The Roseburg Review gets off the following about an old man in Sherman county: An old man in Sherman county would not believe he could hear his wife talk a distance of ten miles by telephone. His better half was at Moro during the recent thunder shower, where there was a telephone, and the skeptic was at Grass Valley, where there was a similar instrument, and being told how to operate the thing he walked boldly up and shouted, "Hello Jane." At that instant lightning struck the telephone wire and knocked the old gent down, and as he scrambled to his feet he excitedly cried, "That's Jane, alright!"

All this warning is caused by the fact that we have added this week a brand new office desk, and its "low gear" affair, either. Its a genuine, solid, red-top desk, and it was made right here in Scio, being the handwork of N. T. Higgins, and was made at H. S. Johnston & Co's planing mills. It is not every town in Scio, and in many cases a great deal larger, which possesses mechanics who can turn out a piece of furniture equal to the desk just completed for this shop. Messrs. Johnston & Co. have laid in a large lot of choice oak lumber and have manufactured many articles of office and library furniture which would be a credit to large manufacturing establishments.
