they cannot conquer Cuba.—Philadelphia Item.

## CURBS COMING HOME.

The late bank failures in Chicago and Minneapolis have just one lesson that overshadows all others. The cause assigned is a shrinkage of securities. The language in banking parlance is bad loans, and means that the securities held by these brokers and concerns are not worth the cash that has been advanced on them.

Now, bankers as a rule are not in the habit of making loans which they regard as bad. When the money was advanced on the securities they were undoubtedly regarded as good, and probably would have remained good under other conditions than those which have existed in this country for the past five years. But the securities have so depreciated in value that they have dragged down the institutions which made loans upon them.

Assuming that these securities were good when the loan was made, what has caused them to depreciate? This is a pertinent question. The bankers have controlled the finances of the country for many years and have forced the "existing gold standard" as the St. Louis platform puts it. If under their new policy securities have so depreciated as to cause two of the strongest banks in the middle West to close their doors, not to mention the smaller institutions dependent upon them, would the fact not seem to suggest itself to these men, and to many of them are men of recognized mental attainments, that there is something wrong in their policy? Would it not be wise to investigate and ascertain if they are not wrong in their system, and pursuing a policy that will ruin the larger portion of the institutions which have large loans outstanding? Certainly this would be the part of wisdom.

The News does not hesitate to charge these failures directly upon the grind of the gold standard. The policy advocated by the Eastern bankers has turned to rend them. They have been deliberately running enterprise and industry and advocating and enforcing a policy that has knocked the bottom out from under themselves. Having accepted these securities at a certain value they have proceeded to depreciate the same, and they are now feeling the effects of their own blindness and prejudice. The worship of the golden calf and the destruction of silver have combined to work their ruin. There is no sympathy to be expressed—only a hope that their eyes may be opened.—Denver News.

Why do the Republican leaders contend that the tariff is the only subject for consideration when the money question with the tariff issue in the campaign? Because they have used the tariff as a successful blind for so many years that they expect to divert the attention of the people from the main issue by tariff tinkering while they secure legislation for the banks and the goldites of London and New York.

Our country court will not have the tax rolls changed to conform to the raises in property valuations as made by the state board of equalization, but let the rolls stand as made by Assessor Deakins. The state tax, however, will have to be paid on the basis of the state board's raise.

The Pacific rail road funding bill was defeated in the National house of Representatives on Monday by a vote of 102 to 166. We presume that the government will now commence proceedings of foreclosure against the roads.

The progressive judges of Westfield, Ind., issued a "Woman's Edition" of the Westfield News, bearing the date of April 1, 1896. The paper is filled with matter of interest to women, and we notice the following from a correspondent, which the editors printed, realizing that it treats upon a matter of vital importance to their sex: "The best remedy for cramp colic and bronchitis that I have been able to find is Chamberlain's Cough Remedy. For family use it has no equal. I gladly recommend it." 23 and 50 cent bottles for sale by J. S. MORRIS & Co.

A New Book Spoken Free To All!  
I read the Christian Standard issue dated May 1, 1896, Section 3, St. Louis, Mo., which gave an elegant plan book upon the subject of the ten cent stamps. I sent for one and found it to be just what I needed. It is my friend and made \$1.00 in ten hours, taking orders for the same. The book upon the subject of the ten cent stamps is a masterpiece.
