"Spring Unlocks The Flowers

To Paint the Laughing Soil."

And not even Nature would allow the flowers to grow and blossom to perfection without good soil. Now Nature and people are much alike; the former must have sunshine, latter must have pure blood in order to have perfect health.

Hood's Sarsaparilla cures blood troubles of all sorts. It is to the human system what sunshine is to nature—the destroyer of disease germs. *It never disappoints.*

Poor Blood—"The doctor said there were not seven drops of good blood in my body. Hood's Sarsaparilla built me up and made me strong and well."—SUSIE E. BROWN, 16 Astor Hill, Lynn, Mass.

Dyspepsia, etc.—"A complication of troubles, dyspepsia, chronic catarrh and inflammation of the stomach, rheumatism, etc., made me miserable. Had no appetite until I took Hood's Sarsaparilla, which acted like magic. I am thoroughly cured."—N. B. SEELEY, 1874 W. 14th Ave., Denver, Colo.

Rheumatism—"My husband was obliged to give up work on account of rheumatism. No remedy helped until he used Hood's Sarsaparilla, which permanently cured him. It cured my daughter of catarrh. I give it to the children with good results."—MRS. J. S. MCMATH, Stamford, Ct.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

A FILIPINO CREW.

Sailors on the Monmouthshire, Recently Arrived in Portland, Are Natives of the Island of Luzon.

Something of interest at this particular time is the fact that the sailors and coal passers on the Monmouthshire, which has recently arrived in Portland, Or., are Filipinos. On shipboard they are known as Manila men, and regarded as good sailors as ever went before a mast. They are not unlike the Mongolians, and in fact bear so much resemblance to them that one not otherwise informed would put them down for queueless sons of the Flowery Kingdom or subjects of the Island Empire. Some of them have been with the steamer for a long time, and understand English fairly well, besides being well versed in Spanish. They are fully cognizant of the fact that war is now raging between their countrymen and the United States, and believe Aguinaldo "undoubtedly a good man," to use the exact words of one of them. Another said it was no telling where the fight will end or who will get the upper hand. In speaking of the trouble, they are a little conservative, which is not at all surprising, considering the fact that they are strangers in a strange land and under particularly strange circumstances. Although much like the Mongolians in appearance the two people differ much in habits and general make-up. Ruled by a firm hand, yet not too severe, the Filipinos prove good workmen, always willing to perform their share of the duties assigned them, and in case of trouble they can always be relied upon to uphold the side of their superior. This First Officer Kennedy has learned through years of experience.

For Kotzebue Sound.

The first vessel to leave for points north of St. Michaels this year will be the bark Alaska. She will sail from San Francisco for Golovin bay, Port Clarence and Kotzebue sound about May 1, and on her return trip will probably bring the first authentic news from those points. Over 800 gold miners wintered on the rivers emptying into Kotzebue sound, but since the return of the Alaska last year not a word has been heard from them. They were well supplied with provisions and the only anxiety regarding them is in regard to their success or failure in locating deposits of gold.

Chief Moses Is Dead.

Indian Agent Anderson reports that Moses, head chief of the 2,000 Indians on the Colville reservation, died of Bright's disease, at his place near the Nespelin sub-agency. He is nearly 80 years of age, and comes of fighting stock. His father was killed in an Indian war in Montana, and in the same war Moses was wounded. He remained at peace during the Nez Perces war though tempted by Joseph to take to the warpath. He is wealthy in land and stock, and for several years has been drawing an annuity of $1,000 from the government.

Beef Market on the Yukon.

The great beef trust which sold meat at Dawson for $1.50 per pound last year is now almost forgotten and prices are about as low as they are in the states. The poorest beef sells at 15 cents and the best at 25 cents per pound to the quarter. One thing that has forced down the prices is the order that all beef that is not kept in refrigerators by May 1 will be condemned and must be thrown away. There are no refrigerators at Dawson, and none in course of construction, so that the prices will probably go still lower.

