The Jefferson News, after an illness of thirteen weeks, has silently passed away. It offers as an excuse that it could not stand the prosperity heaped upon it. Its advertising columns contained patronage equal to about four dollars and six bits a month, and we presume it had a list in proportion. A town the size of Jefferson cannot be made to support two papers, and he is foolish who attempts to compel it to do so. One good paper, conducted in a live, up-to-date manner will receive the patronage it merits.

## SCIO'S PUBLIC SCHOOL BUILDING.

SCIO SENIOR BUILDING

THE Scio Public Schools opened Monday with an enrollment of 95 scholars, under the principalship of Prof. T. J. Wilson, with Mrs. A. G. Prill, intermediate and Mrs. M. Munkers, primary instructors. The enrollment was, principal, 30; intermediate, 31; primary, 34. There are many new scholars, and many yet to enter the school, and the enrollment will be over 100 before many weeks. The work of organization only required a short time and the three rooms were soon in as good working order as though the school had been going many weeks.

Scio has one of the best school buildings in Linn county for a town its size—in fact many cities much larger than Scio do not support as good a building, and her schools have always been among the foremost of the county, and the present term under the management of Prof. Wilson and his able assistants will be no exception from the past.

Mr. Morris is Shy.

P. G. Morris, who retired as county treasurer, has not yet been able to fully settle with the county. His books show that the sum of \$2700 is due the county. Mr. Morris says that he has expended no such amount and believes there is some error in his book-keeping. He recently had a partial examination of his books made, but it was found that his private business and that of the county had been kept in one common fund, and that the shortage extended back into his first term over two years ago. The county court appointed C. C. Hogue to expert the books and ascertain the true state of facts as to how much is due the county. Mr. Morris has lived economically and says he cannot figure out where the money has gone. A thorough investigation of the books will be required to explain the matter.—Herald.

Collins met Fry on the street and on pretense of taking him to a place where he could get a cheap suit of clothes induced him to leave out in a lousy gin.

If young Wilhelmina has started in to make a record for genuine popularity she has begun well. Oct. 31, 1887 and 1895 the temperature was 31 degrees. The average rain is 4.06 inches. The greatest monthly precipitation was in 1882 with 11.25, and there was only a trace in 1895.

Friday afternoon the body of Paul Hollman left Corvallis en route to the cemetery at Elmira, Lane county. It is pretty certain that overexertion on a bicycle ride was the cause of death. Ten days ago Hollman arrived in Corvallis to visit the family of John Harshart. He had been picking hops at Hubbard, and the trip to Corvallis was made on a bicycle. He arrived in an exhausted condition from exposure and overwork, and suffered from a hemorrhage. Pneumonia set in, and after little more than a week of suffering he died. He was twenty years of age.—Times.
