Didst Get Her Share.
Mrs. Newcombe (as she puts down the family paper, fondly to her husband)—Oh, Herbert, if I could only read such a lovely obituary notice in the paper about you as I've just read about a man down in Pittsburg. Somehow, blessings seem to me to be awfully unevenly divided nowadays.—Judge.

Scrofula In the Blood

Scrofula lurks in the blood of almost every one and unless its poisonous taints are thoroughly expelled from the system, it is liable to break out in some form of eruptions, skin disease or some other painful form. Hood's Sarsaparilla cures scrofula promptly and permanently.

Hood's Sarsaparilla

Is America's Greatest Medicine. 25 cents.
Hood's Pills cure Indigestion. 25 cents.

As a Brother.
A certain curate was of a painfully nervous temperament, and, in consequence, was constantly making awkward remarks—intended as compliments—to the bishop and others. Having distinguished himself in an unusual degree during the gathering of clergy to an afternoon tea at the bishop's palace, he was taken to task for his failings by a senior curate, who was one of his companions on the way home.

UNCLE SAM'S THANKSGIVING SERMON

ELL, my children, here I am, your Uncle Sam, and I am here to give you a Thanksgiving sermon. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

But, my children, I am not here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us. I am here to tell you that this is a day of thanksgiving, a day when we should be thankful for all that God has done for us.

NICARAGUA CANAL.

A Great Thing for the Pacific Coast—Would Be a Powerful Aid in Western Development.

The Nicaragua canal is a subject very much discussed just at this time on the Pacific coast.

From statistics carefully gleaned by the most authentic authorities, it is shown that from the different nations of the world and the islands of the sea there would pass through the canal a possible annual traffic of 14,000,000 tons, or a certain traffic of 8,000,000 tons, on which, if a toll of \$2.50 a ton was imposed, an annual revenue of \$20,000,000 would be obtained, or over \$19,000,000 over and above operating expenses.

A saving of \$2.50 per ton on what would amount to, say, 8,000,000 tons, and on lumber to \$1 per 1,000 feet. A careful examination made by the Maritime Canal Company shows that a possible one-half of the 8,000,000 tons traffic, which is claimed will pass through the canal, is American commerce, either coastwise or exports and imports.

It is estimated that it will require not to exceed \$100,000,000 to construct the canal, although it is claimed, in a recent statement made by Lyman E. Cookey, a celebrated engineer of this country, that by reason of certain discoveries on the part of the commission, sent by President McKinley to investigate the feasibility of the project, the cost of the canal will be reduced much below the figure of \$100,000,000, on account of favorable dredging in the lower end of Lake Nicaragua, non-existence of rock in the San Juan river to Toro Rapids, good foundation for immense dam at Ochoa, favorable conditions for embankments at San Francisco basin, and a new site for a dam at Tambo Granado.

The farmers of California, Washington, Oregon and Idaho, now further from the world's markets than any other agriculturists, would not only be placed as near Liverpool as their competitors in India, Chile and the Argentine, but they would also have an advantage over their competitors of \$2 per ton, or 6 cents a bushel; for the shortest route from India must be by the Suez canal, and we would have the Pacific South American states pay \$2 per ton on the Nicaragua canal.

Then, too, our Atlantic and Gulf ports would have this \$2 per ton advantage over all their British and European rivals in the great markets of Japan, Korea, Australia and the Pacific islands, as their rivals would be compelled to pay the \$2 per ton toll, whether they went to market via the Suez canal or the Nicaragua canal.

Still Short of Water.
The drought in California this year has not yet been relieved by fall rains, and on November 1 the South Yuba Water Company served notice on all the mines which are operated by its power that no more water could be furnished until after the rainy season had fully set in, as the company could not count on more than enough to fill their contract to furnish Nevada City and Grass Valley with water for municipal purposes. This will hang up nearly a thousand stamps in the district.