The Monmouthshire's Passengers.

Japanese immigration to the United States seems to be assuming larger proportions with the arrival of each steamer. The Fau Sang, which was in Portland a few days ago, brought about half hundred men and women bound for points in California, and now the Monmouthshire comes in with a lot of another hundred, making a total of 150 in less than a month. Only two of the late arrivals were women, and the majority of the men come here to go into the rural districts.

Agriculture in Alaska.

Professor Georgeson, of the agricultural department, accompanied by C. H. Robison and H. D. Neilson, is on his way to Alaska, where he will test the agricultural possibilities of that section. Stations will be established at Sitka, Kadiak and Kenai, and grains, grasses and vegetables will be planted. Professor Georgeson is convinced from the results of his experiments last year that the climate and soil of Alaska are very favorable for agriculture.

Iron Works Sold.

Receiver Newell, of the Columbia iron works, of Astoria, Or., has made a sale of the property to Claude B. Hanthorn, A. Welch and S. T. Harrison, who will continue the business of the company. There were several bidders, including Cawston & Co., of Portland.

To Extend Its Track.

George L. Colwell, of Ilwaco, says it is a settled fact that the Ilwaco Railway & Navigation Company will extend its track to a point above Chinook, where deep water can be secured and better steamer connections made with Portland than are now possible.

Oregon Supplies the Beef.

The lack of rains in California has made meat so scarce and high-priced that beef is now selling there at 8 cents wholesale, as is also pork selling at a higher price. Much of the supply for Southern California is now received from the ranges of Oregon. Hay is very short and grain has advanced to $24 per ton. Considerable Kansas and other hay has been shipped in as well as many importations from Oregon and Washington by sailing vessels.

The Body Found.

The body of Ed Colson, who was drowned in the Sultan river on February 14, 1898, has been found by M. F. Peake, embedded in a sandbar on the north bank of the Skykomish river, opposite the mouth of Elwell creek, about two miles west of Everett.

Moran Bros., of Seattle, have brought suit against the North American Transportation & Trading Company to recover the sum of $37,642 balance due on the construction of Yukon river steamers.

A Woman's Straight Shot.

Washington county boasts of the champion female rifle shot of Oregon. The other day three dogs were harassing the goats belonging to John Heisler, of Gales Creek. The owner was absent, but Miss Mary, his 18-year-old daughter, grasped a rifle and went to the scene of the chase. Upon her approach the dogs fled, but she brought one of them down, while it was running at full speed, at a distance of 176 yards.

Enjoying Wheat Land Rents.

Twenty Indians were arrested for drunkeness at Pendleton, Or., recently. The city jail has been crowded, and the force on the chain gang was decorated with gay-colored Indian robes. This was made the occasion for a "time" by the Indians because they had just been receiving their annual rent for wheat lands. It made the saloon-man's opportunity.

Activity at the Le Roi.

The Le Roi, the crack mine of Rossland, B. C., is being put into shape for the shipment of 500 tons per day. At the 600 foot level the ore runs from $10.50 to $28.10; at 700 feet, from $14 to $17, and the 900-foot level will soon be opened up, while new veins at lesser depths have been cut. Three hundred tons daily, the output proposed, at an average of $17, would yield a profit of about $3,000 a day.

Four Fine Horses.

Spaulding Bros., who have large contracts for cutting logs for the Oregon City paper mills, purchased of Mrs. Judson, of Independence, recently, four large horses, which weighed, respectively, 1480, 1420, 1390 and 1518 pounds. The horse that weighed 1518 was a 4-year-old. The price was $450. Their purchasers will use them in their logging camps.

APIA ATTACKED BY NATIVES

Several American and British Sailors Killed.

GERMANS CAUSED TROUBLE

Admiral Kautz Ordered Mataafans to Disperse—Consul Rose Upheld Rebels —Warships Bombard the Villages.

