### NO WOMAN IS EXEMPT.

Regularity is a matter of importance in every woman's life. Much pain is, however, endured in the belief that it is necessary and not alarming, when in truth it is all wrong and indicates derangement that may cause serious trouble.

Excessive monthly pain itself will unsettle the nerves and make women old before their time.

The foundation of woman's health is a perfectly normal and regular performance of nature's function. The statement we print from Miss Gertrude Nicks, of Eldred, Pa., is echoed in every city, town and hamlet in this country. Read what she says:

"DEAR MRS. PINKHAM—I feel like a new person since following your advice, and think it is my duty to let the public know the good your remedies have done me. My troubles were painful menstruation and leucorrhoea. I was nervous and had spells of being confused. Before using your remedies I never had any faith in patent medicines. I now wish to say that I never had anything do me so much good for painful menstruation as Lydia E. Pinkham's Vegetable Compound; also would say that your Sarsaparilla has cured me of leucorrhoea. I hope these few words may help suffering women."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

All suffering women are invited to write freely to Mrs. Pinkham, at Lynn, Mass., for advice about their health.

### FIGHT IN CORTES BAY.

(Reported by Downing, Hopkins & Co., Inc., Board of Trade Report, 311 to 314 Chamber of Commerce Building, Portland, Oregon.)

Key West, Aug. 13.—One more name has been added to the small list of navy victims. News has reached here that Emanuel T. Kourloricis, a coal passer on the gunboat Bancroft, was shot and instantly killed during a sharp engagement with Spanish riflemen in Cortes bay, in south Pinar del Rio, August 2. It is not known how many Spaniards' lives paid for his, but the Spanish loss was undoubtedly severe.

The Bancroft was cruising about Cortes bay, on blockade duty, when a sail was seen close to the land, about 10 miles to the northward.

The gunboat's steam launch was armed with a one-pounder, and Lieutenant Henry B. Wilson, with 14 men, all carrying rifles, was sent in to intercept the stranger. She turned out to be a Spanish schooner. When first observed, the Spaniard lay near the wreck of the Santo Domingo, recently sunk by the Eagle.

By the time the steam launch reached that point, the schooner had worked into a port, and a party of Spaniards was attempting to haul her ashore. The launch stood boldly in, and a brisk fire from her one-pounder scattered the crowd. The Spaniards took refuge in high grass on the right shore, but in spite of the fact that the party in the launch was ignorant of the enemy's strength the Americans went ahead with their work with admirable coolness.

James Monroe, a first-class apprentice, swam to the schooner and made a line fast to her in order to pull her out. At the same time, Valdemar Hohenberg, an ordinary seaman, dropped over the side of the launch and swam to the pier, where a small screw-driven boat was moored. The launch then commenced to haul off the schooner, but the line parted, and while another was being run to her, the Spaniards, who had sought shelter in the woods, poured in a murderous rifle fire.

Kourloricis, who was leaning over the side of the launch, was shot through the breast and fell dead. Fortunately no one else was even injured. Instantly the men in the launch began a rapid return of the fire with rifles, while Lieutenant Wilson maneuvered the launch so as to take a line from the steamboat, which had shoved off from the pier. Her bows were pulled out and the one-pounder was opened on the ambushade with such well-directed aim that the Spaniards were routed without a chance to return the American fire.

The schooner had, in the meantime, gone hard aground, and so damaged as to be almost useless. Enough shells were sent into her to finish her destruction. She was loaded with green corn, grain and rum.

Commander Clover warmly praised the gallantry of the launch party, which did not falter under heavy fire, but directed all its energies to rescuing Hohenberg, who alone on the wharf was in a perilous position.

Kourloricis was buried at sea the same afternoon.

### BURLINGTON TRAIN HELD UP

Robbers Reported to Have Secured a Big Hunt.

St. Joseph, Mo., Aug. 13.—The south-bound Burlington exposition flyer was held up two miles north of the city at 9 o'clock tonight by five men well armed, who rolled the Adams Express Company's safe out of the express car and attempted to haul it away. They abandoned their task soon after without getting any money, it is said. The safe was recovered two hours after the hold-up.

Engineer William Gardner obeyed the signal to stop, and one of the robbers cut loose the engine, running it down the track 200 yards. Conductor William Heaton was ordered by the robbers to alight the smoker and remain there. Fifteen shots were fired to terrorize the passengers. No attempt was made by the robbers to enter the coaches.

Express Messenger Frank Hoque offered no resistance when the bandit entered his car. The robbers were but a few minutes in rolling out the small safe and quitting the scene of the robbery. Though the railroad and express men here state that the robbers got nothing, it is reported that considerable booty was secured.