End of the Salmon Season.
The salmon packing season is at an end, there being no more vessels due to arrive from the north, and according to the best authorities, says the San Francisco Call, all the canneries on the coast are 1,000,000 cases, or about 33 per cent short of the 1897 pack. The Alaska Packers' Association is some 45,000 cases short, or less than 6 per cent of last year's pack. About 19,000 barrels of salt salmon were shipped from Alaska during the season of 1898.

Shipment of Lead to China.
The Puget Sound Reduction Company, of Everett, Wash., made a shipment of 60 tons of lead last week to the American Trading Company in Shanghai, China. Arrangements have been made for weekly shipments to China and Japan by way of the Canadian Pacific steamship line.

New Brickyard.
A new brickyard will soon be started at Port Orchard, Wash. The machinery has been ready for some time and last week a consignment of small tools was received at the point.

Northwest Jetties.
Baker City is to have an extensive candy manufactory.

It is estimated that \$30,000 net was received by Ashland peach-growers this season.

Over 120,000 sacks of grain have been received for shipment at Alameda, Wash., this season.

A large portion of the Klamath Indians are buying food and other supplies in (Jesse Lake this fall. Many Indian wagons are going and returning from Pine Creek mills each day.

The largest piece of coal that was ever brought to Spokane is now on exhibition there. It weighs 1,400 pounds, and it took seven men to unload it from the car and place it in its present position. It was taken out of the mine owned by the railroad company, at Kootenai.

The Columbia River Logging Company, of Golden, B. C., is preparing to do a big business this winter and the East Kootenai Miner says they want 150 bushmen to work in the woods.

Wages in Washington lumber camps have advanced 25 per cent, and logs are worth \$1.25 and \$1.50 more per thousand than they were a year ago.

The Cathlamet Logging Company has closed down operations for the season, having put in over 2,000,000 feet and have timber enough to last two seasons more.

A new saw mill is being added to Lamont's shingle mill plant at Weller, Whatcom county, Wash., which, when finished, will be capable of turning out 20,000 feet of lumber daily, in addition to the daily output of 50,000 shingles.

What's the use of borrow trouble When we know it doesn't pay? Let's give thanks that we are cragged On last Thanksgiving day.

Adopted Have Reduced the Art to an Exact Science.
Something more than a sharp knife and a tender touch is necessary to be master of the situation, when a turkey is placed before you. The adept carver has the art of separating the joints of the bird down to such an exact science that in one minute they can cut the most gigantic turkey into pieces each a good size for a plate.

Plant the fork into the turkey's breast, and cut off the left wing. This is done with a downward swing that catches the joint. The fork meanwhile, with a pressure on each side of the breastbone, is held stiff and firm in the left hand.

Now press the blade of the knife downward, and remove the leg and second joint. As these fall upon the dish they must be lifted to a small platter to be the carver's way. There should always be a warm platter near the carver.

The third move of the carver is to slice off the breast, removing it in layers parallel to the breast bone. This makes a slice of very good grain, better than if it were cut crosswise.

The fourth stroke is upward from the pope's nose so as to catch the "oyster bone" on the side. This reveals the stuffing, which can be sliced off.

The wishbone is next removed. This is done by slipping the knife under the point of the bone, after the breast is sliced off, and sweeping it downward toward the neck. A very nice portion of the meat comes with it. Follow these directions and carving a fowl will not be difficult.

We Thank Thee, Lord.
For all things which we have withstood,
For all temptations which we have withstood,
For all sorrows which we have withstood,
For all death, and Death's great daughter—Peace—
We thank Thee, Lord!
—Chicago Times Herald.