Apia, Samoan Islands, via Auckland, N. Z., March 31.—The troubles growing out of the election of a king of Samoa have taken a more serious turn and resulted in the bombardment of native villages along the shore by the United States cruiser Philadelphia, Admiral Kautz commanding, and the British cruisers Porpoise and Royalist. The bombardment has continued intermittently for eight days. Several villages have been burned, and there have been a number of casualties among the American and British sailors and marines. As yet it is impossible to estimate the number of natives killed or injured.

As Mataafa and his chiefs, constituting the provisional government, continued to defy the treaty after the arrival of the Philadelphia, Admiral Kautz summoned the various consuls and the senior naval officers to a conference on board the Philadelphia, when the whole situation was carefully canvassed. The upshot was a resolution to dismiss the provisional government, and Admiral Kautz issued a proclamation calling on Mataafa and his chiefs to return to their homes. Mataafa evacuated Mulinuu, the town he had made his headquarters, and went into the interior.

Herr Rose, the German consul at Apia, issued a proclamation supplementing the one he had issued several weeks before, upholding the provisional government. As a result of this, the Mataafans assembled in large force and hemmed in the town.

Tre British cruiser Royalist brought the Malietoa prisoners from the islands to which they had been transferred by the provisional government. The Americans then fortified Mulinuu, where 22,000 Malietoans took refuge.

The rebels—the adherents of Mataafa—barricaded the roads within the municipality and seized the British houses. An ultimatum was sent to them, ordering them to evacuate, and threatening them, in the event of refusal, with a bombardment, to commence at 1 o'clock on the afternoon of March 15. This was ignored, and the rebels commenced an attack in the direction of the United States and British consulates about half an hour before the time fixed for the bombardment.

The Philadelphia, Porpoise and Royalist opened fire upon the distant villages. There was great difficulty in locating the enemy, owing to the dense forest, but several shore villages were soon in flames.

A defective shell from the Philadelphia exploded near the American consulate, and the marines outside narrowly escaped. A fragment struck the leg of Private Rudge, shattering it so badly as to necessitate an amputation. Another fragment traversed the German consulate, smashing the crockery. The Germans then went on board the German cruiser Falke.

During the night the rebels made a hot attack on the town, killing three British sailors. A British marine was shot in the leg by a sentry of his own party, another was shot in the foot, and an American sentry was killed at his post.

The bombardment continuing, the inhabitants of the town took refuge on board the Royalist, greatly crowding the vessel. Many people are leaving Samoa, the captain of the Royalist urging them to go so as not to interfere with the military operations.

The Porpoise has shelled the villages east and west of Apia, and captured many boats.

The Americans and British are fighting splendidly together, but there is a bitter feeling against the Germans.

Two men, a British and a German subject, have been arrested as spies.

The bombardment of the jungle was for a time very hot.

The British cruiser Tauranga, which, it is understood, was intending to annex the Tonga islands (a section of the Friendly islands, in the Pacific), was intercepted at Suva, capital of the Fiji Islands, by order of the home government.

NEAR TO MALOLOS.

The American Army Three and a Half Miles From the Town.

Manila, March 31.—The insurgents have lost faith in Aguinaldo, and he, with his family, are prepared to fly from Malolos.

The American troops in advance today found many natives with their throats cut from ear to ear, thought to be punishment for refusing to fight.

MacArthur is now within 3½ miles of Malolos, having occupied the town of Guiginto, where the troops are resting, preparatory to the adavnce on Malolos.

General MacArthur is arranging to use a railroad car in future operations as a portable fortress.

The advance of the Americans from Marilao has been like a whirlwind. The troops have never wavered.

Situation at Ilo Ilo.

New York, March 31.—A Herald special from Ilo Ilo says: The situation here is unchanged. There is a movement among the natives for another peaceful settlement. It is hoped to emancipate the Visayas from the influence of the Tagalo element, which is responsible for the continuation of hostilities.