Kansas City, Aug. 13.—A railroad official who ought to be well informed, made the statement that the robbers secured \$5,280 from the safe which they took from the Adams Express Company's car.

### In a Drunken Fit.

New York, Aug. 13.—Police Officer Henry M. Hawley, of the tenderloin station, while in a fit of drunken rage today, shot his wife, his father, Mary Hawley, his son, 4 years old, and his daughter, 8 years old. He then shot himself in the head. He was taken to the Bellevue hospital, where he died soon afterward. The others were taken to the New York hospital. The two children died soon after reaching the hospital, and Mrs. Mary Hawley, the mother of the policeman, died tonight. Her body and those of Hawley and the two children were taken to an undertaking establishment, where they were viewed by hundreds of the morbidly curious.

### Prize Egg in New York.

New York, Aug. 11.—The Spanish tug Humberto Rodriguez, a powerful two-masted vessel, which was captured by the cruiser Badger, July 26, off Neuvas, steamed into port today, manned by a prize crew of 23 men from the Badger, under command of Lieutenant Peters. The American ensign flew from her foremast, and from her mainmast she flew the Spanish colors, the first Spanish flag to be seen in this port since the declaration of war.

Corinth, Miss., Aug. 13.—Muelock Walker, negro, was taken from the jail at 1 o'clock this morning and hanged by a masked mob of 250 men. He had snatched and robbed Charles Desille, who is dying. The negro confessed to the crime and implicated two others.

Philadelphia, Aug. 13.—Secretary French, of the National Relief Committee, today cabled to United States Consul-General Willman at Hong Kong \$1,000, with instructions to use the money to buy food and supplies for the troops at Manila.

### WEEKLY MARKET LETTER.

(Reported by Downing, Hopkins & Co., Inc., Board of Trade Report, 311 to 314 Chamber of Commerce Building, Portland, Oregon.)

Wheat is being held back by farmers, who refuse to sell at present figures. It must not be expected that there will be a free movement until the spring wheat starts. The majority of the wheat delivered in the past 30 days has gone to exporters to fill contracts made months ago. The buying to fill these contracts has taken the bulk of the arrivals, so that millers and elevator people have had to compete most of the time with exporters. The July deal is now out of the way. Foreigners are heavily short of September and December, and until receipts increase the exporters will find it difficult to fill their contracts unless they have taken advantage of the breaks to cover. Every one admits there is more than enough wheat to go around, and the trade is extremely light.

Prospects in the northwest are for a 200,000-bushel crop or about the same as harvested in 1905. Elevator men there are also hedging here.

In Europe the crop situation, as compiled by Hromball of the Liverpool Corn Trade News, was given as follows: The warm breezy weather in the United Kingdom of the past 17 days has been of almost inestimable value to farmers. The cereal crops at the same time have come in at a great pace, and if only a continuance of bright sunshine could be assured for another 17 days, harvest would be in full swing in many important districts. Unfortunately the weather is now unsettled—indeed, the summer seems to be completely broken again.

### IN PORTO RICO.

(Reported by Downing, Hopkins & Co., Inc., Board of Trade Report, 311 to 314 Chamber of Commerce Building, Portland, Oregon.)

American Checked by a Spanish Battery—Wilson's Column Halted.

Coamo, Porto Rico, Aug. 12.—Troop C, of New York, pursued the party of fleeing Spanish troops after the capture of Coamo yesterday, a distance of four miles, along the road to Aybontito. The Americans were checked at the Cuyon river, where the Spaniards had blown up the bridge, and were shelled from a Spanish battery on the crest of Anzote mountain. The dismounted cavalry returned the fire, receiving no damage and holding the position. A battalion of the Third Wisconsin volunteers came to their assistance.

Today General Wilson's column is resting, repairing the bridge and reconnoitering the enemy's position. There are formidable gorges on either side, and the Spanish works are on the crest of the mountain commanding the road. The Spaniards have several guns mounted, among them being two machine guns, sent back into the country from the torpedo-boat destroyer Terra, at San Juan. These positions it will be difficult to flank.

All the men wounded in yesterday's fighting will recover.

### General Macias' Report.

Madrid, Aug. 12.—An official dispatch received here from San Juan de Puerto Rico, says:

"The American forces attacked the heights of Guayama. A guerrilla force, under Major Cervera, kept up a continuous fire for an hour, and held the position, the enemy's attack being repulsed. We suffered no loss. The enemy's losses are not known."