Something to Be Thankful For.
The Pilgrims' Dinner Given to Indian Chiefs.
The state dinner of the occasion—the real Thanksgiving dinner—took place on Saturday, the last day of the celebration, says the Ladies' Home Journal. "Notwithstanding that the kitchens of these wilderness homes were sadly wanting in many of the most common essentials of cookery, there was no lack of good things nor of appetizing dishes at this great feast. The earth, the air and the water had yielded of their bountiful supplies, and the good dames had done honor to their skill and ingenuity by setting before their hungry guests and companions a repast as sumptuous and tempting as it was varied and delightful. Foremost of all there was roast turkey, dressed with gooseberries, came rare venison pasties, savory meat stews with dumplings of barley flour, delicious oysters (the gift of the Indians, and

the first ever tasted by the white men); great bowls of clam chowder with sea biscuits floating on the steaming broth; soups of all kinds, broiled fish, salads, cakes and plum porridge, while the center of each of the long tables was adorned with a large basket overflowing with wild grapes and plums and nuts of every variety.

It was the time of the Indian summer. The soft, mellow sunlight shone warmly through the drooping haze, illumining the somber woodland with a rich golden light, while the gentle winds of the south, laden with the sweet perfume of the forest, came as a lingering dream of summer to add to the joy and brightness of this Thanksgiving feast. Upon the balmy air arose the hum of many voices and the merry music of laughter, as the pilgrims, with their Indian guests, partook of the feast that the Provider of all things had given them."

CARVING THE TURKEY.
Adopted Have Reduced the Art to an Exact Science.
Something more than a sharp knife and a tender touch is necessary to be master of the situation, when a turkey is placed before you. The adept carver has the art of separating the joints of the bird down to such an exact science that in one minute they can cut the most gigantic turkey into pieces each a good size for a plate.

Plant the fork into the turkey's breast, and cut off the left wing. This is done with a downward swing that catches the joint. The fork meanwhile, with a pressure on each side of the breastbone, is held stiff and firm in the left hand.

Now press the blade of the knife downward, and remove the leg and second joint. As these fall upon the dish they must be lifted to a small platter to be the carver's way. There should always be a warm platter near the carver.

The third move of the carver is to slice off the breast, removing it in layers parallel to the breast bone. This makes a slice of very good grain, better than if it were cut crosswise.

The fourth stroke is upward from the pope's nose so as to catch the "oyster bone" on the side. This reveals the stuffing, which can be sliced off.

The wishbone is next removed. This is done by slipping the knife under the point of the bone, after the breast is sliced off, and sweeping it downward toward the neck. A very nice portion of the meat comes with it. Follow these directions and carving a fowl will not be difficult.

We Thank Thee, Lord.
For all things which we have withstood,
For all temptations which we have withstood,
For all sorrows which we have withstood,
For all death, and Death's great daughter—Peace—
We thank Thee, Lord!

Foremost of all there was roast turkey, dressed with gooseberries, came rare venison pasties, savory meat stews with dumplings of barley flour, delicious oysters (the gift of the Indians, and

the first ever tasted by the white men); great bowls of clam chowder with sea biscuits floating on the steaming broth; soups of all kinds, broiled fish, salads, cakes and plum porridge, while the center of each of the long tables was adorned with a large basket overflowing with wild grapes and plums and nuts of every variety.

It was the time of the Indian summer. The soft, mellow sunlight shone warmly through the drooping haze, illumining the somber woodland with a rich golden light, while the gentle winds of the south, laden with the sweet perfume of the forest, came as a lingering dream of summer to add to the joy and brightness of this Thanksgiving feast. Upon the balmy air arose the hum of many voices and the merry music of laughter, as the pilgrims, with their Indian guests, partook of the feast that the Provider of all things had given them."

CARVING THE TURKEY.
Adopted Have Reduced the Art to an Exact Science.
Something more than a sharp knife and a tender touch is necessary to be master of the situation, when a turkey is placed before you. The adept carver has the art of separating the joints of the bird down to such an exact science that in one minute they can cut the most gigantic turkey into pieces each a good size for a plate.

Plant the fork into the turkey's breast, and cut off the left wing. This is done with a downward swing that catches the joint. The fork meanwhile, with a pressure on each side of the breastbone, is held stiff and firm in the left hand.

Connubialities.

A Missouri man filed an answer to his wife's suit for divorce an agreement signed by both "to disband."

Mr. Woodruff, the New York man who has accumulated 50 wives, simply makes Chicago's Hater-Gates, of seven-wives notoriety, look small.