Praise for White.

London, March 31.—The Berlin correspondent of the Daily Chronicle, in a dispatch defending United States ambassador White against the charge of pro-Germanism, says: "Such a charge does him the gravest injustice. He is one of the ablest diplomats in Berlin, and simply executes his instructions from Washington in handling the Samoan affair."

Among the Spanish reforms to be introduced by Silvela, a Madrid dispatch says he will sell warships and abolish pensions.

STRONG STATEMENTS.

Three Women Relieved of Female Troubles by Mrs. Pinkham.

From MRS. A. W. SMITH, 59 Summer St., Biddeford, Me.:

"For several years I suffered with various diseases peculiar to my sex. Was troubled with a burning sensation across the small of my back, that all-gone feeling, was despondent, fretful and discouraged; the least exertion tired me. I tried several doctors but received little benefit. At last I decided to give your Lydia E. Pinkham's Vegetable Compound a trial. The effect of the first bottle was magical. Those symptoms of weakness that I was afflicted with, vanished like vapor before the sun. I cannot speak too highly of your valuable remedy. It is truly a boon to woman."

From MRS. MELISSA PHILLIPS, Lexington, Ind., to Mrs. Pinkham:

"Before I began taking your medicine I had suffered for two years with that tired feeling, headache, backache, no appetite, and a run-down condition of the system. I could not walk across the room. I have taken four bottles of the Vegetable Compound, one box of Liver Pills and used one package of Sanative Wash, and now feel like a new woman, and am able to do my work."

From MRS. MOLLIE E. HERREL, Powell Station, Tenn.:

"For three years I suffered with such a weakness of the back, I could not perform my household duties. I also had falling of the womb, terrible bearing-down pains and headache. I have taken two bottles of Lydia E. Pinkham's Vegetable Compound and feel like a new woman. I recommend your medicine to every woman I know."

Turned Down.

"I come to ask you for your daughter," said the young man who has nothing but what he expects to earn, "but I can't express myself."

"Express yourself!" sneered the plutocratic parent. "You don't even need to go by freight. Walking is expeditious enough in this case. Don't forget your hat."—Detroit Free Press.

AN EXCELLENT COMBINATION.

A Successful Enterprise That Is Based on Merit.

A few remedies which have attained to world-wide fame, as truly beneficial in effect and giving satisfaction to millions of people everywhere, are the products of the knowledge of the most eminent physicians, and presented in the form most acceptable to the human system by the skill of the world's great chemists; and one of the most successful examples is the Syrup of Figs manufactured by the California Fig Syrup Co. Unlike a host of imitations and cheap substitutes, Syrup of Figs is permanently beneficial in its effects, and therefore lives and promotes good health, while inferior preparations are being cast aside and forgotten. In olden times if a remedy gave temporary relief to individuals here and there, it was thought good; but now-a-days a laxative remedy must give satisfaction to all. If you have never used Syrup of Figs, give it a trial, and you will be pleased with it, and will recommend it to your friends or to any who suffer from constipation, or from over-feeding, or from colds, headaches, biliousness, or other ills resulting from an inactive condition of the kidneys, liver and bowels.

In the process of manufacturing the pleasant family laxative made by the California Fig Syrup Co., and named Syrup of Figs, figs are used, as they are pleasant to the taste; but the medicinal properties of the remedy are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially. As the true and original remedy, named Syrup of Figs, is manufactured by the California Fig Syrup Co. only, a knowledge of that fact will assist in avoiding the worthless imitations manufactured by other parties. The Company has selected for years past the leading publications of the United States through which to inform the public of the merits of its remedy, and among them this paper is included, as will be seen by reference to its advertising columns.

Wearing by Photography.

