The Fields of Sport.

From the fields of sport we go to bed and get up full of pains and aches. The next night, by the use of St. Jacobs Oil, we are soothed to sleep and get up cured.

When the French President Travels.

The French president travels free on the railways during his official tour in France, but when the return journey is concluded, his secretary calculates what it would have cost if paid for at regular rates, and this sum is handed over to be distributed among the poorest paid of the railway men.—Tit-Bits.

At last Speaker Reed has been overruled. At a recent annual meeting of the Daughters of the Confederacy, at Hot Springs, Ark., a lively debate arose as to whether the minutes of the previous meeting should be read before business could proceed or not. One daughter ventured to quote Speaker Reed on the subject, but she was promptly overruled and the reading was dispensed with on the motion of another daughter, who asserted vehemently that "Tom Reed didn't known what he was talking about."

RECORD OF A YEAR.

Important Events Crowded the Past Twelve Months.

MUCH HISTORY MADE.

The Year 1898 Will Be Remembered as a Most Notable One.

A Chronological Review Shows It to Have Been Remarkable in Many Respects—War with Spain Takes Foremost Place in the Interesting Record—Concise Story of That Victorious Conflict—International and Internal Dissensions Among European Countries—Disaster and Death at Home and Abroad.

To him who is concerned with history in the making there very rarely comes a year more heavily laden with important events than the year 1898. It has seen every state in Europe, except peaceful Scandinavia and the Dutch communities, face to face with either war or internal dissolution—some of them within measurable distance of both. Yet the greatest effects have not been in Europe; 1898 has seen the United States forced, not by any greed of power, but by its humanitarian ideals, to take its part in European relations. A brief but glorious armed conflict with Spain has been begun, prosecuted to its end and settled by a treaty of peace upon which the ink is scarcely dry. The inception of great political changes has been witnessed in China; two European rulers have come to their death; several men and women prominent in statecraft, military affairs, reform, literature and music, have passed away; the year has been marked by some terrible marine disasters, causing great loss of life; and fire, flood and storm have numbered their victims by scores and caused extensive loss of property.

The chronological table that follows gives the most important happenings of 1898, foremost among which are those of the war with Spain.

STORIES OF RELIEF.

Two Letters to Mrs. Pinkham.

Mrs. JOHN WILLIAMS, Englishtown, N. J., writes:

"DEAR MRS. PINKHAM:—I cannot begin to tell you how I suffered before taking your remedies. I was so weak that I could hardly walk across the floor without falling. I had womb trouble and such a bearing-down feeling; also suffered with my back and limbs, pain in womb, inflammation of the bladder, piles and indigestion. Before I had taken one bottle of Lydia E. Pinkham's Vegetable Compound I felt a great deal better, and after taking two and one-half bottles and half a box of your Liver Pills I was cured. If more would take your medicine they would not have to suffer so much."

Mrs. JOSEPH PETERSON, 513 East St., Warren, Pa., writes:

"DEAR MRS. PINKHAM:—I have suffered with womb trouble over fifteen years. I had inflammation, enlargement and displacement of the womb. I had the backache constantly, also headache, and was so dizzy. I had heart trouble, it seemed as though my heart was in my throat at times choking me. I could not walk around and I could not lie down, for then my heart would beat so fast I would feel as though I was smothering. I had to sit up in bed nights in order to breathe. I was so weak I could not do anything.

"I have now taken several bottles of Lydia E. Pinkham's Vegetable Compound, and used three packages of Sanative Wash, and can say I am perfectly cured. I do not think I could have lived long if Mrs. Pinkham's medicine had not helped me."

May Bring Leprosy to this Country.

It is pointed out that the United States soldiers in Hawaii may contract leprosy there, and bring it to this country when they return. While leprosy is much to be dreaded, there are a thousand times as many victims to stomach disorders and blood diseases, but there is a cure for them in Hostetter's Stomach Bitters. Other common ailments that the Bitters are a specific for are malaria, fever and ague. Sold at all drug stores.

A Short Fight.

The damp autumn nights and mornings stir up sciatica, and then comes a tug of pain. Use St. Jacobs Oil, and then comes a tug to cure it. It is a short fight and the cure is sure.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

The most active volcano in the world is Mt. Sangay, 17,199 feet high, situated on the eastern chain of the Andes, South America. It has been in constant eruption since 1728, and the sound of its explosions is sometimes heard at Quito, a distance of 150 miles, 267 having been counted in an hour.

Healthy, Happy Girls

often, from no apparent cause, become languid and despondent in the early days of their womanhood. They drag along always tired, never hungry, breathless and with a palpitating heart after slight exercise so that merely to walk up stairs is exhausting. Sometimes a short, dry cough leads to the fear that they are "going into consumption."

They are anæmic, doctors tell them, which means that they have too little blood. Are you like that? Have you too little blood? More anæmic people have been made strong, hungry, energetic men and women by the use of Dr. Williams' Pink Pills for Pale People than by any other means. They are the best tonic in the world.

Miss Lulu Stevens, of Gasport, Niagara Co., N. Y., had been a very healthy girl until about a year ago, when she grew weak and pale. She lost her appetite, was as tired in the morning as on retiring, and lost flesh until she became so emaciated that her friends hardly knew her. The doctors declared the disease anæmia, and gave her up to die. A physician who was visiting in Gasport prevailed upon her to try Dr. Williams' Pink Pills for Pale People. She did so, and was benefited at once. She is now well and strong—the very picture of health.—*Buffalo (N. Y.) Courier.*

A SWORN STATEMENT.

I, C. R. Rollins, M. D., of Grass Valley, Or., voluntarily make the following statement: After having my teeth extracted I have had five sets made at intervals of about nine months, three in Portland, one in San Francisco and one in Spokane. With neither of these have I been able to eat a meal's victuals or even an apple or ripe peach. On December 10, 1898, I had my sixth set made by Dr. Stryker, I. O. O. F. Temple, First and Alder, Portland, Or., and within twenty minutes after the time they were put into my mouth I was able to eat a common hard winter apple and a piece of dried venison, and at this time, December 13th, have eaten every meal since with the greatest comfort and with no trouble at all. They are a perfect fit and satisfactory in every respect.

Be Careful How You Sit.

Recently an eminent physician gave utterance to the opinion that appendicitis is more common in this country than in others because of the Yankee custom that men have—and men are more frequently sufferers from the disease than women—of habitually sitting with one leg thrown over the other. This habit, the physician was quoted as saying, restricts the action of the digestive appartus, and especially of the lower intestine, and causes stagnation of the contents and the stretching of the opening of the vermiform appendix, making it possible for obstructions to reach the latter, and thus giving rise to appendicitis. There is no other disease, if we may judge from the attention given to it by current publications, in which the general public takes so much interest as in this one, which is comparatively new to medical practice. Probably much of the popular interest is due to the fact that only within a few years what may be called the literature of appendicitis has reached the reading community.—Leslie's Weekly.
