An Ugly Trick

Last Wednesday evening as the family of W. H. Wickham was returning from the protracted meetings held near Shelburn, to their home, the front wheel on the drivers side of the vehicle suddenly went down, breaking the axle and pitching some of the occupants out into the road. The team was with difficulty kept from running away, when no doubt some one would have been badly if not fatally hurt. They had just started to leave the school-house, where the meetings were held, when the wheel ran off. Upon investigation it was found the tap had been taken off the spindle on purpose. Some headless boys no doubt done the trick. The family escaped with no serious injury, but were considerably bruised and badly frightened.

Gray, who resides near Merlin, Monday afternoon, while playing with his father's rifle accidentally discharged it, the ball passing through his little 3-year-old sister's head, killing her instantly. The only person near, an old gentleman, a friend of the family, was in an adjoining room. Hearing the shot, he went to ascertain the cause, and seeing what had happened, started for a neighbor's house to inform the children's parents. During the old gentleman's absence, the little fellow, realizing what he had done, ran away from home without hat coat or shoes, and has never been seen since.
