We have received from the author, Hon. E. Hofer, of Salem, a very neat pamphlet entitled "The School of Politics" and the "American Primary System." We have not yet had time to peruse the booklet carefully but from a cursory glance we see that it argues for a pure fountain head in the stream of our politics, then we may expect a reasonably pure stream. We are requested to give the subject and booklet a more extended thought, which we shall do at a later date.

Going to the strawberry fields and gathering berries has been indulged in by nearly all of our citizens during the past week. 12c per gallon and you pick them yourself has been the prevailing price.

An exchange says a little girl, who had been taught to pray for others and for anything she wanted, would end up her prayer; "And now Oh God, take good care of yourself, for if anything should happen to you we would only have McKinley to help us and he ain't going to do as well as was expected."

What is the matter with the wool market? Buyers appear to touch it lightly of late, nevertheless the tariff on wool is a surety with the passage of the Dingley tariff. 12c per pound is a fair price under present conditions; but the tendency of the price is downward instead of upward as was predicted by the passage of a law protecting wool.

Saturday in Astoria Superintendent Shields had the new reservoir cleaned out, and when the water had nearly all been taken out of the big tank, the bottom was found to be filled with beautiful mountain trout, of all sizes and colors. Mr. Shields had all the fish carefully preserved, and will replace them in the tank after the water is turned in again, says the Astorian.

"We need rain" are words that are becoming very frequently used now-a-days. While it is true that fall wheat and early sown spring wheat or oats will make fair crops without any more rain, late grain and gardens are beginning to need a good wetting down badly. Years ago "June showers" were nearly as regular in visiting us as January storms, and it is quite likely that the present month will not pass without a shower or two.

"For three years we have never been without Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house," says A. H. Patter, with E. C. Atkins & Co., Indianapolis, Ind., "and my wife would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to cure—not simply stop pain, but cure absolutely. It is all right, and any one who tries it will find it so." Mr. Isaac Horner, proprietor of the Burton House, Burton, W. Va., and one of the most widely known men in the state was cured of rheumatism after three years of suffering. He says: "I have not sufficient command of language to convey any idea of what I suffered, my physicians told me that nothing could be done for me and my friends were fully convinced that nothing but death would relieve me of my suffering. In June, 1894, Mr. Evans, then salesman for the Wheeling Drug Co., recommended Chamberlain's Pain Balm. At this time my foot and limb were swollen to more than double their normal size and it seemed to me my leg would burst, but soon after I began using the Pain Balm the swelling began to decrease, the pain to leave, and now I consider that I am entirely cured. President Looney, of the state board of agriculture, says the state fair will be held on the state fair grounds next fall, beginning September 30. A premium list has been printed and is now ready for distribution, and Mr. Looney says the board will go right along with the work of preparation. As to the premiums, the president holds the state is legally bound to pay its annual \$5000 when the board fulfills the requirements mentioned in the act that made the appropriation. He does not know but that some bank may advance the money after the board has done its part. If not, some kind of certificate, setting out that the holder thereof has been awarded a premium, and, in accordance with a statutory provision, is entitled to the named amounts, will be issued in payment of premiums. At any rate, President Looney says the board will go ahead with preparations for the fair.

Committee Met.

A report of a meeting of 14 central committee of the populist party which was held last Tuesday, reached us just as we were ready to go to press. J. J. Board was selected as temporary chairman and J. J. Brown secretary.

A demand of Chairman Hill to meet the committee and call a meeting of said committee forthwith, met with the reply from the chairman that he had called a meeting for July 9, that the present meeting could be attended only by a part of the committee, and that a report of affairs could not be possibly made at that date.

J. A. Finch, editor of The Bell was also summoned to appear and make charges before the committee against county officials that he had been publishing. This he failed to do. The committee then investigated the said charges as to crookedness, etc., and pronounced them wholly without foundation.

The committee then adjourned to meet on July 9, at per call of Chairman Hill.

A Mass Meeting.

A call is hereby made in accordance with an order made by the Union Reform party, at Albany, organized on June 2, to the citizens of all reform parties in Linn county to meet at Lebanon on Saturday June 19, for the purpose of electing a committee which will constitute an executive committee for the county; also a secretary.

D. M. Jones, Chairman.

Who Can Beat It? Robert Cary brought us a hen's egg on Tuesday that measures in circumference longitudinally 8 inches and latitudinally 6 inches. This hen is evidently doing her level best to restore prosperity and is behaving in a very unbecoming manner for a populist hen.

Committee Meeting.

A call for a meeting of the Linn county central committee of the people's party has been published in the "Ever Imprint" signed by "Many Populists," to meet in Albany on June 8, (Tuesday). The notice of the call failed to reach us in time for publication last week. In the same mail we received the following two notices from Chairman Hill which are self explanatory, which we give without comment.

ALBANY, ORE., MAY 31, 1897. To the Central Committee of the People's party of Linn county.

You are hereby notified that no legal meeting of the Central Committee has been called in this county, with or without authority. It is done in the interest of those who seek to destroy the populist party in this county and turn it over to the Union Democratic party at a later date. I have not been requested by any individual or Central Committee man to call a meeting and will not do so until the proper time arrives for such a meeting or I am requested by a requisite number of the Central Committee to make the call.

J. L. Hill, County Chairman.

A Bad Sland.

Glen Brown was assisting in erecting a hop house for A. E. Randall last week and was so unfortunate as to meet with an accident that will lay him up for several weeks if not months. He was engaged in heaving down a corner foundation post or block when he made a misstep with the broad ax resulting in his landing on the toes of his right foot. The great toe was severed at the base of the nail save a small strip of skin on the ball in the second toe was completely amputated, while the third was severed half off. Mr. Brown was brought to this city and Dr. Prill dressed the wounds. The great toe was replaced and stitched, the stump of the second toe and the third properly dressed. At this time we are glad to state Mr. Brown is getting along nicely.

Is a Success.

Our creamery is making headway in gaining the good will and confidence of its patrons. New patrons are being constantly added to the list. Nearly all of the patrons are making contracts with the company to supply milk till November 1 at 60 cents per hundred pounds on the basis of four per cent milk. The butter sells at the top prices in the Portland and Salem markets.

Though last years run of the creamery was disastrous in more ways than one, the present year's business is successful beyond the anticipations of the management and we feel warranted in stating that the Sciò Creamery is now on a basis of satisfaction and profit to all connected.

Pere Arm Broken.

Last Thursday Fred Grinter was hauling poles from off the side of a steep hill or mountain near town when the brake gave way. The team soon became unmanageable and commenced running down the hill in a most reckless and dangerous manner. The wagon soon struck a tree when the driver and most of the load was dumped overboard, resulting in breaking both bones of Mr. Grinter's right forearm near the wrist. Dr. Prill was called and adjusted the fracture. On the following Saturday Mr. Grinter was able to come to town.

Populists Attention.