A scene memorable in the annals of the weaving industry was witnessed at the Vienna Technical Art museum recently. Herr Jan Szczepanik, the famous young inventor, presented Emperor Francis Joseph with the first web produced by means of his new photographic process. The silk-woven Gobelin is made from a picture by Henry Ranchinger. It is about two square meters in size and gives an allegorical representation of homage to the emperor. The work contains 200,000,000 crossing, 120 silk threads filling one centimeter. Two hundred square meters of pasteboard cards would have been necessary to produce this web according to the present method, and designers would have required many years to carry out the work. Now the designer is abolished, and the work was done in five hours. The emperor was struck with the marvelous plasticity and delicacy of the picture, which nobody would believe to be woven. Herr Szczepanik demonstrated the process at the emperor's desire, and his majesty accepted the gift and congratulated the inventor.—London Chronicle.

"Syphalia" positively purifies the blood, cures syphilis and removes all white ulcers in throat or mouth, copper colored spots on body and eruptions on skin, also catarrh and rheumatism. "Vigorala," the only permanent restorer and invigorator, gives vigor to vital organs and nerves, prevents and cures grip. $1 per bottle, 6 for $5. Trial bottles, either remedy, half price.

An Atlanta woman's life was saved by a steel corset stay, which intercepted a bullet. This is another blow at hygiene.

JOHN POOLE, PORTLAND, OREGON, can give you the best bargains in general machinery, engines, boilers, tanks, pumps, pipes, bells and windmills. The new steel I X L windmill, sold by him, is unequalled.

In London a paving stone which weighed 500 pounds, and which was wedged in on all sides by other stones was lifted up by mushrooms.

PIMPLES

"My wife had pimples on her face, but she has been taking CASCARETS and they have all disappeared. I had been troubled with constipation for some time, but after taking the first Cascaret I have had no trouble with this ailment. We cannot speak too highly of Cascarets." FRED WARTMAN, 5708 Germantown Ave., Philadelphia, Pa.

ALABASTINE

ALABASTINE is the original and only durable wall coating entirely different from all kalsomines. Ready for use in white or twelve beautiful tints by adding cold water.

LADIES naturally prefer ALABASTINE for walls and ceilings, because it is pure, clean, durable. Put up in dry powdered form, in five-pound packages, with full directions.

ALL kalsomines are cheap, temporary preparations made from whiting, chalks, clays, etc., and stuck on walls with decaying animal glue. ALABASTINE is not a kalsomine.

BEWARE of the dealer who says he can sell you the "same thing" as ALABASTINE or "something just as good." He is either not posted or is trying to deceive you.

SEND IN OFFERING something he has bought cheap and tries to sell on ALABASTINE'S demands, he may not realize the damage you will suffer by a kalsomine on your walls.

ENSIBLE dealers will not buy a lawsuit. Dealers risk one by selling and consumers by using infringement. Alabastine Co. own right to make wall coating to mix with cold water.

THE INTERIOR WALLS of every schoolhouse should be coated only with pure, durable ALABASTINE. It safeguards health. Hundreds of tons are used annually for this work.

IN BUYING ALABASTINE, see that packages are properly labeled. Beware of large four-pound package light kalsomine offered to customers as a five-pound package.

NUISANCE of wall paper is obviated by ALABASTINE. It can be used on plastered walls, wood ceilings, brick or canvas. A child can brush it on. It does not rub or scale off.

ESTABLISHED in favor. Shun all imitations. Ask paint dealer or druggist for tint card. Write for "Alabastine Era," free, to ALABASTINE CO., Grand Rapids, Michigan.

Relish for Chops.

Pound fine an ounce of black pepper, half an ounce of allspice, an ounce of salt, half an ounce of scraped horseradish and half an ounce of challots, peeled and quartered. Put these into a pint of mushroom or walnut catsup, and let them steep for a fortnight before straining. A teaspoonful or two of this, mixed with the melted butter which forms the gravy for chops or steaks, is an acceptable addition.—Cincinnati Enquirer.