"The village of Coamo was attacked by a largely superior force and had to be abandoned. Our troops are retreating."

### VICTORIOUS CUBANS.

Gomez' Army Forces the Trocha and Marches into Camaguey.

New York, Aug. 12.—The Cuban junta in this city has the following Cuban advice:

"The American army sent into Cuba on the last Spanish expedition, on the government steamer Vandenberg, have been used with good effect by the Cuban soldiers under Gomez, Diaz and Rojas. News of Cuban victories in the western provinces has reached here, one of the battles being the largest and most important ever fought in that part of the island. With the news of victory, however, comes a story of Cuban suffering from starvation and an appeal for further aid from the United States. The principal battle was the result of the success of the attempt of General Gomez, with 3,000 men, to force the trocha between Las Villas and Camaguey, to make his headquarters with the officers of the government of the Cuban republic in Camaguey. The trocha at this point was guarded by 4,000 Spaniards under General Castellanos, and never had been broken before. General Gomez himself led his soldiers, as they made the attack on the trocha and broke through early in the morning. The principal blockades were not heavily garrisoned and were quickly stormed and taken. The Spanish soldiers fell back of the trocha, and there made a stubborn resistance, which they kept up the greater part of the day. In the afternoon, however, the trocha and blockades were a complete charge of the Cubans, and the entire line marched without further interruption into Camaguey. More than 300 Spaniards were killed in the battle and about 130 Cubans lost their lives. There were many wounded on both sides. The Spanish and Cuban wounded were taken to the hospital by General Gomez' physicians, and the Spanish prisoners were liberated after being deprived of their arms."

### Cherokee Connet.

Wichita, Kan., Aug. 12.—The largest gathering of full-blooded Cherokee Indians ever held in the Indian territory is in session at Tucker Springs, Cherokee Nation, an out-of-the-way place on the Grand River. The Indians commenced gathering there Sunday morning, and they are still arriving. The meeting was called by Daniel Holbird, head captain of the Cherokee, for the purpose of discussing various affairs of the nation and the national party, who also select a candidate for chief. Fully 10,000 Indians and many white citizens are in attendance. The meeting will last four or five days, and will end with a big dance. Last year, at a convention of this kind, five men were killed.

### Captain at Key West.

Key West, Fla., Aug. 12.—Vice-President Mendez Capote, of the Cuban provisional government, accompanied by Senator Perillo, arrived here today on the Mascotte. They came from Washington with authority from the navy department to proceed to Cuba on an American ship as soon as possible in order to confer with the Cuban leaders at the seat of the provisional government on the coming elections and other political questions coincident with the restoration of peace.

### West Indian Weather Service.

Washington, Aug. 12.—The West Indian weather service was practically inaugurated today, when the Washington office received reports from six of the ten observation stations recently established there. Professor Willis L. Moore stated tonight that the system is now in complete working order and the department will be enabled to forecast the terrible West Indian hurricanes that for years sweep the Atlantic coast without warning.

### Salmon Men Defiant.

Astoria, Aug. 12.—The salmon fishing season closes at 12:30 today. This has been definitely determined, although some of the packers on the Washington side of the Columbia state that they will continue to fish. Fish commissioner McGuire, however, says that they will not. A conservative estimate of this season's pack placed it at 335,850 cases. The pack last year was 454,200 cases, so the shortage is 118,350 cases.

### "Home-Made" Soda Water.

Plain soda in water—so often recommended for dyspeptics—is a disagreeable drink to many people; but a delicious drink may be prepared to take its place that will prove quite as beneficial.

Take two pounds of granulated sugar, two ounces of tartaric acid, one and one-half ounces of essence of wintergreen, three pints of water and the whites of two eggs. Mix the sugar with the acid and water, let it come to a boil, and boil hard for two minutes.

When cool stir in the wintergreen and the eggs beaten to a froth. Put into jars and set in a cool place. Put two table-spoonsful or less of the syrup in a glass of cold water and foam it up with soda, using from one-fourth to one-half teaspoonful of the soda, just enough to make it foam thoroughly; and it will not only be beneficial, but a delicious summer drink.

### Value of Worms to Farmers.

We often do not appreciate the worth of a thing until we have lost it. The farmers who own the large tract of land in Essex which was in November last flooded by salt water owing to a break-down of a sea wall, may think of this today when they ruefully look at their sodden ground. The despoiled worms, by their constant burrowing, kept the land well drained; but when the sea flood came they were all killed, and sea birds had a great feast. That land, measuring about 50,000 acres, is still in a spongy state, and is likely to remain so until the farmers' friends—the worms—have had time to recover their lost position.
