Among late additions to the herd at Oak Hill Stock Farm, North Yamhill, Oregon, is the fine Shorthorn cow, Missie Rose, purchased of Capt. T. E. Robinson, Ilderton, Ontario. This cow is three years old and has never met defeat in the show ring. Mr. Richardson Gibson, who judged the Shorthorns at the Omaha Exposition says she would have had a walk over for the first prize if she had been exhibited there.

These are dull days for the newspaper. Notwithstanding the fact that the advertising patronage is light at this season of the year the expense of getting out a paper remains just the same—if anything slightly increased. W. lodge here is gaining new members almost every meeting, which proves that the order is one of merit.

Appointment of Legislators.

Under the constitution of the state of Oregon a new appointment is to be made at the next session of the legislature in the various counties of the state for state senators and representatives, the same to be based upon the census taken in 1895. While the population of Linn county has increased from 11,431 to 18,006 during the past ten years, it is likely Linn will loose half a senator, that is instead of having two senators and three representatives as at present, we will have one senator and three representatives, and a joint senator with some contiguous county, probably Marion.

The constitution provides how the apportionment shall be made in the following terms:

"The number of senators and representatives shall, at the session next following an numeration of the inhabitants by the United States be fixed by law, and apportioned among the several counties according to the number of white population in each. And the ratio of senators and representatives shall be determined by dividing the whole number of white population of such county or district by such respective ratios; and when a fraction shall result from such division, which shall exceed one-half of such ratio, such county or district shall be entitled to a member for such fraction. And in case any county shall not have the requisite population to entitle such county to a member, then such county shall be attached to some adjoining county for senatorial or representative purpose.

"A senatorial district, when more than one county shall constitute the same, shall be composed of contiguous counties, and no county shall be divided in creating senatorial districts"

Under the constitution this apportionment will hold until after the census of 1905. Since the adoption of the constitution in 1857 their have been four apportionment acts passed redistricting the state for members of the legisltaure.

It is a curious fact that in all the copies of the constitution printed since the old Deady code, Linn county was entirely omitted in the apportionment fixed by the constitution, but ommission cut no figure, as Linn has been as well represented as any county aithough the name of Linn does not appear in the list of counties in the constitution.—Herald.

It does not cost the real estate man as much as the circulars, they are mailed free of cost to him, and the people who receive them know that the paper tells the truth and can be depended on as an index of the general prosperity of the community. Deeth of Mrs Laura Layton.

Mrs. Laura Layton, daughter of Mr. and Mrs. John South, died at the home of her parents, eight miles southeast of Scio on Wednesday of last week, after an illness of a couple of weeks, aged about 18 years.

A little over a month ago Rev. Elmore, of Brownsville, united in marriage Miss Laura South and A. C. Layton, and on last Friday he was called upon to assist in laying in their last resting place the remains of her who had enjoyed but a few short days the pleasures of a happy wedded life. On the former occassion all was happiness, gayety and pleasnre. The young people started out on lifes journey hand in hand amid the hearty congratulations all who knew them. How changed was the scene in that household in a few short weeks. The happiness was turned to sadness; the cheerful hearts were mourning the loss of a dear one. But such is life, and death respects not the wishes of individuals, but aims its arrow at those whom we most wish to retain and whose love we cherish the greatest. Such was the case in the death of Mrs. Layton. The sorrowing, parents, the grief stricken husband and host of friends who mourn the death of a dear one have the sympathy of the entire neighborhood, and their only cource of relief is in fact that her life here on earth was such as to fit her for a place above among those whose footsteps below had been guided by the hope of a brighter and better life.

The remains were laid to rest in Providence cemetary, and were followed to their last home by a large concourse of heart broken relatives and sorrowing friends.

Both parents gave their consent to the marriage.

PEOPLE .. ..
Can't be Gulled!

We are still at the old stand, and selling loads of goods. People appreciate RIGHT prices. We buy our goods as cheap as MONEY will buy them, and sell them accordingly. Many good people tell us, after comparing, that our goods are yet cheaper than our comped's after they take off their alluring "20 per cent discount." And that's the size of the matter. The fellows are just coming to the prices we have always sold at when they make a reduction of twenty per cent....