"I have always had a desire to go on the stage," says the St. Louis young woman who was married last Saturday, and is now seeking a divorce. She not only wants to go on the stage, but she wants to begin as a star.

PERIODS OF PAIN.

Menstruation, the balance wheel of woman's life, is also the bane of existence to many because it means a time of great suffering.

While no woman is entirely free from periodical pain, it does not seem to have been a plan that women otherwise healthy should suffer so severely.

Lydia E. Pinkham's Vegetable Compound is the most thorough female regulator known to medical science. It relieves the condition that produces so much discomfort and robs men of their lives.

DEAR MRS. PINKHAM—How can I thank you enough for what you have done for me? When I wrote to you I was suffering untold pain at time of menstruation; was nervous, had headache all the time, no appetite, that tired feeling, and did not care for anything. I have taken three bottles of Lydia E. Pinkham's Vegetable Compound, one of Blood Purifier, two boxes of Liver Pills, and to-day I am a well person. I would like to have those who suffer know that I am one of the many who have been cured of female complaints by your wonderful medicine and advice.

—MISS JENNIE R. MILES, Leon, Wis. If you are suffering in this way, write to Miss Miles at Mrs. Pinkham at Lynn, Mass., for the advice which she offers free of charge to all women.

A canal connecting the Mediterranean with the Red sea existed as early as 600 years before the Christian era. Its length is 92 miles.

Seems to Get Ripe.
One complaint seems to get ripe in autumn, and that is neuralgia. To soothe the pain, strengthen the nerves and rid the system of it, use St. Jacobs Oil, the best known cure.

From China \$450,000 worth of human hair is exported annually. It comes mostly from the heads of male-factors, painters and deal people.

Stockings were first used in the 11th century. Before that cloth bandages were used on the feet.

When coming to San Francisco go to Brooklyn Hotel, 208-212 Bush street, American or European plan. Room and board \$1.00 to \$1.50 per day; room 50 cents to \$1.00 per day; single meals 25 cents. Free coach. Chas. Montgomery.

Some scientists assert that the purest air in elms is found about 75 feet above the street surface.

FITS Permanently Cured. A St. Louis gentleman after eight days' use of Dr. Kline's Great Kidney and Bladder Cure, writes: "I feel better and stronger than I have for years. I am pleased to recommend it to my friends who need a tonic or to build up a shattered constitution."—J. H. Kline, St. Louis, Mo.

The Asolus harp was the invention, it is believed, of Athanasius Kircher, who lived in the seventeenth century, and it is so called from Asolus, the god or ruler of the winds.

How to Get Strong

A system which has become run down by the trying weather of the past summer is not in a condition to meet the severe winter of this climate and will easily fall a prey to disease unless a proper tonic is used.

Dr. Williams' Pink Pills for Pale People are the best medicine in the world for building up and strengthening an enervated system.

Do not confuse these pills with ordinary purgative pills. They do NOT act on the bowels, thereby further weakening the body. They build up the blood and strengthen the nerves.

Major A. C. Bishop, of 213 Third Ave., Detroit, Mich., is a well-known civil engineer. He says: "When I had my last spell of sickness and came out of the hospital I was a sorry sight. I could not regain my strength, and could not walk over a block for several weeks. I noticed some articles in newspapers regarding Dr. Williams' Pink Pills, and I bought two boxes. I did not take them for my complexion but for strength. After using them I felt better, and knew they did me worlds of good. I am pleased to recommend them to my friends who need a tonic or to build up a shattered constitution."—J. H. Kline, St. Louis, Mo.

At all druggists or direct from the Dr. Williams' Medicine Company, Schenectady, N.Y. Price fifty cents per box.

STEEL SPIRAL CONVEYERS

We carry in stock a large supply of the above conveyers, both right and left, which we will sell at greatly reduced prices. Write for price-list and discounts.

Willamet Iron Works

Front and Everett Sts. PORTLAND, OR.
